COLD WAVE ON THE WAY EAST

Below Zero From Mississippi Valley to Sierra Nevada Mountain Region

Many Cities and Towns Destitute of Coal and Suffering Reported

CHICAGO, Dec. 10.—Below zero temperatures prevailed today in virtually all sections from the Mississippi valley to the Sierra Nevada mountain region and the cold wave began its eastern invasion with sub-normal temperatures of 20 to 50 degrees. In parts of the western country, already hardest hit by the fuel shortage brought about by the strike of bituminous coal miners, many small cities and towns were destitute of coal and suffering was reported. Montana and Northern Idaho were the chief sufferers.

As a further coal conservation measure, the most severe curtailment of Continued to Page 10

DRASTIC FUEL ECONOMY RULES

Passenger Service on All New England Railroads Cut Today

War-time Lighting and Heating Regulations Revived—Meeting of Governors

BOSTON, Dec. 10.—Passenger service on all New England railroads was cut today, in accordance with orders received from Director General Hines of the railroad administration who is co-operating with the fuel administration. The New York, New Haven & Hartford dropped 154 trains, the Boston & Maine 72, the Maine Central 17 and the Boston & Albany five.

Results of Municipal Election in This City Yesterday

MAYOR PERRY D. THOMPSON

Perry D. Thompson Defeats John J. Gilbride For Mayor by Big Majority—Salmon and Donnelly Chosen Commissioners—Delaney and Markham Elected to the School Committee

Lowell voters brought the 1919 political season to a close yesterday by electing Perry D. Thompson mayor, John F. Salmon and James E. Donnelly aldermen, and Thomas B. Delaney and James E. Markham members of the school committee. Each officer was elected to serve for two years, 1920 and 1921. Mayor Thompson and Alderman Donnelly were re-elected.

Mayor Thompson defeated John J. Gilbride by a majority of 2407. His total vote was 5514 and Mr. Gilbride's 3107.

Commissioner Charles J. Morse and George H. Brown were the unsuccessful candidates for alderman. Mr. Brown came in third and Mr. Morse fourth. The vote for alderman was: Salmon, 3567; Donnelly, 6793; Brown, 6136; Morse, 4473.

James E. Lyle and James H. Rooney were the defeated school board candidates. The vote was: Delaney, 8244; Markham, 5320; Lyle, 1867; Rooney, 6742.

The city voted for license more emphatically than ever before. The "yes" vote was 10,354 and "no" 4055.

The election followed a campaign in which chief interest centered in the mayoralty fight. Mr. Gilbride, who had been defeated for the nomination two years ago by a scant margin, again came to the front as an aspirant for the city's highest office and won his nomination by a safe margin. From the date of the primaries until the day after Thanksgiving, neither Mayor Thompson nor Mr. Gilbride did any active campaigning. But on that day both held noon-day rallies and from then on until the very eve of election day, each candidate worked untiringly for success.

Many reasons may be assigned for Mayor Thompson's re-election. One was a compact, competent and hard-working campaign organization. Another was the natural tendency of voters to give a mayor a second term in office. A third reason was the effective impression which His Honor made on the voters in defending his administration and pointing out its constructive features.

Mr. Gilbride's campaign organization was hardly less enthusiastic than that of the mayor but it lacked the subtle "something" that brings success. Both candidates indulged in extensive campaigns of newspaper advertising which helped more than any other feature to create interest in the election.

The aldermanic fight produced few surprises. Mr. Salmon was conceded top position as the result of the big vote he polled at the primaries. Some of his more eager friends were a little worried as election day approached because he had not put up such an active campaign after the primaries as he had before but their fears proved unfounded because the former Knight of Columbus secretary walked away with one of the biggest aldermanic votes ever cast here.

Second place was really the nucleus Continued to Page Nine

CITY COUNCIL HOLDS MEETING

Discusses Foundation For New Water Department Pump

Engineer F. A. Barbour Gives Facts and Figures as to Cost

Frank A. Barbour, a well known Boston consulting engineer, presented facts and figures to the municipal council at its meeting this morning concerning the cost of removing the old foundations and piping at the West Sixth street pumping station to make room for the new Snow pump which is scheduled to be delivered early in February and the building of new foundations and providing new piping and engineering inspection incidental to the installation of the pump. Mr. Barbour has made a survey of the work at the request of Commissioner Charles J. Morse of the water department and his statement this morning was in the nature of a report. He estimated the total cost of the work, exclusive of the pump itself, of course at \$13,365.

Incidentally he urged that the matter be given immediate consideration as he said that only one pumping machine stood between the city and no water. The council voted to take the matter under consideration for a week before giving out the contract for the installation of new foundations and the removal of the old.

Meeting in Detail

The meeting was called at 10.15, with all members present.

Ervin E. Smith petitioned for lights in Market street. Referred to Commissioner Murphy.

FOR SETTLEMENT OF COAL STRIKE

Union Officers at Indianapolis Expected To Accept Proposal Today

Yesterday's Announcement Premature—General Committee of Union in Session

INDIANAPOLIS, Ind., Dec. 10.—The general committee of the United Mine Workers of America reconvened shortly before 10 o'clock this morning for further consideration of President Wilson's proposal for ending the strike of 160,000 bituminous coal miners of the country. It was generally expected the proposal providing for the immediate return to work at the mines at an increase of 14 per cent in wages and the appointment of a commission of three men to adjust wages, would be accepted before the conference adjourned for the day.

As the committee which consists of international and district officers and members of the executive board and scale committee, gathered, gossip as to the causes of the prolonged session was rife. With very few exceptions, however, all agreed that President Wilson's proposal would be accepted some time today.

MANSLAUGHTER CHARGE IS DISMISSED

Found not guilty of manslaughter in connection with the death of four-year-old Dorothy Lyon of West Andover, who was struck and fatally injured by an automobile in Bridge street near Merrimack square on Oct. 7, Percy D. Smith of Methuen, driver of the car which struck the girl, was discharged by Judge Enright when his case was called on continuance in police court today.

The fatality occurred shortly after noon. The little girl, with her mother, Mrs. Esther Lyon, was crossing the street near Fairburn's market when Smith's machine struck them. Continued to Page Six

MAYOR THOMPSON THANKS VOTERS

To My Fellow Citizens:
It is with heartfelt gratitude that I offer my deep appreciation for the magnificent endorsement you have accorded my administration. I view your renewed expression of confidence in me as an instruction to continue in the same path of duty as has marked my career in office during the past two years.
I am mayor of all the people, and at your service.
PERRY D. THOMPSON, Mayor.

My Fellow Citizens

I am deeply grateful for the honor done me—

I shall approach my duties with the firm resolve to merit such confidence.

JOHN F. SALMON,
96 Coburn Street.

PRINCIPALS IN TRUNK MYSTERY

LAWTON, Mich.—Mystery beginning with the discovery of the embalmed body of Miss Maude Tabor in a trunk in her home is centered about these three principals. Mrs. Critchlow, Miss Tabor's sister, who found the body, is being detained with Joseph Virgo, an embalmer, and former sweetheart of the dead girl. Mrs. Sarah Tabor insists the body is not that of her sister-in-law.

CONGREGATIONAL CLUB

Entertained at Eliot Union Church—Interesting Address by Dr. Barton

The Lowell Congregational club was entertained last evening at the Eliot Union church. Supper was served at 6:15 o'clock, followed by a brief business meeting and a splendid address by Dr. James L. Barton, head of the poor relief expedition on "Have the People of Turkey any Claim Upon America."

The women of the church served a satisfying meal and Mrs. A. C. Spaulding sang, accompanied by Mr. Spaulding. Rev. A. G. Lyon of the Pawtucket church presided. In response to a communication from Lowell Community service, A. K. Whitcomb was elected to represent the church on the community council. Twelve new members were added to the roll.

Dr. Barton then was introduced and spoke in part as follows:

"You never have read any story of atrocities, that is exaggerated. It would be impossible for our workers to live under such conditions, without absolutely shutting up the springs of the heart. One of our doctors went to pieces because he could not endure it. I had to caution my workers not to allow their sympathies to get possession of them."

"The relief organization is now ministering to over 60,000 children, and there are at least 65,000 more that should be reached. It has also established refugee homes for girls who escape from the Moslems. The organization, he said, has got to be supported by America, until something can be done politically with that country. The United States government has just given the organization 35,000 tons of flour to feed refugees over there who are absolutely destitute."

Dr. Barton thinks there should be a separate mandate for Constantinople, and that that should be the seat of the League of Nations, right in the storm center. All the peoples of these countries want America. They would accept England as a second choice, but they will not have France. It is not a military proposition. They want America to go in as a civil government. A military man told him the other day that two divisions, officered by Ameri-

cans, would be necessary at first, but that the number could be greatly reduced when order is established. It would have to be a stern government in the first place. All the disturbing elements would have to be taught that killing would not be tolerated.

It would take 500 millions of dollars to do the job thoroughly, but within two years that country would be an exporter of supplies to the world. The whole amount of money expended would be paid back with interest in 15 years. "America can do it," he said. "There is no country in Europe that can. And unless we accept our share of the burden of reconstruction we are in danger of facing a new world war inside of a few years."

At the close of the meeting a resolution was adopted, urging the speedy ratification of the peace treaty and the acceptance, by this nation, of its share in the reconstruction of the world. Dr. Barton urged that everyone write the senators and urge ratification.

A book written more than 1,000 years ago mentions two breeds of poultry still being raised in China, while incubators now used are the same in principle as those employed in Egypt 1,000 years ago.

TWO WEEK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read the newspaper about the Vegetable Compound and when my second child came I took it and was very comfortable during the whole time, and childbirth was a hundred times easier. Ever since then I have used it and would not do without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound as it keeps away all good health. You may publish my testimonial for the good of other women if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, leucorrhea, backache, headaches, nervousness should lose no time in giving Lydia E. Pinkham's Vegetable Compound, a trial, and for special advice write to Lydia E. Pinkham Medicine Co., Lowell, Mass.

HOPKINTON SCHOOL ROW

Seven Arrests—Strike of Pupils Follows Discharge of Teacher

HOPKINTON, Dec. 10.—As a result of the demonstration last Saturday night at the high school building, when the school committee in executive session voted to discharge Miss Ellen M. Duffey from the high school faculty, warrants were issued for six men and one woman under the anti-anarchy act of 1919 at the district court at Framingham by Judge Kingsbury yesterday. Those charged with disturbing the peace under the act are:

Rosilla Ford, also charged with assault and battery on School Committee member T. S. Roach; Edward Condon, minority member of the school committee; W. B. Lyman, superintendent of schools; Claude Guyton, L. D. Drawbridge, Douglas MacMillan, John Hunt. Deputy Sheriff William H. Walsh of Framingham was the complainant. The writs, issued under the anti-anarchy act, are returnable at the district court in Framingham Dec. 13.

The warrants yesterday afternoon came at the conclusion of an eventful day at the high school.

Deputy Sheriff Walsh came from Framingham earlier in the day to compel Miss Duffey to leave the school building, and when she retired, she was accompanied by 48 out of the 53 pupils in the high school.

The students declared on their walk-out that they would not return unless Miss Duffey were reinstated.

A petition was circulated yesterday to be sent to the state board of education.

Why Catarrh Is Risky

Have you pains over the right eye, pains over the left eye, pains across the front of the head? Do you take cold easily, sneeze a great deal? Do you sneeze until you become dizzy? Does first one nostril, then the other, close? Have you a discharge from your nostrils? Are you losing your sense of smell? Do crusts form in your nostrils? Do you sleep with your mouth open? Does your throat feel dry, as if it had been dusted over it? Does your throat tickle as if a hair had lodged in it? Do you have to be constantly clearing the throat? Is your hearing failing? Have you unnatural sounds in the ears? Are these sounds like steam escaping or like water falling? Do your ears feel like they were stopped up? Does the wax harden in your ears? Do your ears discharge?

Have you distress after eating? Do you bloat with gas? Does your heart palpitate? Does your heart miss beats? Are you short of breath on going up stairs? Have you pains in the chest? Have you soreness behind the breastbone? Have you stitches in your side? Have you a dull ache under the shoulder blades? Have you an irritating cough?

These are important questions for you to answer. If they indicate catarrh at work in the nostrils and throat, in other words they indicate catarrh that is spreading from the nostrils and throat into the ear tubes, and this may rob you of your hearing.

In others it tells of the catarrh that has reached the stomach. In this way, the entire system becomes poisoned by catarrh. In others it indicates diseases that begin like a cold in the nostrils and throat, but which have traveled down into the windpipe and lung tubes. Diseases in the air passages make sore places. This causes the chest pains and the cough that brings up the material thrown off by the sore places.—Adv.

8 VISITS FOR \$5

If you suffer with clogged nostrils, discharging nostrils, are going deaf or have head noises, or discharging ears, or have a bad throat or bad stomach, or gasp for breath and suffer from other distressing symptoms of asthma, I will be pleased to have you call at my office. It will cost you nothing for an examination and if you begin treatment now you will receive eight office treatments for \$5.00, and this same low rate will hold good until you are well. This includes all diseases of a catarrhal nature, whether the disease be in the eyes, ears, nose, throat, bronchial tubes or stomach.

Infant demanding that the teacher be reinstated.

The charges against Miss Duffey are that she waved at a street car conductor and that she "insulted" the mother of two of her pupils.

According to the testimony of Helen and Eugene Maddigan, in a classroom exercise, they wrote for a Pullman berth for their mother, and when they omitted to state whether upper or lower, Miss Duffey said, "Surely your mother should have a lower berth—your mother would not want to climb into an upper berth."

Influencing her pupils against accepting diplomas signed by Mr. Roach and T. B. Elliott of the school committee, and instead urging them to accept those issued by Edward Condon, the minority member of the board, and W. B. Lyman, superintendent of schools, it is alleged.

It was estimated yesterday that fully 90 per cent of the residents of the town are with Miss Duffey and brand the charges as ridiculous.

The 21st verse of the seventh chapter of Ezra contains all the letters of the alphabet except "J."

Some time ago, in the front of a large London (England) building, was found a pigeon's nest made of hair-pins.

The Price of Pork Chops and Bacon

Here are reasons why the fine, fresh pork tenderloins and pork chops, or savory ham, or crinkly bacon, which you enjoy for breakfast, cost much more per pound than the market quotation on live hogs which you read in the newspaper.

An average hog weighs 220 pounds. Of this, only 70 per cent (154 pounds) is meat and lard.

So, when we pay 15¢ a pound for live hogs, we are really paying more than 21¢ a pound for the meat which we will get from these animals, even after taking into account the value of the by-products.

But people show a preference for only one-third of the whole—the pork chops, fancy bacon, and choice cuts from juicy hams.

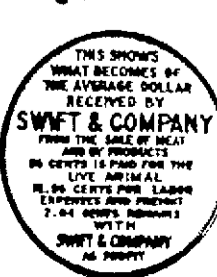

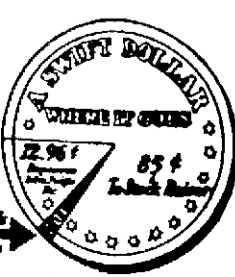

This means that when we are selling Premium bacon at 43½¢ per pound wholesale and Premium hams at 30¢, there are other parts for which we get as low as 6¢ or 8¢ per pound. The net result is an average profit to us of less than 1¢ a pound.

The choice cuts are higher because of a demand for them.

Another thing: Only 35 pounds of the entire hog—or about 1/6 th—is usually marketed at once. The rest must be pickled, cured, or smoked. This takes months, and adds to the costs which must be met.

AMERICAN RED CROSS

North Middlesex Chapter
Holds Annual Meeting—
Organization Thriving

North Middlesex chapter of the American Red Cross held its annual meeting yesterday afternoon in Middlesex hall, with a large attendance in spite of the uncomfortable weather.

Reports made gave fine evidence of activity and a thriving organization. Robert W. Marden was elected president for 1920 and with him will serve the following board of officers: Vice president, George Stevens; secretary, Miss Ruth Burke; assistant secretary, Mrs. George A. Leahy; treasurer, George R. Chandler; assistant treasurer, Miss Julia T. Povey; membership secretary, Mrs. Joyden H. Pillsbury; civilian relief director, Miss Alice Sullivan.

The chapter has a membership enrollment for 1920 of 28,602 of whom 16,565 are in Lowell and 12,046 in the towns of the district. The total chapter receipts in 1919 amounted to \$133,213.15 and the total disbursements were \$81,591.53, leaving a balance as of Nov. 1, the end of the fiscal year, of \$48,751.52. Approximately \$24,000 of this money will go to national Red Cross headquarters.

Miss Ruth Burke gave an entertaining talk of Red Cross work in Europe as she saw it and said that people of this country can rest assured that the money they gave and the work they did was put to good use overseas.

The annual report of the secretary proved most interesting and was presented by Mrs. Leahy, assistant secretary, as follows:

North Middlesex County Chapter—Annual Report, Nov. 1, 1918
Nov. 1, 1919.

Immediately after the signing of the armistice, Nov. 11, 1918, the North Middlesex Chapter commenced to cut down on production.

The regular attendance in the local work room was greatly lessened. The kind of work produced changed from hospital supplies to refugee garments and knitted articles for refugee children replaced the sleeveless sweaters, socks, etc., which were being made for the fighting soldiers.

During the past year the North Middlesex Chapter manufactured and sent to division headquarters 217 cases of goods which contained 10,157 knitted articles, 15,607 garments, 73,106 miscellaneous things and 561 layettes.

When it was found impracticable longer to retain headquarters at the Bigelow-Hartford plant, there was considerable thought given to prospective work and the possible need of a smaller workroom; finally a decision was reached by the executive board to cease entirely in production unless special requests were made for work in which case materials would be secured from the division bureau of supplies.

It was found on canvassing the branches that many were willing to continue work if necessary but desired a brief respite in the sewing and some of our branches wished to have as the principal Red Cross activity the work for returning soldiers and their families, through the home service committee.

Instructions soon came from Mr. Jackson in which he desired each individual to account to the chapter office for time served at Red Cross work for the three six-month periods when the United States was at war, and after many hours of figuring 435 badges and 47 buttons were given, together with 422 service certificates, to the many applicants in Lowell and the towns.

Early in December the Red Cross established an information booth in the Boston & Maine station, so that any assistance desired by the returning soldier might be rendered, but after trying it out for one month it was found that the various local organizations could sufficiently do that work, so the booth was discontinued.

The week of Dec. 16-22, 1918, brought forth many efficient workers to "carry on" the second roll-call for members. The result was that North Middlesex chapter boasted of over 47,000 members.

In November, 1918, more than 9000 pounds of clothing were shipped to New York for relief of the Belgians.

In March, 1919, more than 7129 pounds of clothing and shoes were shipped to the Baltic terminal for other foreign countries in distress.

This chapter was represented at the Atlantic City conference in June, 1919, by Miss Povey, assistant treasurer, and

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Thin Nitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing strong muscles, and replacing ugly bulwags and angles by the sort curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as Nitro-Phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the body cells with the necessary phosphoric food elements, Nitro-Phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect health.

CAUTION:—While Nitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it should use extra care in avoiding fat-producing foods.—Adv.

Will There be Music in Your Home This Christmas?

LEAVE YOUR ORDER NOW FOR FUTURE DELIVERY

Miss Alice Sullivan, field director in home service.

In August, 1919, the chapter offices were moved from the Bigelow-Hartford mill to 81 Merrimack street.

When the United States army offered to put its surplus stock of supplies in the market, the Red Cross offered its Bigelow-Hartford home an aservices to the municipal authorities, with the result that three successful food sales were conducted to benefit the public in this country.

During the past year first aid and home nursing classes were conducted and in November, 1918, a Christmas box committee worked constantly inspecting and mailing the parcels for overseas.

The membership drive for 1919 will be officially and financially accounted for under next year's report, as this report reads from Nov. 1, 1918, to Nov. 1, 1919. However, a 12 months' period will be too long to lapse ere we publish the results of the splendid work of Paul R. Chandler, chairman of the third roll-call, and that of his faithful supporters and co-workers, the team captains and their co-workers.

To them is due vigorous applause with thanks, for they had to dispel many dark clouds before opening the

campaign at all, as the general comment was: "The war is over—why does the Red Cross need money now?" After hearing the enthusiastic speakers tell of their experiences in Europe, and of the assistance rendered in every quarter by Red Cross officers, one and all decided a permanent organization must be supported; therefore we have on our files names of 15,660 men and women as Lowell members in addition to 12,046 for the towns, which together make a total of 28,602 for the chapter; Ayer having 610; Bedford, 295; Billerica, 233; Hurlington, 173; Carlisle, 211; Chelmsford, 989; Dracut, 321; Dunstable, 127; Groton, 509; Littleton, 237; Lincoln, 195; Pepperell, 550; Reading, 1055; Stoneham, 1642; Tewksbury, 310; Tyngsboro, 158; Wakefield, 1661; Westford, 605; Wilmington, 407; total for the towns, 12,046; Lowell, 16,556; grand total, 28,602.

We are glad to extend thanks again for the cordial hospitality offered by the Bigelow-Hartford Co. and by the United States government through the United States Cartridge Co., also for the many services rendered by them.

And last but by no means least I report the receipt of a complete record of every dollar collected during the third roll-call, which balances the

membership files, and this is through the earnest efforts of W. N. Goodall, third roll-call campaign treasurer.

ALICE D. LEAHY,
Assistant Secretary.

Dec. 9, 1919.

FIRE AT TILTON, N. H.

Two Women Rescued From Burning Block

TILTON, N. H., Dec. 10.—Two women were rescued from the Thompson block in the heart of the business section during a fire early today. The entire business section was threatened by the

flames which destroyed the Thompson block and damaged an adjoining building. Assistance was summoned from Laconia. The loss was estimated at \$50,000.

NEW LOW RECORDS

Sterling and Francis Continue To Fall
NEW YORK, Dec. 10.—Rates of sterling exchange continued their downward course today, checks being quoted at \$3.80 or 1½ cents lower than the

lowest quotation reported yesterday.

Francis also declined to a new low record, checks being quoted at 11.52 for the dollar, off 32 centimes from yesterday's closing prices. Life checks also dropped 17 centimes and were offered at the rate of 13.47 for the dollar. The German mark, worth 23.8 cents before the war, has dropped to less than two cents, quotations being made at 1.38 cents.

An automobile of the limousine type has been invented with a telescoping body that can be drawn out to afford more room when tourists wish to use it for camping.

ADEQUATE MAP FOR MILITARY PURPOSES

WASHINGTON, Dec. 10.—Need of an adequate map of the whole territory of the United States for military purposes as well as a means of promoting national development was emphasized in the annual report today of the director of the geological survey. Nearly 60 per cent of the area of the country is totally unmapped, the report said.

MARGARET LARRAMORE

WEDS DASHING ARMY CAPTAIN
AND THEN FINDS HE'S ALREADY MARRIED

(N.E.A. Special to The Sun)

DENVER, Dec. 10.—Three romantic days of honeymoon in a mountain-top inn have brought disgrace to an army officer after a distinguished record in France, heart-break to his wife and disillusionment to the girl he bigamously married "because she was pretty and sympathetic."

Mrs. Ira L. Irving and her eldest son, Floyd, have come from her home in Flint, Mich., to plead for lenience before the army court-martial which will try Captain Irving for dishonoring the uniform. His mother is also here to plead in his behalf.

Miss Margaret Larramore, who took pity on Captain Irving while he was a patient in United States Hospital No. 21, recuperating from the effects of gas poisoning received in action, has obtained the annulment of her marriage and is determined to rise above the experience which at first threatened to wreck her life.

"I must have been mad with love-

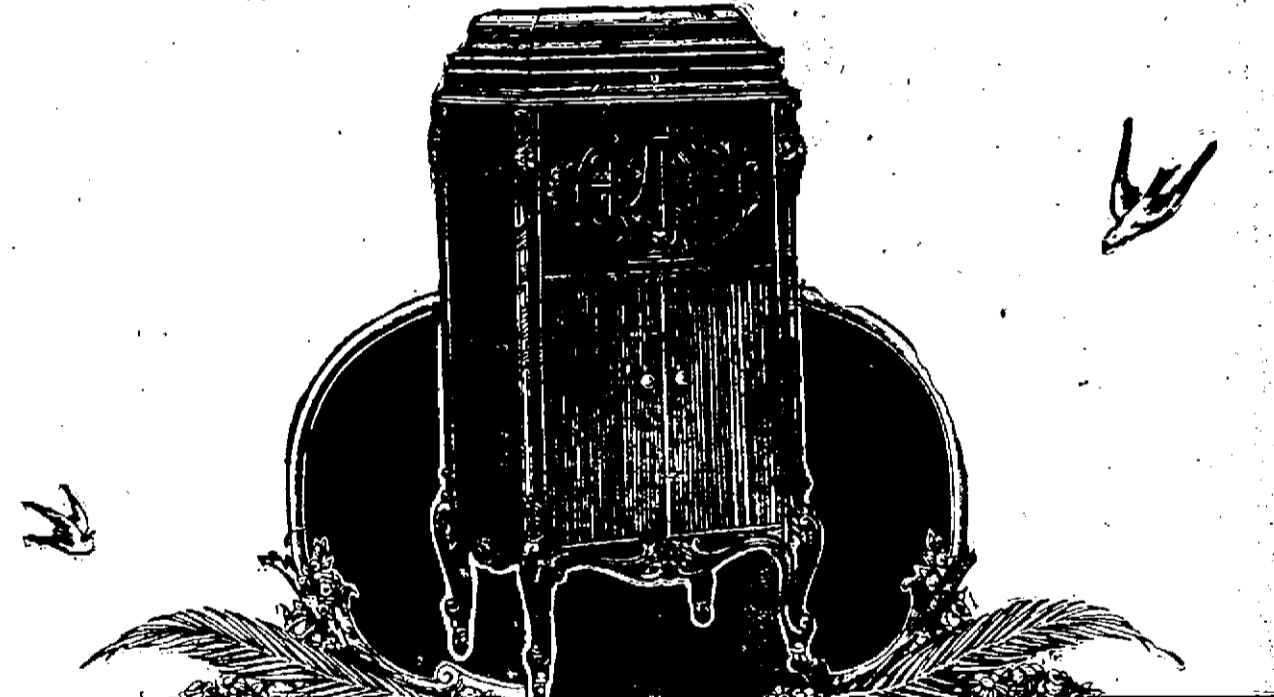

sonness," says Captain Irving, prisoner in a disciplinary ward of the hospital. Soon after intelligence officers arrested him with his duped bride in their mountain retreat, he escaped, but was recaptured as he was about to start back to his family in Michigan.

"I think I have given enough to my country," says Mrs. Irving. "We have been married for 20 years and have five children who need their father."

"We need him, too. I would not ask him to come with me unwillingly, but I know he cares nothing for this girl. He has written that homesickness was preying on his mind and I know that he was unbalanced mentally."

Miss Larramore, 23, met Captain Irving at a Y.W.C.A. dance given for convalescent officers. She sympathized with him, and when she quarreled with the young man to whom she was engaged, she yielded to the captain's plea that she marry him. Not until several weeks after his arrest did she learn the truth.

"I am sorry for Mrs. Irving," said Miss Larramore. "I am young and will survive. I have no reason to be ashamed."

Exquisite Tones that Thrill the Soul

PHONOGRAPHIC tone reproduction reaches its climax when presented by The Brunswick. Play any make record—vocal or instrumental—and the utmost in tone quality is achieved.

Such triumphant success is due to the Brunswick Method of Reproduction. This is accomplished by two exclusive features. Both are scientific yet simple. They are pictured and explained briefly, below.

The Brunswick Phonograph has built into it the best ingenuity known to the

The Brunswick

phonograph world. It embodies every worthwhile present-day feature.

It has discarded every old fashioned crudity. Hitherto lost elements in phonographic sound interpretation are now restored.

The Uthons plays all records, truer, finer, sweeter. It is not a makeshift con-

trivance but involves a genuine principle of sound.

A slight turn of the hand presents the right needle, diaphragm and weight for playing any record.

The Tone Amplifier is an oval shaped vibrant tone chamber.

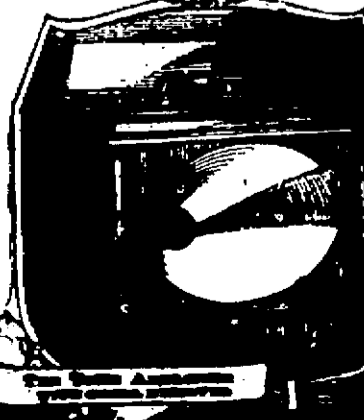

Like the sounding board of a fine piano or violin, it is made entirely of wood and free from metal. Thus it gives the requisite tonal volume and eliminates all harsh, thin, metallic sounds. It meets all advanced acoustical and musical laws.

Come in and we will gladly give you a free copy of "What to look for in buying a phonograph"

You will want this interesting and instructive booklet before you buy because it is authentic. It was written by Henry Purmort Rames, LL.B., Concert Pianist and Lecturer, Director Pianoforte Dept., Cosmopolitan School of Music, Chicago.

The Store of Absolute Satisfaction.

Theodore Roosevelt's Letters to His Children

Edited by Joseph Bucklin Bishop

The Russian-Japanese war was raging during the spring of 1904. The country at large, and government officials in particular, had been counselled to maintain strict neutrality. Meanwhile, states were already lining up for Roosevelt as the republican candidate for the presidency. Postoffice scandals, the Reed Smoot investigation and the Panama question were still keeping the president's hands full.—The Editor.

Peter Rabbit's Funeral

White House, May 28, 1904.

Dear Kermit:
It was great fun seeing you and Ted, and I enjoyed it to the full. Ethel, Archie and Quentin have gone to Mount Vernon today with the Garfield boys. Yesterday poor Peter Rabbit died and his funeral was held with proper state. Archie, in his overalls, dragged the wagon with the little black coffin in which poor Peter Rabbit lay. Mother walked behind as chief mourner, she and Archie solemnly exchanging tributes to the worth and good qualities of the departed. Then he was buried, with a tuchala over the little grave.

You remember Kenneth Grahame's account of how Harold went to the circus and sang the great spherul song of the circus? Well, yesterday mother leaned out of her window and heard Archie, swinging under a magnolia tree, singing away to himself, "I'm going to Sagamore, to Sagamore, to Sagamore. I'm going to Sagamore, oh, to Sagamore!" It was his spherul song of joy and thanksgiving.

The children's delight at going to Sagamore next week has completely swallowed up all regret at leaving mother and me. Quentin is very cunning. He and Archie love to play the hose into the sandbox and then with their thigh rubber boots on, to get in and make fortifications. Now and then they play it over each other. Ethel is playing tennis quite a good deal.

I think Yaganka is going to come out all right, and Elestein, too. I have no hope for Wyoming or Renown. Fortunately, Rusty is serving us well.

White House, June 12, 1904.
Blessed Quentin-Quee:
The little birds in the nest in the vines on the garden fence are nearly

grown up. Their mother still feeds them.

You see the mother bird with a worm in her beak, and the little birds with their beaks wide open!

I was out walking the other day and passed the Zoo; there I fed with grass some of the two-year old elk; the bucks had their horns "in the velvet." I fed them through the bars.

White House, June 12, 1904.

Blessed Archie-Kins:
Give my love to Mademoiselle; I hope you and Quentin are very good with her—and don't play in the library!

I loved your letter, and think you were very good to write.

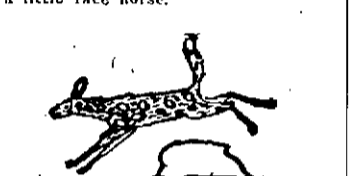

All kinds of live things are sent me from time to time. The other day an eagle came; this morning an owl.

(I have drawn him holding a rat in one claw.)

We sent both to the zoo.

The other day while walking with Mr. Planchot and Mr. Garfield we climbed into the Blagden deer park and almost walked over such a pretty wee fawn, all spotted; it ran off like a little race horse.

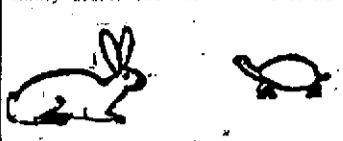

It made great jumps and held its white tail straight in the air.

White House, June 21, 1904.

Dear Quentin-Quee:
The other day when out riding what should I see in the road ahead

of me but a real Br'er Terrapin and Br'er Rabbit. They were sitting solemnly beside one another and looked

just as if they had come out of a book; but as my horse walked along Br'er Rabbit went lippily lippily lippily off into the bushes and Br'er Terrapin drew in his head and legs till I passed.

Charm of Valley Forge
White House, June 21, 1904.

Dearest Ethel:

I think you are a little trump, and I love your letter, and the way you take care of the children and keep down the expenses and cook bread and are just your own blessed busy cunning self. You would have enjoyed being at Valley Forge with us on Sunday. It is a beautiful place, and, of course, full of historic associations. The garden here is lovely. A pair of warbling vireos have built in a linden and sing all the time. The linden, by the way, are in bloom, and Massachusetts avenue is fragrant with them. The magnolias are all in bloom, too, and the jasmine on the porch.

Washington's Companions at Valley Forge

White House, June 21, 1904.

Dear Ted:

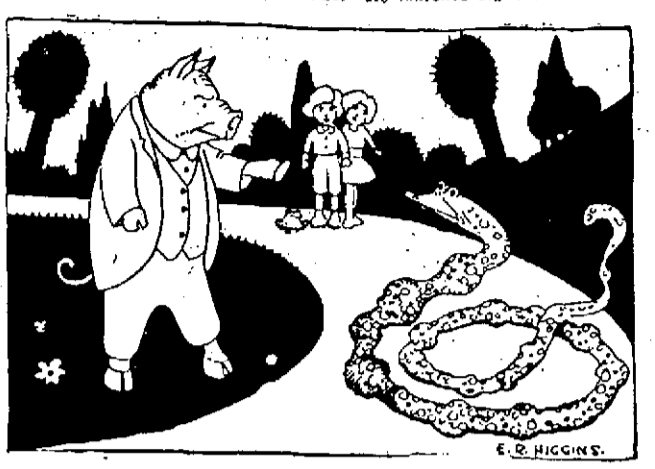

Mother and I had a most lovely ride the other day, way up beyond Silgo Creek to what is called Northwest Branch, at Burnt Mill, where is a beautiful gorge, deep and narrow, with great boulders, and even cliffs. Excepting Great Falls it is the most beautiful place around here. Mother scrambled among the cliffs in her riding habit, very pretty and most interesting. The roads were good and some of the scenery really beautiful. We were gone four hours, half an hour being occupied with the scrambling in the gorge.

Saturday we went to the wedding of Teddy Douglas and Helen. It was a beautiful wedding in every way and I am very fond of both of them. Sunday we spent at Attorney-General Knox's at Valley Forge, and most unexpectedly I had to deliver a little address at the church in the afternoon, as they are trying to build a memorial to Washington. Think of the fact that in Washington's army that winter among the junior officers were Alexander Hamilton, Men-

ADVENTURES OF THE TWINS

by Olive Roberts Barton

The Lost Toads
The twins had found some sawdust out of Jocko down by the edge of the creek and Nancy's heart was sad. "Maybe he ran away because I didn't sew him up," she said. "Mamma told me to, but I always forget." Then suddenly a voice near them said, "That's the trouble with all of us. We keep forgetting things and then something happens." Nancy and Nick looked around curi-

"Now Sam," said the pig, "I've had a mind to make a meal of you for ever so long."

ously, and there sat Mrs. Toad crying. "It's just what I got," said Mrs. Toad. "When I went to do the market, I left the door unlocked and the children all got out." "And are they lost now, like our Jocko?" asked Nick. "No," said the toad, "they're not. That's the trouble. They're over there on the road where Sammy Snake is lying in the sun. SALE OF THRIFT AND WAR SAVINGS STAMPS

Sales for thrift stamps, war savings stamps and treasury savings certificates throughout the country for the month of November total \$8,029,435.67, according to the latest figures received by Mrs. C. R. Burlingame, statistical director savings division, first federal reserve district. The November sales, which were much larger than those of October, were the largest of any month since April. These figures for the No-

When The Day Is Over

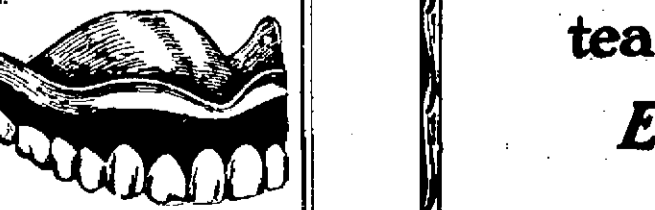

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but

headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.

GIRL SCOUTS HOLD ENJOYABLE BAZAAR

To raise funds for a summer camp, Troop 4, Girl Scouts, staged an enjoyable bazaar at the Centralville M. E. church last evening, which proved most successful. During the evening an entertainment was given by some of the young people which embraced readings by the Misses Mary Caisse and Caroline Schultz, songs by Miss Laura Whitney and piano selections by Miss Alice Kilroy. Those in charge of the various booths were: Mrs. Albert Swapp, food table; Mrs. Dana Colburn, apron table; Miss Elsie McGurney and Miss Marjorie Pfiffel, fancy work booth; Miss Marion Hartwell and Helen Hartwell, ice cream table; Miss Emma Chisholm, potato chip table. Supper was served under the direction of Miss Ruth Hartwell. Miss Mary Peters, captain of the troop, had general charge of arrangements.

DUE TO CARELESSNESS

CINCINNATI, O.—Due to carelessness of a motorist, this boy has to remain in this position every minute of the day and night for five weeks. Both legs were broken above the knees when the child was hit. Physicians and nurses in a Cincinnati hospital, where the boy is enduring this torture, say this is the only way for the bones in his little legs to heal properly so that he will not be a cripple for life.

Do your Spark Plugs foul?

The problem of keeping spark plugs free from carbon crust that cuts down the spark gap, short circuits the current and makes your engine "miss," is not hard to solve.

It is largely a matter of uniformity: the vaporizing and in the flame speed of your gasoline, combined with correct adjustment of your carburetor to insure clean, complete combustion. Standardize on SOCONY Motor Gasoline. It is carefully refined, high quality gasoline that always has uniform vaporizing and ignition qualities. No matter where you buy SOCONY it is uniform, clean-burning, power-full. It will give you big mileage from every gallon and reduce carbon troubles of all sorts. At filling time look for the red, white and blue SOCONY Sign.

Every gallon the same

MORE CITIES IN "WET" COLUMN

Attleboro For License For First Time in 225 Years—Newton Also "Wet"

White Elected Mayor in Lawrence—Sullivan Mayor of Worcester

BOSTON, Dec. 10.—With elections in 15 Massachusetts cities yesterday, the remarkable swing from no license to license, which marked city elections held last week, was continued. Attleboro, which boasted that it had never had a saloon in its 225 years, voted "wet" in spite of a vigorous campaign to keep the city's record "spotless."

Newton for the first time in its history as a city or town went for license by 46 votes and Beverly, with a dry record since it became a city also switched.

Malden also voted license for the first time in its history. Melrose held to no license by a slightly reduced majority, being the first city voting this month to report a "dry" victory.

Mayor Peter G. Holmes, republican standing for re-election for a fourth term in Worcester was defeated by State Senator Peter F. Sullivan, democrat, but the rest of the city government is strongly republican.

Mayor Charles H. Adams was re-elected for a sixth term in Melrose getting more votes than all his four opponents combined. Mayor Melvin D. Breath was re-elected in Chelsea.

White Wins in Lawrence
LAWRENCE, Dec. 10.—Ex-Mayor William P. White was elected mayor yesterday, his margin over his opponent, City Treasurer William A.

*Re-elected. **Elected in 1918 for two years.

SEC. WILSON'S REPORT

No Permanent Industrial Peace Not Based on Industrial Justice

WASHINGTON, Dec. 10.—There can be no permanent industrial peace that is not based on industrial justice, Secretary Wilson declared today in his annual report. Reviewing the present disturbed industrial situation, the Secretary said the means had been found for regulating all the other relations of mankind and that human intelligence could find the method of adjusting the relationship between employer and employee with justice to both.

Declaring that just as international wrongs might reach a point making war a necessity, so industrial wrongs might accumulate until they provoke an industrial conflict, the secretary said the stability of industrial relations rested on mutual counsel.

"Just as the peace of nations is promoted by frank and friendly intercourse," he said, "so may the peace of industry be maintained by the same methods. But this intercourse cannot come about unless there is first recognized the right of collective bargaining. The public interest demands that it be universally recognized, for the

primary interest of the public is in peace.

"The denial of organization is a denial of the only means of peaceable settlement that the wage earners have."

Calling attention to the present prominence of labor organizations of a revolutionary or lawless type, the secretary declared that the responsibility for them must fall upon the employer who opposes the organization of lawful trade unions. More and more do industrial disputes menace the public as well as employer and employee, the secretary said, adding that the right to strike should be a means of defense and not a weapon of offense.

"The right of any man to cease working for another for any reason that is sufficient to himself is the basic element of human liberty," he said. "The right of any person to refuse to operate his plant at any time he desires to do so is the exercise of a property right guaranteed by the constitution. It does not follow that because these rights exist it is necessary to exercise them. They must nevertheless be safeguarded."

Turning to the question of the high cost of living, the secretary said increased wages did not always bring the desired relief. Increased productivity, making more material available for wages and taking the means of increased compensation out of the profits of the employer was the only way in which the standard of living of the wage earner could be improved, he declared.

Reviewing the activities of the various bureaus of the department, the report said 254,273 aliens came to American shores during the fiscal year ending June 30, and that 216,847 of them were admitted and 8,635 excluded. The number admitted the year before was 211,853. Aliens departing during the last fiscal year numbered 216,331 as against 153,268 the year before.

During the last 7 years the bureau of immigration estimated that 35 aliens left the country for every 100 admitted.

Aliens admitted during the past year were in possession of sums of money aggregating \$16,831,247, an average of \$112 per person.

Aliens expelled under departmental process during the year numbered 3,668 compared with 1,669 in 1917. The total number of aliens deported, including those refused admission and 34 Chinese deported under the exclusion laws, was 11,728 as against 8,916 in 1917.

"The number of admissions to citizenship during the past year was larger than any preceding year, amounting to 217,355," the report said. "Leaving out of consideration the year 1918 this was a far greater number than was admitted in any two years during federal supervision. Military statistics show 135,335 aliens who acquired citizenship after they assumed the uniform of the United States."

The United States Employment Service at the end of the war had 350 offices with a personnel of 1,700 and an administrative force at Washington of 300. During the eleven war months of 1918 the service placed 2,653,387 persons in employment out of a registration of 3,675,558.

Persons directly affected by labor disputes brought to the attention of the department during the year numbered 1,011,968, while the number indirectly affected was 1,780 cases, including 587 strikes, 1,113 disputes and threatened strikes, 61 lockouts and 17 walkouts. Of these 1,228 were adjusted, exclusive of 218 referred to the National War Labor Board. The commissioners failed to make settlements in 111 cases.

Strong recommendations for the reviving and consolidating of the working conditions service, which was instituted during the war to investigate working conditions and to recommend standards for their improvements, were made by the secretary.

He also urged legislation for the con-

INTERNAL PAINS DISAPPEARED

MRS. F. CAMIRE

I owe my good health to RED PILLS for pale and weak women. I was suffering from internal disturbances which were brought on by hard work in factories when I was too young to be working at all, and to the little care I had been able to get. I had become excessively weak. I had been in bed for two months, and was suffering a great deal. People who saw me at that time are now astonished to see me so well, for everyone had considered my case to be hopeless.

MRS. F. CAMIRE,
213, 3rd Avenue,
Woonsocket, R.I.

RED PILLS are for women only. They are always sold in boxes of fifty pills, 50 cents box, 6 boxes for \$2.50. See that the name of the "France American Chemical Company Limited" is on every box.

Continuation of the U. S. Training Service. "It is believed," he said, "that increased skill on the part of the workers, and its consequent stimulus towards greater production, is even more important in peace than in war."

PHOTOPLAY AT C.M.A.C. HALL

"The Burning Question," an eight-act photoplay produced by the Catholic Art association, is being shown at the C.M.A.C. hall in Pawtucket street. This wonderful film is being shown under the auspices of the Sacred Heart league of St. Joseph's parish; not in competition to the regular motion picture, but as a medium to instruct the people in the perils of the day through Bolshevism, etc. It is a very pleasing production covering a lot of ground from home interiors to battle-torn fields of France, where the excellent work of the Knights of Columbus and its chaplains is shown to advantage. The picture will be shown twice daily for a week, the afternoon being for the children and the evening for adults.

Torrential Rains in South
Cause Enormous Prop-
erty Damage

Ten Inches or More of
Rain Fell in Alabama
and Georgia

ATLANTA, Ga., Dec. 10.—Torrential rains over the greater part of the south that first had proved a blessing by enabling large hydro-electric plants to operate without consumption of coal, today had continued in such force as to flood rivers in Alabama, Georgia and Mississippi, causing thousands of dollars' damage and at least three deaths. Ten inches or more of rain fell at various points in Alabama and Georgia. Fair weather and a cold wave were predicted for Alabama and Mississippi, and it was believed the rains would end in Georgia during the day.

The drop in temperature was expected to cause severe suffering around Meridian, Miss., where floods had left a thousand persons homeless after a rainfall of 10.10 inches. Similar conditions, although not to such a great extent, prevailed along the Chattahoochee river below Atlanta, and West Point, Ga., was reported partly under water with outside communication cut off.

Railroad traffic in Georgia was badly hampered and in lower Alabama and Mississippi, it was in many cases paralyzed. Several cities reported street car service interrupted.

Utoy creek flowed over its banks on the Cascade road, six miles from Atlanta, and undermined the foundations of a bridge. An automobile containing five persons went through the weakened structure last night, and county police reported that three of them had lost their lives. The Chattahoochee river overflowed bottom lands near Atlanta and reached a stage of 28 feet at the city water works. A 200-foot section of the dam of the Montgomery Light & Power Co. at Tallapoosa, Ala., was washed out with a loss estimated at \$250,000.

LOWELL'S ARMY STORE

The army store in Market street will close tomorrow noon according to announcement made by Manager Herbert D. Broad. Failure to secure various lines of goods which have been popular with local housewives is given as the reason for the closing edict. The store has been in operation here for several weeks and hundreds of families have taken advantage of the bargains in food and clothing on sale.

NAME "BAYER" ON GENUINE ASPIRIN

Get relief without fear
told in "Bayer package"

The "Bayer Cross" is the signature of the true "Bayer Tablets of Aspirin." The name "Bayer" is only on genuine Aspirin prescribed by physicians for over eighteen years.

In every handy "Bayer" package are proper directions for Colds, Headache, Toothache, Rheumatism, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally.

Tin boxes of 12 tablets, cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocaceticacidester of Salicylicacid.—Adv.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

VERDICT FOR PLAINTIFF

Jury Allows \$30,385 For
Property Taken For Audi-
torium Site

In the case of Harriet E. Dana vs. the city of Lowell, a petition for assessment of damages, the jury this morning returned a sealed verdict in the sum of \$30,385 for the petitioner. This petition was brought by Mrs. Dana in an endeavor to recover more for her property than was allowed her by the city when it seized by right of eminent domain her garage and land in East Merrimack street for an auditorium site, the amount awarded by the city being \$16,350. The case was tried before Justice Raymond at the civil session of the superior court.

The next case to go to trial was an action of contract in the sum of \$3000 brought by Katie Dinan against Edmund B. Conant. The plaintiff in her declaration alleges that she was employed by the defendant to do housework in 1902 and remained in his employ until Sept. 27, 1917. She claims that when she was first employed Mr. Conant agreed to pay her \$4 a week and in 1910 he advanced her wages \$2 a week, agreeing to save the extra \$2 for her and put it to her account in a local bank. Later, so she claims, her wages were advanced to \$10 a week, \$4 of which was to be placed in the bank in her name. On Sept. 27, 1917 when she left her position she demanded her money, but her request was not granted. She also claims that the last time she saw the bank book containing the amount of deposits in her name, the savings had accumulated to \$875. The defendant denies each and every allegation contained in the plaintiff's declaration.

In the course of the trial this forenoon the treasurer of the Lowell Institution for Savings testified that in August, 1910, Mr. Conant opened an account at the bank, in trust for the plaintiff and in Sept. 1917, the account had accumulated to the amount of \$852.24, including interest. He also stated that on Oct. 13, 1917, the account was changed and assigned to Edmund B. Conant.

STREET RAILWAY HAS COAL ON HAND

That the present coal shortage, caused by the strike of the coal miners, will not seriously affect the local street railway, is the belief of Thomas Lees, manager of the Lowell division of the Eastern Massachusetts Street Railway Co. The local company has a month's supply of black diamonds on hand, he said, and he hopes to secure more in the next few weeks.

In an attempt to conserve the present supply, all heat on cars during the "rush hours" in the morning and late afternoon has been discontinued, Manager Lees said. Should the local manufacturing plants curtail their operating forces, there will be a slight curtailment in the car service. Normal service will be maintained for the present, at least, he said.

The husband of Ethel Barrymore, the famous actress, is Russell G. Colt, the manufacturer of revolvers and other firearms.

A Child's Soft Teeth Are Easily Injured

The teeth of young children are not yet thoroughly calcified; many have naturally soft, chalky teeth. Many tooth pastes contain pumice, powdered oyster-shell, acid-calcium-phosphate. Prof. Giles of Columbia College found one of these which was gritty enough to scratch glass. It is well for mothers to be careful.

A great many professional men allow only Albion Dental Cream to be used in their homes. Dr. Henry H. Kreider, professor of chemistry at Toledo University, considers it a superior preparation, and the children of the Rochester Orphan Asylum have their "tooth drills" with it.

Albion is calcium carbonate, saponified and mixed with the well-known antiseptic oils of cloves, cinnamon and eucalyptus. It is peculiarly effective and safe for women and children. A tube lasting five weeks can be bought, guaranteed, at any drug store.—Adv.

A DELIGHTFUL GIFT

SAYS JENKINS DESIRED TO BE KIDNAPPED

SAN ANTONIO, Tex., Dec. 10.—El

Democrata, a newspaper of Mexico City, a copy of which was received here today, prints what purports to be a letter signed by Rebele Cordeiro, the man who captured W. J. Jenkins, American consular agent at Puebla, in which it is asserted that Jenkins wanted to be kidnapped for the purpose of proving that President Carranza was unable to afford personal protection to foreigners.

The letter, which is displayed on the front page of El Democrata, in part says:

"There was no kidnapping in the case of Consul Jenkins, because it was his own desire and he volunteered to come with me. We would not accept the money which someone sent to us. This will prove that it was not a case of kidnapping and holding for reward on my part."

"I protested all that the consul said to me because it was not legal. I believe that it was my duty to make this act clear and I want it understood that I don't want to surrender to Carranza because I am a revolutionist by conviction."

GERMANS TO TURN OVER CATTLE TO ENTENTE

BERLIN, Tuesday, Dec. 9.—Agents have been sent throughout Germany by the national economic ministry to make arrangements for the delivery of cows, sheep and goats to the entente under the provisions of the peace treaty. The plan of operation which has been agreed to by the state council, required that individual states shall deliver a given ratio of their herds to the national agricultural authorities.

Owners of cattle may submit protests and may deliver sheep or goats in place of cows, if they prove that cows are necessary for their nourishment. Farmers are required to give up the animals without compensation, and can be punished with a fine up to 5000 marks in each case for refusal to turn over the required stock.

OFFICERS NOMINATED BY STREET CAR MEN

The local street railwaymen's union yesterday and last night nominated officers for 1920 at a ballot election between 10 a. m. and 7 p. m. Final selection will be made two weeks from yesterday.

Men nominated yesterday follow:

President—
Thomas J. Powers 150
Thomas Boyle 62
Ed. Donnelly 52
Patrick Fells 14
Vice President—
D. Sullivan 125
William Mahoney 34
John Crails 34
Charles A. Flannery 33
Recording Secretary—
Joseph Shea 117
Norman Meser 61
Office Manager—
William Johnson, unopposed.

Financial Secretary—
William Johnson, unopposed.

Delegates Joint Conference Board—
E. J. Powers 142
Ed. Donnelly 75
Thomas Boyle 66
Patrick Fells 14

Executive Board—3 to be chosen—
William Scutche 137
Phil O'Brien 127
Charles Miller 115
Thos. McAndrews 104
Fred Baxter 24
W. Brown 82
Chris. Mooney 70
J. Reardon 59
J. Carthy 59
W. Shanney 59

Trustees—3 to be chosen—
W. Sweeney 150
Pat. Kieran 119
J. Barrett 118
Thos. Maguire 117
Jas. Sherin 90

Correspondent—
John Graham, unopposed.

Janitor—
Michael Conerton, unopposed.

Night warden—
George Doyle, unopposed.

Day warden—
Chas. Hamer, unopposed.

DISSOLVE MONOPOLIES

Only Solution of Present
Problems Facing Nation,
Says Report of Liberals

ST. LOUIS, Dec. 10.—Dissolution of monopolies is the only solution of the economic and industrial problems facing the nation, according to the report of the program committee, submitted today to the national conference of liberals in session here.

The committee said its report was designed to eradicate "poverty and squallidness."

The two principal political parties are arraigned and while it was said the conference was not called to form a new political party, the report declares that the "growing control of basic resources and industries by the trusts has created the conviction that no relief can be secured except by the formation of a new party."

"There is a widespread feeling," the report continues, "that there is no

TRACK SPORTS NOW IN THE LIMELIGHT

With football out of the way at the local high school for another year, athletic minds now turn toward track, the sport which has progressed so rapidly in Lowell within the last 10 years. The first call for practice will be issued for Monday, Dec. 28, and will continue three days a week for three weeks thereafter before the first meet is scheduled. Captain Saunders hopes to have a big squad working out on the annex track and prospects for a strong team are exceedingly bright. Donald McIntire, instructor in calisthenics for freshmen, will coach the team, assisted by Mr. Boland, assistant instructor of chemistry. James Conway, faculty head of athletics, will be in general charge.

More and more, however, are high schools coming toward an inter-class program of sports instead of concentration upon a varsity team. To this end, Lowell high pupils this winter will be given the opportunity to compete on class hockey teams and indoor baseball teams. The hockey men will practice at Shedd park and play class games there, while the baseball players will use the annex as a diamond.

Although the track team schedule is only tentative at present, meets with Lowell Vocational school, Boston college high, Wakefield and Medford seem sure and efforts are being made to bring the Tech Freshmen to the annex, and possibly one or two other strong combinations.

With Captain Saunders as veterans will be Darling, O'Hare, Ryan and Mullane and one or two others. Mullane will not be allowed to compete against high schools, but will be available for Tech freshmen, Boston college high and other schools of similar standing.

ELECTION RESULTS

The result of the municipal election, with its surprises and disappointments, reflects the will of the majority and displays more intelligent judgment on the part of the electorate than has been shown in some recent municipal elections. True, there were some good candidates defeated, but on the other hand, the results indicate a determination to reward faithful service, to rebuke mud-slinging and to give the younger men a chance to show what they can do.

Mayor Thompson's majority, which is much greater than any of his friends had predicted, came as a recognition of his faithful service during the war and his generally recognized honesty of purpose and devotion to the best interests of the city. It is also in accordance with the custom of giving a faithful executive a second term.

The sweeping majority by which John P. Salomon was elected is the high light of the fight for commissioner. Nobody can explain how a young man, comparatively unknown to the voters generally, could poll such a phenomenal vote. It must have been his pleasing personality, his service overseas, and his decent, manly campaign, wholly free from personalities that appealed so strongly to the voters. As for Commissioner Donnelly, his well known honesty and his popularity throughout the city enabled him to ride safely into office in face of the tide that threatened to sweep aside all the candidates who are or have been members of the municipal council.

In the school contest, two clean and intelligent young men have been elected; and although they have had no experience in school affairs, it is expected they will show good judgment in the work of directing this department. There is need of progressive steps with due conservatism and we feel that the two young men who have been elected to the board will exert their influence along these lines.

MARINE CORPS AVIATORS

Three marine flying fields in this country and flying detachments for the marine forces in Haiti and Santo Domingo are the active aviation program of the marine corps, according to the annual report of the corps' commandant just made to secretary of the navy. The detachments with our island forces have been in operation during the past year, while construction and improvements in the three flying fields are nearly completed. The fields, from which marine aviation operations will be conducted are the Dutch Flats barracks, at San Diego, California, Paris Island barracks, South Carolina, and Quantico, Virginia.

The aviation section of the corps got well under way during the war and performed valuable anti-submarine observation work. One of the marine aviation detachments was on duty at Naval Base No. 13, in the Azores, while another at the Miami Naval Air station performed valuable patrol duty for that section of the coast. Nearly all the war time enlisted personnel of the flying section of the corps has now been demobilized.

In Haiti and Santo Domingo, the flying squadrons are making a reputation for themselves in co-operation with the United States forces on duty there. One squadron, consisting of seven water planes and six land planes, is operating with the expeditionary brigade in Haiti, and one flight of six land planes is with the expeditionary brigade in Santo Domingo. These two organizations have proved of great help in breaking up the guerrilla warfare being conducted by natives in both these islands, and the commanding officers in charge of the marine brigades at both stations are enthusiastic over the work performed, which includes practically all of the operations of actual war.

In addition to their military operations, the flying units are conducting contour and coast line photographic operations at the request of and in co-operation with the interior department. In this manner, they are affording the government here information that would take several years of surveying to secure by ordinary land methods.

The authorized strength of the marine corps aviation section is

100 officers and 1020 enlisted men. The pilots are selected from eligible officers of the corps and the mechanics are especially trained in the Navy Mechanics school, at Great Lakes, Illinois. The marine corps also has a small lighter than air dirigible like the British blimps under construction.

It is plain from the report just submitted, that the flying units of the marine corps would be prepared in case of emergency to do extensive scouting work along our coasts or even to a considerable distance inland. Should any trouble arise between this country and Mexico, the aviators would play an important part in the operations.

LESSON OF TOLEDO

Toledo, O., has given the other cities of the country a valuable lesson in the matter of car service. It demonstrates the fact that not even politicians or labor unions can over-rule the effect of economic laws.

Several years ago, the franchise of the Toledo Car company expired and with the question of renewal hanging fire, the cars continued to run on a five cent fare. The company had no legal right to increase the fare. But the carmen demanded an increase in wages which the company averred it could not pay without an increase in fares. But the war labor board awarded a substantial increase without regard to whether the revenues could stand it or not. The company insisted that there should be an increase of fare to meet the higher rate of wages; authorized, but to this the politicians and the newspapers objected strenuously and when the higher rate was put in force, the city council passed an ordinance ousting the company from the city streets. This ordinance was submitted to the people and adopted with the result that next morning the company was regarded as a trespass in the city streets.

It moved its cars across the line into Michigan.

But a carless city is far behind the times. Toledo struggled along for a few weeks with everybody late, everybody dissatisfied and things going in a more unprogressive manner than in the days of the old horse cars. Jitneys were tried of course, and they were shooting to and fro in all directions, but still the bulk of the people had to walk! At last the people got tired of the situation. Business fell off in the stores and things were generally out of joint. Finally, the stern, stubborn opposition that believed that it is possible to take blood out of a stone surrendered, the fares were increased and the car service resumed—all of which proves that the mandate of a few politicians, even though backed up and endorsed by the people, is not always in accord with common sense or sound business principles.

WORLD'S WISDOM INCREASES

Sir Isaac Newton saw an apple fall, and pondered the fact that it went down instead of up or sideways. His "law of gravity" became a fundamental of science.

Dr. Albert Einstein of Berlin, saw a workman fall from a roof and alight, unhurt, in a pile of soft rubbish. He talked with the man, who evidently had a remarkable mind, for he observed that in falling he did not feel the pull of gravity as it is commonly supposed to operate.

Now Dr. Einstein's new "theory of relativity" has been accepted by the Royal Society of London as a demonstrated truth.

What is the theory? It is said that there are not more than 12 men in the world capable of comprehending all of its phases. It is really a modification of the rules worked out by Newton.

One of its concepts is the rejection of the ideas of absolute time and space. Beyond the farthestmost star is—nothingness!

Dr. Einstein and his fellow scientists do not suggest that the new hypothesis will affect human life in the slightest particular. The hungry mind of man has simply reached out a little into the dense vast of the unknowable. Again, the finite and fallible intellect of earth's wisest animal has added a bit to its meagre stock of lore.

A million years hence that stock will be somewhat increased, but in relation to what will remain un-

known, the total of all wisdom finally will remain as a tiny flicker in a universe of darkness.—N.E.A.

AMERICAN WOOLEN CO. STORE

The American Woolen company, through President William M. Wood, is certainly doing some great things for its employees. It has already furnished free life insurance policies for employees who have been in the service over six months, and has also adopted a plan of sick benefits which will offer great protection in case of prolonged illness. Now the company comes out with a challenge to the provision dealers of Lawrence to lower the prices of the necessities of life within a reasonable time, or otherwise the American Woolen company will open a store in which to sell groceries and provisions, wood and coal, clothing, boots and shoes, hardware and other articles at cost, to its employees.

The inauguration of such a retail store would be of very great interest to the working people throughout the country as it would indicate just how far present prices can be reduced if the dealers would be satisfied with a reasonable profit.

COAL STRIKE SETTLED

It is refreshing to find that the coal strike has been settled through the efforts of President Wilson and that thus the loss and hardship to the country will be terminated. Already many industries have been shut down and thousands of people thrown out of work while other thousands have been working on shorter hours in hopes to husband the supply of fuel until the effects of the coal strike should be overcome.

Here in Lowell our factories were fortunate in having sufficient coal on hand to tide them over this time of scarcity. There will, therefore, be no curtailment of any kind and no interference with our whiteway system which many of our people felt might have to shut down. The country has had a valuable lesson on strikes affecting the necessities of life.

LEGION TO GET THE REDS

It is gladly read that Massachusetts posts of the American Legion, through the executive committee of the state branch, will set in motion the machinery calculated to stamp out Red propaganda for all time within the borders of the commonwealth. Massachusetts has enrolled 71,000 of her sons and daughters in Legion posts and these will unite in one well organized camp to crush out all anti-American and Bolshevik activities. It is understood that a committee will be organized to draw up a plan which will be submitted to the 234 local posts in the state and each post will check up on all Red activity in the section where it is located and will furnish the government with complete data on the radical movements. We know of no more effective means and it should receive the backing of the entire American populace.

The coal strike is ended, the mills will not be forced to close, the railroads will not curtail service, many terrible things have been averted—yes, and the football huskies of Harvard will probably now get their promised trip to Pasadena at New Year's time, which recently was cancelled because of the fuel situation. Truly, the benefits will be many and varied.

Now let's have an edict saying the sugar shortage is no more and great contentment will mark the coming Christmas season. Putting a stop to excessive exportation seems to be the only real remedy, although, we still incline to the belief that there is plenty of sugar, yes, enough to go around comfortably, if it can be sought out and forced into the retail market by federal agents. The poor people who need sugar most are those who are not getting it.

Unique indeed in the history of banking is the campaign instituted by the Guaranty Trust company of New York, in instructing its employees in the expert use of firearms. Regular pistol practice now is going on in a New York armory and it is said that the target work of the bankers has improved in quickness and accuracy to a point which is characterized as "excellent." It has all come about because of the repeated holdups of messengers and frequent bank robberies. It sounds like the old stage coach days, when a guard sat with the driver, carbine across his knees.

SEEN AND HEARD

Great flocks of Hoidayouso birds were seen and heard in Lowell today.

You are very right Marie. It was not good election weather, and no one

Sickness Prevention

90% of human disease has its origin in the intestinal canal—in constipation.

Nujol relieves constipation and is therefore most effective in Sickness Prevention.

Send for free booklet "Thirty Feet of Danger" to Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York.

Nujol

For Constipation

will blame you for remaining away from the polls.

For the first time in history this year a "Yes" vote meant only an expression of sentiment—and the swinging doors remain still.

"It's in the bag" and other similar expressions of confidence, marked the pre-election days as given out from rival headquarters. That's modern enough for you.

Why is it that girls can trip gaily about in all kinds of disagreeable weather wearing low shoes and similar necks and men bundle themselves up from top to toe?

If there is one place in this city where autoists seem to take great delight in speeding it is that stretch of good paving in Dutton street extending from Merrimack street to that unspeakable mess of mud at the junction of Dutton and Fletcher streets.

Census Bureau Counters

The ingenious machines used by the census bureau to count, sort and tabulate the information gathered by the census enumerators are the product of the bureau's own laboratory. The sorting machines will take care of 300 cards a minute, the counting machine can do 500 cards a minute and the tabulating machine is capable of handling 400 cards a minute.

Envy of Farmers

Three business men were sitting on a bench in front of a store. They were talking about "all this blamed trouble" caused by the strikes and profiteers and things.

"I tell you it's a fright," said the man who sells shoes, "how much it costs us to keep the table this year."

"Yes, it's a fright," agreed the man who sells dry goods, "I envy the farmer, who can raise everything he eats."

"Say, the farmer's the only independent man there is," chimed in the grocery man heartily.

And old Uncle Johnna Wiseman, who happened to be passing that way, looked at the trio and sniffed.

For all three of them had been raised on the farm, two of them own farms now—and they could go back to the land and "be independent" if they wanted it. But they stick to their stores.—Farm Life.

Mother Goose Rhymes

"Show him in," said the editor to the office boy as he looked at the card in his hand: "Daughter Fitters-Pinglistic, M. Goose H. C. L." "I'm merely curious to know what this means."

"Are you the editor of the Morning Glory?" No? he asked as soon as he stepped into the office.

"Yes," contradicted the editor. "I am—I mean I am. Excuse me, but last night I attended a banquet and didn't quit 'soon enough. What's all these degrees mean?" And the editor handed the man his own card.

"O, that's what I came to see you about. I'm a poet."

"O, gawd," groaned the editor and covered his face with his hands.

"And I have a wonderful idea—one that will raise the circulation of your paper from 50 to —"

"Fifty thousand," coldly informed the editor.

"From 50,000 to 50,000,000. You know the high cost of living is high and getting higher. Well I made a—er—a joke out of it. I—"

"It is no joke," growled the editor, carefully fingering his pocket where a 50-cent cigar stood up, which in the good old days was a five-center and mighty good at that.

"I make a Mother Goose jingle with an H. C. of L. twist—like this: "Jack Spratt can eat no fat Because it is too high; His wife that always ate the lean Is starving and will die."

"Isn't it touching, sir?" and the man mopped up three tears off his shirt front. "This poem will strike a responsive chord in the breast of every man and wife."

The editor had wilted into his chair, but the man went on: "Now here's another touching one: "A dollar a dollar, A ten o'clock scholar; What makes you come so soon? Our cook has struck We've had hard luck I had to cook till noon."

"I won't that one appeal to the poor starving families who have lost their cooks, eh?"

The editor was just about to dash a bottle of red ink down his throat, he was so distracted, when a loud voice was heard in the anteroom: "Gotta teller here splin' Mother Goose stuff?"

Dr. Howard Always Recommended

Oxidaze for Coughs

Colds, Br. Asthma

Years of study and observation convinced him it would safely, quickly and surely stop a bad cough and give instant relief in Bronchial Asthma. Money back if it fails. Guaranteed harmless. At all druggists. Lowell Pharmacy can supply you.

Send him out—he's a bloomin' poet some nutty. Come on out, Number 10! While he was being led away the poet cried: "Don't worry about me! I'll be back some more some day." Detroit Free Press.

Boyhood's Years
Ah! why should I recall them—the gay, the joyous years.
Ere hope was crossed by pleasure dimmed by sorrow—and by tears?
Or why should memory love to trace youth's glad and sunlit way
When those who made its charms so sweet are gathered to decay?

The summer's sun shall come again to brighten hill and dower—
The teeming earth its fragrance bring beneath the balmy shower;
But all in vain will memory strive, in vain we shed our tears—
They're gone away and can't return—the friends of boyhood's years.

Ah! why then wake my sorrow, and bid me now count o'er
The vanished days so dearly prized—the days to come no more—
The happy days of childhood, when no guile our bosoms knew,
Nor recked we of the pleasures that with each moment dew?
'Tis all in vain to weep for them—the past a dream appears,
And where are they who loved, the young, the friends of boyhood's years?

Go seek them in the cold churchyard—they long have sto'd to rest,
But do not weep, for their young cheeks by yon were never oppress'd—
Life's sun for them in splendor set—no cloud came o'er the ray
That lit them from this gloomy world upon their joyous way.
No tears about their graves be shed—but sweetest flowers be hung—
To hearts this world has never torn with racking hopes and fears:
For blessed are they who pass away in boyhood's happy years.
—By Rev. C. P. Meehan of Ireland.

MAN ABOUT TOWN

To those among us who slyly will not read the newspapers and keep reasonably well-informed as to what is going on within the city limits at least, this brief paragraph is dedicated. Every year, just as sure as preaching, from one to two hours before the election polls close, just about so many call the newspapers by telephone and ask how this and that candidate is running. It is only with a great deal of forced patience that the reporter or editor on the other end of the wire explains that, inasmuch as the polls have not yet closed, it is quite impossible to give out the desired information. Yes, and sometimes we venture to say that the reply is cloaked in subtle sarcasm. But, honestly, now do you blame us? For years and years primary elections have been held between the hours of 12 and 9 p. m., and final elections between 6 a. m. and 4 p. m., yet long before closing time the calls invariably drift in. There are many things of the newspaper calling are able to do up ahead of time and there are still other things which we know as facts long before you, gentleman, but there is no way under heaven to find out the election vote until the ballots have been counted and reports subsequently made.

DEER KILLED DURING THE OPEN SEASON

(Special to The Sun)
STATE HOUSE, Boston, Dec. 10.—Official figures received by the department of conservation from various counties in the state show that during the six days ending Saturday last, the open season for deer, 753 of the animals were killed.

This figure is one of the lowest in many years, it being 74 below that for 1918 and 259 less than the number the year previous, while it represents less than one-half of the number recorded in 1914, when 1596 of the animals were brought down.

Figures for the principal counties for this year and last follow:

	1919	1918
Franklin	132	153
Berkshire	141	163
Worcester	127	99
Hamden	96	111
Bristol	72	26
Middlesex	10	26
Plymouth	52	49
Essex	17	7

The largest deer brought down, that is, on the day so of the hunter, weighed 335 pounds, it falling from the rifle of David Boardman of Sheffield. This size is far above the average, officials in the department of conservation said, the average for a duck deer being about 200 pounds, while the unusual being in the neighborhood of 250.

The record for bringing down a many-horned animal, as far as a personal report goes, was made by A. F. Mallott of Pittsfield, who winged an animal which had 12 points to its antlers. Such a collection of points it was said is decidedly unusual.

Orrin C. Bourne, chief deputy of the fisheries and game division of the conservation department, a practical hunter, in explaining the reasons for the falling off in the number of deer killed this season said the decrease in a large measure is accounted for by the weather conditions which prevailed last week.

"Reports coming to the department showed that the ground in many sections was hard and that in some places snowed over to such an extent that a hard crust was on the surface. Under such conditions hunters can't help but make a noise while they are

Catarrh Vanishes

Here Is One Treatment That All Sufferers Can Rely Upon

If you want to drive catarrh and all its disgusting symptoms from your system to the shortest possible time, go to your druggist and ask for a Hyomei outfit today.

Breathe the air of Hyomei and let it rid you of catarrh and chronic head colds; it gives such quick relief that all who use it for the first time are astonished.

Hyomei is a pure pleasant antiseptic, which is breathed through the nose and throat deep into the head and lungs; it soothes the sore inflamed membranes, reduces swelling and quickly heals all inflammation.

Don't suffer another day with catarrh; the disease is dangerous and often ends in consumption. Start the Hyomei treatment today. No stomach dosing, no sprays or douches, no dangerous drugs or narcotics. Absolutely harmless. Just breathe it—that's all. At leading druggists everywhere.—Adv.

proceeding through the woods with the result that the deer are warned of their approach. This, I believe, had much to do with the showing made this season.

Hard ground, he went on, also results in a situation in which it is impossible, or nearly so, for hunters to determine whether deer are in the neighborhood, because of the difficulty in noting their tracks.

"The ideal weather for the hunting of deer," he said, "is that when there is a light fall of snow. Then the presence of deer can be easily discovered by their tracks, while at the same time the white background in the woods throws the darker-skinned animal into relief when within sight of the hunter."

There is no unusual decrease in the number of deer in the state, according to Mr. Bourne, but there is a diminution in the number which may be found near the more thickly settled sections.

"The law now allows farmers to kill any deer which cause damage to their property," he said. "Large numbers at any time is said to be that of for-have been slain throughout the state since telling."

A profession which has flourished during the war and which is more prosperous in Paris at present than properly," he said. "Large numbers at any time is said to be that of for-have been slain throughout the state since telling."

BANQUET POSTPONED

The anniversary banquet of the O.M.L. Cadets, which was to have been held this evening at the Cadet armory in High street, has been postponed until next Wednesday evening. It was believed that a better time would be had if the anniversary and the annual Christmas tree for the members of the organization were held at the same time and accordingly the decision to postpone the affair was reached at a meeting of the Cadets last evening.

A profession which has flourished during the war and which is more prosperous in Paris at present than properly," he said. "Large numbers at any time is said to be that of for-have been slain throughout the state since telling."

City Election Returns

Continued

of interest in the aldermanic fight. Commissioner Donnelly, always a popular vote getter, realized that he had a fight on his hands this year and his friends knew it, too. The incentive spurred the commissioner and his supporters to more active efforts than ever before and although "Jimmy" didn't deliver a single campaign address, he came through. But it was only after a close fight with George H. Brown. Only 356 votes separated the two men. The first half dozen or more precincts to come in gave Mr. Brown a handy lead and ward 6 seemed to make his election a surety. But Mr. Donnelly's strongholds were yet to be heard from and wards 4, 5, 7 and 9 put the commissioner over the top again.

Mr. Morse's defeat may be traced to the entrance of Mr. Salmon into the contest. More than one voter was heard to say before the election that he would vote for Mr. Morse if Mr. Salmon were not a candidate, but unfortunately no individual could vote for three men. Mr. Morse will retire this month after many years of continuous service at city hall.

The school committee fight was productive of a real surprise in the election of Mr. Markham and this is no reflection upon that gentleman. On the other hand, he deserves commendation for the excellent fight he made for a position. Mr. Delaney, like Mr. Salmon in the aldermanic fight, headed the list at the primaries and was generally conceded first place again at the election.

Mr. Lyle was generally mentioned as second man with Dr. Roobay giving him a good battle. But Markham's friends united and sent him into the committee with a safe margin over Mr. Lyle.

The license vote showed emphatically that the city is not satisfied with prohibition. Never was a larger majority rolled up on the "yes" side than yesterday. The "no-license" forces, of course, made no effort to oppose it.

Despite yesterday's almost continual rain there was a heavy vote polled. Although exact figures are not yet available as to the number of ballots actually cast, the mayoralty vote indicates very nearly 15,000 male votes out of a total registration of 17,608. In 1917, the total vote was only 12,736. There is no doubt but what the inclement weather reduced the size of the women's vote to some extent but a good majority of the 4350 registered is thought to have come out.

Yesterday's election will mean only one change in the personnel of the municipal council next year as compared with 1919. John P. Salmon will take the seat now occupied by Commissioner Morse.

In the school board Chairman Richard

and Brook Walsh will retire this year as will Dr. William R. Thompson. Their places will be taken by Thomas B. Delaney and James E. Markham.

operated with their employees yesterday morning by opening the shops an hour later than usual, that the men might vote.

It is said by both sides that more voters were carried to the polls yesterday than at any other election in years. There were plenty of conveyances and they were kept busy continuously.

A peculiar voting quirk occurred in ward 7 when Markham and Lyle each polled 951 votes. Two perfect numerical trinitities were found in ward 5, where Delaney got 293 and Lyle, 222.

Four-figure totals were numerous. Delaney topped the thousand mark in wards 4, 5, 7 and 9; Lyle in 3, 8 and 9; Markham in 4, 5 and 9, and Rooney in 6 and 7. Mr. Salmon and Mayor Thompson led them all, however, with six and five totals, respectively, better than 1000. The former got his half dozen in 1, 3, 6, 7, 8 and 9, while the mayor soared in 2, 6, 7, 8 and 9.

LAWSON BASEBALL CLUB

The Lawson Baseball club, one of the leading local teams in the past season, will conduct a dancing party in Association hall tomorrow evening, and indications point to a large turnout of friends and admirers of the players. The lawsons had a very successful season, despite the fact that they lost the championship in a closely contested series. Music for the dance will be furnished by Miner-Doyle's orchestra.

The Boston & Maine carshops co-

Mountain of raisin seeds, which now are saved from the dump heap.

PAINT YOUR HOUSE WITH RAISIN SEEDS

Scientists of the department of agriculture have devised methods for the utilization of raisin seeds, heretofore considered a waste product. Of the 40,000 tons of raisins seeded annually in the United States 4000 tons of seed go to the dump heap.

The development of an oil for use in manufacturing paints, varnishes and soaps is the chief by-product available. The initial step in utilizing the seed is the removal of adhering pulp which clings to the seed, the separation being effected by a cold water bath.

Syrup, agreeable in flavor and of a sweet fruity taste, is a product made from the fragments of pulp divorced from the seeds. Its qualities recommended the syrup as useful in household and commercial industries. The housewife who uses raisins in making mincemeat will find the syrup a satisfactory substitute that retains the flavor of the whole fruit. As a flavoring for carbonated drinks, the syrup suggests another possible use. From 555 to 740 tons of syrup annual, valued at \$50,000, is an estimate

ventured as to the magnitude of this by-product.

After removing the sugary pulp, the seeds are screened, dried and ground. Either is used in a continuous-extraction apparatus as a method of obtaining the oil. The yield is about 14.5 per cent of a pale, golden-yellow fluid, which possesses a slight fatty odor with a bland, nut-like taste. The ready-drying property of the oil, especially when treated with an ordinary drier such as lead oxide should enhance its value as a contribution to the paint and varnish industries.

Its quantities are favorable as an ingredient in the manufacture of varnish. Linseed and China wood oils are now used almost exclusively in varnish. Practical tests have likewise established the merits of raisin oil in the manufacture of soaps. Upon removal of the sugary substance from raisin seed there is a 20 per cent reduction of the weight of the seed. The total volume of oil capable of being produced from waste raisin seed has been computed as 464 tons or 120,520 gallons. The value would approximate \$50,000.

Chemical analysis, subsequent to the extraction of oil, indicates the presence of a dry extract containing 23.35

per cent of tannin, serviceable in tanning leather. An estimate is made that \$30,000 pounds of dry tannin extract yearly will yield a revenue of \$24,000.

Still another source of wealth from the raisin seeds is the residue after extracting the oil and tannin material, the product being meal capable of utilization as cattle feed.

S. R. WINTERS.

TEXT OF PRES. WILSON'S PROPOSAL TO MINERS

INDIANAPOLIS, Dec. 10.—The text of President Wilson's proposal to the soft coal miners follows:

"I have watched with deep concern the developments in the bituminous coal strike and am convinced there is much confusion in the minds of the people generally and possibly of both parties to this unfortunate controversy as to the attitude and purposes of the government in its handling of the situation.

"The mine owners offered a wage increase of 20 per cent, conditioned, however, upon the price of coal being raised to an amount sufficient to cover this proposed increase of wages, which would have added at least \$150,000,000 to the annual coal bill of the people. The fuel administrator in the light of present information has taken the position, and I think with entire justification, that the public is now paying as high prices for coal as it ought to be requested to pay and that any wage increase made at this time ought to come out of the profits of the coal operators.

Dr. Garfield's Proposal

"In reaching this conclusion, the fuel administrator expressed the personal opinion that the 14 percent increase in all mine wages is reasonable because it would equalize the miners' wages on the average with the cost of living, but he made it clear that the operators and the miners are at liberty to agree upon a larger increase provided the operators will pay it out of their profits so that the price of coal would remain the same.

"The secretary of labor, in an effort at conciliation between the parties, expressed his personal opinion in favor of a larger increase. His effort at conciliation failed, however, because the coal operators were unwilling to pay the scale he proposed unless the government would advance the price of coal to the public, and this the government was unwilling to do.

"The fuel administrator had also suggested that a tribunal be created, in which the miners and operators would be equally represented, to consider further questions of wages and working conditions, as well as profits of operators and proper prices for coal. I shall, of course, be glad to aid in the formation of such a tribunal.

Operators Agree to Absorb Increase

"I understand the operators have generally agreed to absorb an increase of 14 per cent. In wages so that the public would pay not to exceed the present price fixed by the fuel administration,

and thus a way is opened to secure the coal of which the people stand in need, if the miners will resume work on these terms pending a thorough investigation by an impartial commission which may readjust both wages and prices.

"By the acceptance of such a plan, the miners are assured immediate steady employment at a substantial increase in wages, and are further assured prompt investigation and action upon questions which are not now settled to their satisfaction. I must believe that with a clear understanding of those points they will promptly return to work. If, nevertheless, they persist in remaining on strike, they will put themselves in an attitude of striking in order to force the government to increase the price of coal to the public, so as to give a still further increase in wages at this time rather than allow the question of a further increase in wages to be dealt with in an orderly manner by a fairly constituted tribunal representing all parties interested.

Cannot Justify Refusal

"No group of our people can justify such a position and the miners owe it to themselves, their families, their fellow workmen in other industries and to their country to return to work.

"Immediately upon a general resumption of mining, I shall be glad to aid in the prompt formation of such a tribunal as I have indicated to make further inquiries into this whole matter and to review not only the reasonableness of the wages at which the miners start to work, but also the reasonableness of the government prices for coal. Such a tribunal should within 60 days make its report, which could be used as a basis for negotiation for a wage agreement. I must make it clear, however, that the government cannot give its aid to any such further investigation until there is a general resumption of work.

"I ask every individual miner to give his personal thought to what I say. I hope he understands fully that he will be hurt in his own interest and the interest of his family and will be throwing countless other laboring men out of employment. If he shall continue the present strike and further, that he will create an unnecessary and unfortunate prejudice against organized labor, which will be injurious to the best interests of workingmen everywhere.

"WOODROW WILSON."

Cold Wave Coming

Continued

Passenger train service ever known was effective today with extension of the federal railroad administration's saving order to the eastern region. The order already was operative in the other railroad regions. It was estimated 15,000 tons of coal would be saved daily by it, and that until the end of the present week, it would be necessary to save an additional 200,000 train miles daily.

Heavy Rainstorms

Presaging extension of the cold wave into the east and southeast heavy rain storms were prevalent through those sections yesterday, with extensive property damage in Georgia, Alabama and Mississippi and loss of three lives near Atlanta, Ga., in flood waters. Railroad service was seriously handicapped in city streets inundated by the almost unprecedented rainfall.

In the western country where almost record snowfalls accompanied the unseasonable cold, rail and wire communication also was handicapped.

In Washington and Oregon, one of the worst snowstorms in a decade was recorded.

About Redding, Cal., five inches of snow had fallen today, an unusual amount for that region.

A heavy storm was off the northern Pacific coast and storm warnings have been displayed up and down the coast.

30 Below in Montana

No general moderation was forecast for today, although in some sections of the west, weather bureaus said that thermometers would rise by tomorrow. The wide range of the cold weather was indicated by reports of sub-zero readings from these places: Lander, Wyo., 34 below; Havre, Mont., 30; Williston, Mont., 30; Helena and Miles City, Mont., and Cheyenne, Wyo., 28; Devil's Lake, Minn., 28; North Platte, Neb., 22; Pueblo and Denver, Col., 20; Minneapolis, Minn., and Spokane, Wash., 8; Omaha, Neb., and Concordia, Kan., 6; and Chicago 3.

In Chicago down town streets were in semi-darkness, lighted only by the street lights and lights in stores and restaurants where business was not curtailed by fuel restrictions. Patrons rode in street cars that were unheated despite a temperature that hovered about zero.

Lightless Nights

Pittsburg felt its first lightless night.

How to Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their functions, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisonous acids that cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under the eyes and other weakening symptoms.

WAS RELIEVED AT ONCE.

"I was afflicted with kidney and bladder trouble for nearly 6 years. Had one very bad spell about 8 years ago. Was confined to bed for 4 or 5 days, unable to move without help. I commenced using Foley's Kidney Pills and can tell you I was relieved at once. I have since recommended your kidney pills to all my friends who have kidney trouble." John Smith, Mid., in Bar, California.

FOLEY KIDNEY PILLS

soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When these organs are working properly, the blood is cleaned and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was coming on before it was due.

SOLD BY

Burkinkshaw Drug Company, 415 Middlesex street. Moody's Drug Store, 301 Central street.

Sleep Like a Top

You can, just as soon as you get rid of that stomach and liver trouble and not before. Sleeplessness is frequently due to disorder in the organs of digestion, and consequently, to avoid it you must put these organs right. The use of narcotics is not only dangerous but leaves the cause of the trouble untouched and should therefore be avoided. The surest means of finding relief in the circumstances referred to is undoubtedly Beecham's Pills.

After Taking

a few doses of this famous medicine the digestive functions will resume their energy, the sluggish liver become active, the bowels healthily regulated. There are thousands of men and women to-day who have experienced the great value of the World's Family Medicine in this respect, and know that some of the causes of distressing sleeplessness can be effectually removed by

Beecham's Pills

At All Druggists, 10c, 25c

due to the miners' strike, last night, when all electric signs were cut off.

Kansas City's amusements today were permitted to open for four hours a day, 7 to 11 p. m., under a new ruling by the coal committee, which had closed such places since Dec. 1. It was said the fuel situation there was slightly improved.

While optimistic regarding settlement today of the strike by the Indianapolis conference, there was no letup in effort to have coal brought out by volunteer miners in states where that system of production had been resorted to.

At the other mines, the most impressive improvement was noted in the unutilized Kanawha fields of West Virginia, where it was reported 35 mines were operated yesterday, a gain of 10 in 24 hours.

CLEMENCEAU'S TRIP TO LONDON IMPORTANT

PARIS, Dec. 10.—Premier Clemenceau's trip to London will be of great political importance according to newspapers here which say that during his stay at the British capital he will discuss the Adriatic, Russian and Turkish questions and will seek to bring about co-operation among contented nations in working out solutions of world problems. Another topic which will be discussed, according to report, will be exchange rates. Uneasiness which is felt at the present time, will be dissipated by M. Clemenceau's conversations in London, according to the Gaulois, while the Echo de Paris says the principal object of the trip is the strengthening of the bonds between

the countries "as the first step in the organization of our alliances."

Vittorio Scialoja, Italian foreign minister, who is now in London, will participate in the conference M. Clemenceau will hold with British ministers, according to the Matin.

SUN EXTRA SOLD LIKE HOT CAKES

The Sun takes justifiable pride in its election service as contained in the extra edition of the paper early last evening. To be very exact, copies of the election extra were on the street at 6.17 o'clock, just two minutes after the last precinct returns

arrived at city hall. Through pre-arranged service direct from the precinct booths to this office, however, The Sun was able to more than keep pace with the returns at the city clerk's office. The extra went like hot cakes, by the way, which is satisfactory endorsement of an attempt to give real public service, instantaneous and accurate.

As Influenza is an exaggerated form of Grip, LAXATIVE BROMO QUININE Tablets should be taken in larger doses than is prescribed for ordinary Grip. A good plan is not to wait until you are sick, but PREVENT IT by taking LAXATIVE BROMO QUININE Tablets in time.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, so double it's beauty. You can have nice, thick hair, too.

The Gilday Gown Shop

READY FOR ANOTHER BIG DAY

TOMORROW BRINGS

The Great Half-Price Sale

TO A CLOSE

The opportunity to obtain these smart GILDAY and "BETTY WALES" models for half-price soon will be past. Women all over the city are talking about the wonderful values in this GILDAY SALE. The response has been wonderful—even in excess of my expectations.

My good business friends have taught me this:—THAT THE LIFE BLOOD OF A SUCCESSFUL RETAIL BUSINESS IS NEW GOODS. AND NEW GOODS REQUIRE SPACE FOR THEIR DISPLAY AND SALE. So regardless of the desirable qualities of this merchandise—regardless that the only thing wrong with many a garment here, is that it is the only one of its kind left—regardless of the fact that much of it could not be replaced today to sell even at its original price—regardless that this half-price sale means considerable losses, still I am determined to sweep this shop clean of all odds and ends to make room for new goods.

Because my models were purchased with such exacting care, many women who come to this sale tomorrow will be almost as fortunate as those who attended the first day. Come early tomorrow if you would like to own a GILDAY COAT, SUIT or DRESS for exactly HALF-PRICE.

Yours for personal service

Gertrude Gillespie Gilday

Watches

THE TIMELY GIFT

The pleasure of giving is but a part of the reward when you give a Watch. You know that the recipient will have cause to remember you every hour of the day.

But it must be a good Watch, such as you find in our stocks—if it is to bring lasting pleasure. For every need, for men, women or children, we have provided a Watch that suits. Before deciding on what to give—stop and inspect our offerings.

Hamilton Watches a specialty; also complete stock of Walthams, Elgins, Illinois and High Grade Swiss Makes. Bracelet Watches in all the new designs.

MOORE AND HAYES HAVE FINE RECORDS
LOWELL WINS BY A GARRISON FINISH

The bout between Roy Moore of St. Paul and Chick Hayes, formerly of Indianapolis, now of Boston, at the Crescent rink tomorrow night will be the third meeting of this sensational pair and both are anxious to come out on top. At Milwaukee, Wis., Moore and Hayes fought a thrilling 10-round draw, while at Colorado Springs the pair mingled in a slashing 15-round bout that was declared a victory for Moore. Since that time many promoters have tried to rematch the pair, but it remained for the local management to land the match.

Moore and Hayes both have fine records and a glance at the bouts in which they have appeared will disclose engagements with about all the good bantamweights of the country. The names of Roy Moore, champion Pete Hornum, Peckin Kid, Herman Frank, Mason, Benny McCoy, Eddie Coulton, Johnny Erie, Dick Loadman, Monte Attell, Zulu Kid, Joe Lynch, and many other notables appear in the list.

Leo "Publicity" Flynn, manager of Moore, says his boy has boxed to more professional credit than any of the present day bantams. He bars none.

The preliminary card for tomorrow night's meeting, the matchmaker says, will be in keeping with the high class main event.

AMERICAN LEAGUE IN ANNUAL MEETING

NEW YORK, Dec. 10.—If the dove of peace hovered over the annual meeting of the American Baseball League today it was obscured from sight by the smoke screens thrown out by rival factions in the league.

Up to the time of the arrival here yesterday of President Dan Johnson and his five "loyal" supporters, hopes were entertained that the split in the ranks would be healed. Conferences between representatives of the two factions, however, lasting well into the night, broke up with the breach apparently as wide as ever.

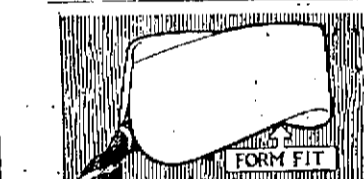

Charles Comiskey of Chicago, Jacob Ruppert and Col. T. L. Huston of New York and Harry Frazee of Boston, who have been opposing President Johnson, declared that "the professional of peace" made by Johnson were insincere. They also asserted that the president and his followers intended to "railroad through" legislation favorable to their interests.

The minority clubs issued a statement saying that in case the majority teams pushed through President Johnson's program, they would make retaliatory measures and would not submit to "the tyranny of those who merely register the will of this discredited man."

"I never looked for a fight in my life," President Johnson said when he was asked if he was for peace. "I have come here of my own accord with five sensible club owners. I thought it best to thrash the whole thing out at one time. If the other side is prepared to start any trouble, we shall be prepared to meet them."

A meeting of the board of directors this morning preceded the assembling of the club owners, called for this afternoon.

The National league which opened its annual meeting yesterday was in session again today. It is probable that the meeting may last until the end of the week, on account of the press of "urgent business" President Haydler said.

166 CENTRAL STREET

By a thrilling garrison finish Lowell won from Fall River in a fast game of polo before a good sized crowd at the Crescent rink last night. The score was 7 to 3.

The game was well contested for two periods, but Lowell cut loose a burst of speed in the final stanza and swept the opposition off its feet and with four goals percolating through Purcell's pads, while Fall River failed to invade Pence's "territory," the Har-kings crew added one more to the victory column.

Jack Finnell, who played with Lowell two years ago, was in the lineup last night in place of Jack O'Brien, who is out of the game with an injured hand. He put up a good exhibition. When he hopped into the cage the fans gave him a cordial greeting. Lowell got the jump in the first session by scoring three goals, while the visitors landed but one. In the second session Jean got his "tigers" going and the ball rolling to desire two goals were added to Fall River's score, while Lowell failed to register. The third and final session was one of action, with Harkins breaking the tie and Davies coming through with three "beauties."

Davies and Harkins played a high class game, with Davies getting four goals and the captain landing three in the net. Griffith also worked at his usual fast clip, while Finnell and Pence took good care of the defensive work. Pierce and Hart showed a fine offensive combination while Jean was as effective as ever. The score:

LOWELL. FALL RIVER
Davies, Jr. 1r. Pierce
Harkins, 2r. G. Hart
Griffith, c. C. Jean
Finnell, b. B. Cusick
Pence, c. g. Purcell

(First Period)
Won by, Caged by Time
Lowell, Harkins 11:22
Fall River, Pierce 1:20
Lowell, Harkins 1:41
Lowell, Davies 2:21

(Second Period)
Fall River, Jean 4:10
Fall River, Hart 6:25

(Third Period)
Lowell, Harkins 7:13
Lowell, Davies 7:18
Lowell, Davies 8:23
Lowell, Davies 8:24
Summary: Score—Lowell 7, Fall River 3. Rushes: Davies 5, Pierce 7. Stops: Pence 55, Purcell 50. Fouls: Pence, Hefner, Carroll.

POLO NOTES

Davies is showing remarkable improvement. His work last night stood out prominently and his efforts throughout the game brought vigorous applause.

Lawrence has recalled Ryan to play halfback and the team has again hit a winning stride.

Lyons, new Providence half-back, is a high class player, one of the veterans of the game. He's a big, powerful fellow and is proving a tower of strength for the Gold Bugs.

New Bedford, now tied for first place, will play here on Friday night.

Jack Finnell played well last night.

POLO LEAGUE STANDING	Won	Lost	Pct.
New Bedford	21	17	55.3
Salem	21	17	55.3
Worcester	20	17	52.8
Lowell	18	17	51.4
Fall River	20	19	51.3
Lawrence	18	21	46.2
Providence	14	23	37.8

LAST NIGHT'S RESULTS
Lowell 7, Fall River 3
Lawrence 7, Providence 6

What you've longed for in cigarettes
you'll find a plenty in Camels

—the most unusual, delightful cigarettes any man ever puffed on!

Your keenest desires for flavor, and for smooth mellow-mild-body are exceeded in Camels! Their quality will astound you!

Camel Cigarettes are an expert blend of choice Turkish and choice Domestic tobaccos. This blend is a cigarette revelation!

So attractive does the expert blend make Camel cigarettes you will prefer it to either kind of tobacco smoked straight!

Camels will win you in so many ways. For instance, Camels never tire your taste, no matter how liberally you smoke them.

And, you'll find that Camels are free from any unpleasant cigarette after-taste or any unpleasant cigarette odor! In every way Camels seem made to meet your taste!

For your own satisfaction compare Camels with any cigarette in the world at any price! Then, your real appreciation of cigarette quality and enjoyment will begin!

How you will prefer Camels quality to coupons, premiums or gifts!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in glassine-paper-covered cartons. We strongly recommend this carton for the home or office supply or when you travel.

educational system that will place the American soldier on the highest plane of efficiency, is the problem receiving main consideration of the convention at Camp Zachary Taylor of representatives of the army and educational institutions.

Establishment of a code for officers by which the old "driving" methods are abandoned, and setting aside of certain hours each day, in which the soldiers must apply himself to educational work, are two recommendations of the convention.

In the Lady chapel of the great cathedral in Liverpool is a magnificent array of stained glass windows in commemoration of the deeds of good women.

General Board Urges Expansion of American Navy—
Building Program

WASHINGTON, Dec. 19.—Recommendations of the navy general board for the building program for 1921 include two battleships, one battle cruiser, 10 scout cruisers, five destroyer flotilla leaders and six submarines.

The navy of the United States should ultimately be equal to the most powerful maintained by any other nation of the world, "not later than 1925," the report adds.

The statement of policy as to the ultimate strength of the navy and the time when it should be achieved is a reiteration of the board's position as carried in its report of Secretary Daniels each year since 1915.

In its recommendations, made public yesterday at the department, the general board urged a policy of naval expansion that will guarantee protection of coast lines and the rapidly expanding merchant marine against any naval power in the world. Such protection, the board declared, can be had only by "increasing American sea power to a point where it is second to none" and maintaining it at that level.

The board further asserted that the war having demonstrated that possession of a fleet powerful enough to protect its sea-borne commerce is vital to any nation in time of hostilities, the maintenance of such a navy by the United States would be "a great preventive of war, for no nation would lightly provoke hostilities when her own commerce would thereby be imperiled." The necessary future strength of the American navy, therefore, must depend, the board said, upon the naval strength of the powers in a position to challenge our legitimate commercial expansion upon the high seas.

Declaring the greatest naval lesson of the war was the immense advantage of uniformity in speed and armament of first line ships, the board asserted it already was evident that first line ships of the American navy must have heavier armament than the 12-inch guns of the first dreadnaughts. These ships, the board said, rapidly were assuming the same relationship to the navy's superdreadnaughts that the older battleships bear to the first dreadnaughts themselves, with the time approaching when they no longer can be considered as effective first line ships. The German fleet, the board declared in this connection, was handicapped and not strengthened by the presence of predreadnaughts of slower speed and lighter armament in the battle of Jutland, because they reduced the maneuvering and fighting powers of the entire force.

Emphasizing the deficiency of the American navy in scout cruisers the board recommending the construction of ten of these ships, cited the value of such craft to the British fleet during the war and declared that to be essential to "any well balanced navy."

Recommending construction of five ships of the superdestroyer type, the board emphasized the usefulness of such ships and developing the lessons of the war in submarine construction, the board recommended construction of six type or pilot submarines rather than a large building program in present types. One destroyer and one submarine tender completed the program.

For development and construction of aircraft during the war, the board recommended an appropriation of \$27,000,000, with \$6,000,000 to be used for experimental construction.

MUSTEROLE—QUICK
RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone!

Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

MILDRED CHESHIRE

MURIEL GIBBS

ONLY A FEW
MODELS LEFT

NEW YORK—There is despair in the artist's studios of Greenwich village.

For the girls who used to tramp from door to door in the studios looking for a job at posing at 60 cents an hour are no more.

One of the most popular and successful of models who has not deserted the art colony is Sylvia Jewel, a blonde beauty, who when not posing is at work in the movies.

Muriel Gibbs, who enlisted in the United States naval reserve at Washington, D. C., has just returned to New York, and has been besieged by the artists who want to "book" her for weeks in advance.

Mildred Cheshire is another model not yet lured away from the studios.

OSTRICH TRADE IS
GOOD IN AFRICA

BY EDWARD M. THIERRY
N.E.A. Staff Correspondent With Smithsonian-Universal African Expedition

PORT ELIZABETH, South Africa.—Have you an ostrich feather on your hat? Then you've helped save South Africa.

Ostrich feathers and diamonds are the big industries here, and American women are given credit for reviving them.

The ostrich business has been saved from a lingering death. Prices are hitting the high places again after having reached the lowest level in history.

Slaying Prey of American Women

Here in Port Elizabeth, the center of nations like tame ones. The latter

the feather market, the ostrich farmers, feather experts, exporting companies and auctioneers are singing the praises of America—particularly its women. For they're emerging from dark days. Before the war the average price for export at Port Elizabeth was \$14.70 a pound, the record price since 1888. In 1915 they were as low as \$2.65 a pound! Which, Mrs. U. S. Wife, also gives you an idea what the middleman's profit is.

Ostriches are as thick as flies in Africa. You see them everywhere. There were 776,000 in South Africa before the war. Low prices caused many farmers to turn loose their birds, which is the cause of the unprecedented number of wild ostriches—which are no use because the feathers are poor.

Tame Birds Fight Wild Ones Won't

Wild birds, strangely, are not pugged like tame ones. The latter

are ugly customers, especially cocks in the mating season. They take a leaping stride, said to be 31 feet, swerving with marvelous agility, striking down a man with a blow of the foot. You can keep them off if you are wary, by sticking a long pole, tipped with thornbush, in the face. Or a sharp blow from a stick will break leg or neck.

Captive ostriches are fed on alfalfa, pebbles and broken bones. A pair breeds three times a year, hatching as high as 17 eggs each time. Ostrich eggs are on sale here. But they are valuable only as a meal—one egg sufficing a whole boarding house.

All feathers come here and are sold by auction. I saw one table hold \$1,500,000 worth of feathers already sold.

Black feathers are most valuable.

though the whites are larger. Black feathers can be bleached white easier the white ones can be dyed black.

WOMAN RUNS SAFETY
RAZOR EXPORT TRADE

What does a woman know about safety razors? Or what does she know about foreign trade? Evidently one of them knows considerable about both, for announcement has been made by George L. Storm, chairman of the American Safety Razor corporation, that a woman has been named general manager of the subsidiary export company of that twenty million-dollar corporation. Her name is Miss Jane Carroll. She is a Cornell graduate, and served her apprenticeship in the study of foreign trade as foreign trade promotion manager of the American Express company.

American Goods Liked

Miss Carroll has some ideas of her own about the foreign trade situation which she is going to put into effect. For instance it is her belief, she says, that Europeans are partial to American-made goods and that the demand for merchandise made in the United States, particularly staple necessities, is going to increase rapidly within the next few years, regardless of the business recovery of Europe and the resumption of her own manufactures.

Even to South Seas

"We are going after the business in the smaller and less known countries, too," says Miss Carroll. "Already we are sending safety razors and shaving accessories to Persia, India, South Africa, many of the islands of the South Seas, Iceland, Russia, Japan and China."

AMUSEMENT NOTES

Below is what the press agents of the different theatres say of the current attractions and of others to come:

B. F. KEITH'S THEATRE

"On the High Seas," presented at the B. F. Keith Theatre this week, unquestionably touches the high water mark for enthusiasm. For 25 minutes audiences tremble and applaud, breaking into cheers only when the super-

Granddaddy dashes right to the very front and prevents the blockade, running from being blown-up. It is a thrilling moment, and one which never fails to rouse an audience to the very highest pitch. The mechanical devices necessary for such a production are the most elaborate ever brought here. There are six other splendid acts on this same bill.

OPERA HOUSE

"The Little Millionaire," George M. Cohan's big musical comedy, success which is being presented this week by the Lowell Players at the Opera House is the first endeavor, along musical lines, attempted by this company, and it's surprising how well the members are handling this most difficult phase of stock entertainment. Howard Sterling, the new light comedian of the Players, and Miss Starquillo, leading woman, are sharing in the song successes. Then there is Miss Scott and Miss Frodo, as well as William McVittie, who are giving demonstrations of their vocal accomplishments that will win general favor with the patrons. Order your tickets early. Tel. 261.

THE STRAND

The last opportunity of witnessing the superior photoplay program at the Strand is offered today. Pauline Frederick in "Bonds of Love," and Louis Hennison in "Speedy Mende," are excellent picture stories. For the last

three days of the week, starting with matinee tomorrow, Will Rogers in "Almost a Husband," and William Russell in "Eastward Ho!" will be featured. They are film offerings of the superior grade.

Don't forget the personal appearance of Alcee Brady, the Reelstar star, tonight, at 8 o'clock, when he will surely be a real reel novelty in the motion picture annals of the city. He will appear at the matinee performance and will hold a short reception in the theatre foyer. He opens early.

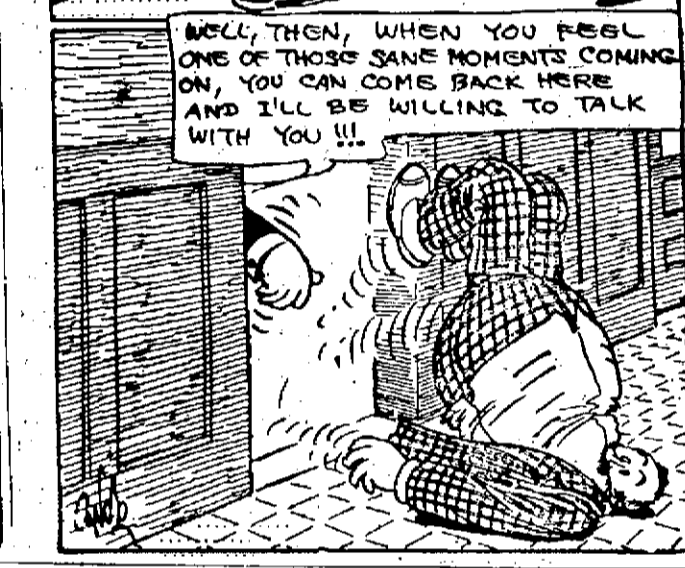

ELIOT UNION CHURCH

People of the Eliot Union church learned yesterday with regret that their new minister, Rev. John W. Ross, recently called to the pastorate from New York state, is critically ill with pneumonia in a Brooklyn hospital. Dr. Ross was unable to preach last Sunday because of a severe cold, but it was not known until yesterday that it had developed into pneumonia. A telephone call to Louis A. Oney yesterday afternoon brought the word that the pastor's condition was unchanged.

Two new Portland cement factories are being built at Kawasaki and Yokohama, Japan, at a cost of \$2,000,000.

233-2234-2235-2236-2237-2238-2239-2240-2241-2242-2243-2244-2245-2246-2247-2248-2249-2250-2251-2252-2253-2254-2255-2256-2257-2258-2259-2260-2261-2262-2263-2264-2265-2266-2267-2268-2269-2270-2271-2272-2273-2274-2275-2276-2277-2278-2279-2280-2281-2282-2283-2284-2285-2286-2287-2288-2289-2290-2291-2292-2293-2294-2295-2296-2297-2298-2299-2300-2301-2302-2303-2304-2305-2306-2307-2308-2309-2310-2311-2312-2313-2314-2315-2316-2317-2318-2319-2320-2321-2322-2323-2324-2325-2326-2327-2328-2329-2330-2331-2332-2333-2334-2335-2336-2337-2338-2339-2340-2341-2342-2343-2344-2345-2346-2347-2348-2349-2350-2351-2352-2353-2354-2355-2356-2357-2358-2359-2360-2361-2362-2363-2364-2365-2366-2367-2368-2369-2370-2371-2372-2373-2374-2375-2376-2377-2378-2379-2380-2381-2382-2383-2384-2385-2386-2387-2388-2389-2390-2391-2392-2393-2394-2395-2396-2397-2398-2399-2400-2401-2402-2403-2404-2405-2406-2407-2408-2409-2410-2411-2412-2413-2414-2415-2416-2417-2418-2419-2420-2421-2422-2423-2424-2425-2426-2427-2428-2429-2430-2431-2432-2433-2434-2435-2436-2437-2438-2439-2440-2441-2442-2443-2444-2445-2446-2447-2448-2449-2450-2451-2452-2453-2454-2455-2456-2457-2458-2459-2460-2461-2462-2463-2464-2465-2466-2467-2468-2469-2470-2471-2472-2473-2474-2475-2476-2477-2478-2479-2480-2481-2482-2483-2484-2485-2486-2487-2488-2489-2490-2491-2492-2493-2494-2495-2496-2497-2498-2499-2500-2501-2502-2503-2504-2505-2506-2507-2508-2509-2510-2511-2512-2513-2514-2515-2516-2517-2518-2519-2520-2521-2522-2523-2524-2525-2526-2527-2528-2529-2530-2531-2532-2533-2534-2535-2536-2537-2538-25

I'll Be a Volunteer Santa Claus FOR THE SANTA CLAUS BUREAU

I will provide a Merry Christmas to ——— poor children.
I will help make Christmas happier for ——— poor families, which will include things to wear and eat

OR
I will contribute \$—— to the Santa Claus Bureau fund for the purchase of Christmas gifts for poor children.

Send me the names and addresses of poor children, or poor families, who live near my home.

OR

I prefer to send my Christmas gifts to the headquarters of the Santa Claus bureau for distribution.

Name _____
Address _____

NOTE TO SIGNER—Fill in above the number of poor children or families you will be Santa Claus to. And state whether you will take your gifts to the homes of those you will cheer, or wish to send your contributions to the club for distribution.

Please mail or send to Girls' Community Service club, Fourth floor, Runels building, Merrimack square.

SANTA CLAUS BUREAU AND CHRISTMAS FUND

Great preparations are being made at the Girls' Community Service club for the two events at the end of the week in aid of the Santa Claus bureau and Christmas fund. On Friday evening five of the girls will present the farce, "A Box of Monkeys" under the direction of Miss Katherine Bailey, assistant recreational director. In the cast are Misses Anna Klerce, Anna Marshall, Marion Cornell, Anna Riley and Alice Curran. Dancing will follow the entertainment.

Commencing at 8 o'clock Saturday afternoon the Christmas bazaar will be held in three of the club rooms on the fourth floor of the Runels building. All sorts of gifts will be on sale at attractive booths, including candy, handkerchiefs, embroidered articles, as well as cake and preserves. A bean supper will be served between the hours of 5 and 7 o'clock. This will not be open to the public, but will be regulated as are all the club dances.

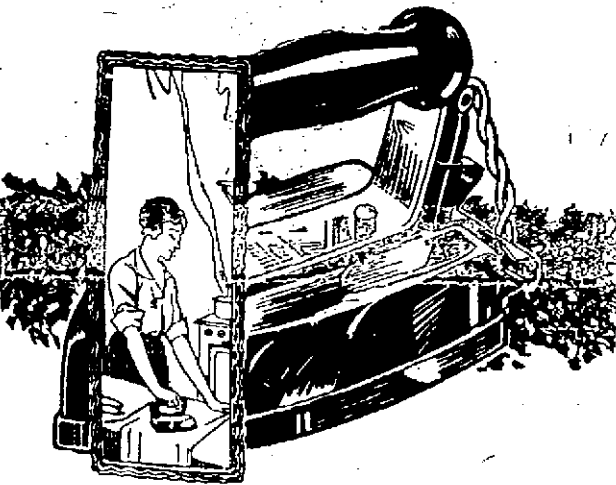

The headquarters of the Santa Claus bureau is filling up with children's gifts and interest in the scheme is growing by leaps and bounds. The bureau fund has grown to \$80.99, including a contribution of \$10 today from Mrs. Frederic A. Plather. One of the rooms at the Lawrence hostelry has pledged more than \$11, which will be available on Saturday and other club gifts have commenced to make similar canvasses in the place at which they work.

Nearly 150 letters to Santa Claus have been received through the mail box outside the building and committees are at work investigating them and classifying the wants as contained in the letters. Two troops of Girl Scouts have taken dolls to dress and a big consignment of toys has been donated by the Kresge store. Substantial discounts have been offered by other stores.

CHRISTMAS TREE, 8-LIGHT
Battery Set. Assorted colors. Complete. Regular price \$3.00. Now \$2.48.

THE ELECTRIC SHOP

LOWELL'S SUGAR SUPPLY NEARLY EXHAUSTED

That Lowell's sugar supply is practically exhausted and that unless more shipments are received in the next few days the city will be faced with an actual "famine" was the consensus of opinion of several representative wholesale grocers interviewed today.

Many of the city's retail grocers are unable to supply their customers with this sweet at the present time, and in one or two instances blame the wholesalers for the shortage, declaring that there is sugar in town which is being held back by the wholesale men.

The wholesalers deny this charge emphatically. They say they would be glad to supply the retail men with sugar if they had it, but when there isn't any to sell, they can't sell it, that's all.

Some of the wholesalers said they were expecting shipments at any time now and one man declared that a large shipment had been promised him today—but he wasn't sure whether it would materialize.

Another dealer said he expected the shortage would continue until the first of the year when the federal regulations controlling prices are abolished. He believed that the situation would gradually improve from then on.

Asked if he expected an increase in the price of this most necessary adjunct to the housewife's larder, he said there would undoubtedly be an increase of a few cents.

VITAL STATISTICS OF THE STATE

Harold D. Wilson, state registrar of vital statistics, was a visitor at city hall this morning and spent considerable time with City Clerk Stephen Flynn in going over various matters concerning the reporting of various data from this city to the state house in connection with the compilation of the vital statistics of the state.

Mr. Wilson expressed himself well pleased with the way the work is being handled in Lowell, especially in comparison with other cities of the commonwealth. It is away ahead of some cities, he said.

Asked if there were any details in which the city might improve in this work, Mr. Wilson said that in the matter of reporting births it is evident that many doctors don't realize the importance of the information which they give. Some of them are careless about names and addresses but on the whole they do exceptionally well.

Mr. Wilson is a former newspaper man and well acquainted with a number of Lowell people.

CITY HALL DOPESTERS WORK OVERTIME

City hall vibrated long and loud today with echoes of yesterday's election results and from the midday of "I-told-you-so's" came speculation as to what effect the election would have on next year's city government.

Mayor Thompson, of course, will again be the city's chief executive and the only change in the municipal council's personnel will be the departure of Commissioner Charles J. Morse from the department of water works and fire protection and the arrival of John F. Salmon as the new commissioner.

What department Commissioner-elect Salmon will direct in 1925 is a question that had city hall people speculating today. The first and natural assumption was that he would take the department that his predecessor is leaving and that the rest of the government would proceed as it has this year, with Commissioner Donnelly in the finance department, Commissioner Marchand in the public property department and Commissioner Murphy in the street department. The mayor, of course, will again direct the department of public safety.

But friends of Mr. Salmon say that he is not over-eager to go to the water department and has his eye on the finance department which Commissioner Donnelly now directs. On the other hand, Commissioner Donnelly has displayed no signs of wishing to yield his department, even though a shake-up of assignments should land him in some berth other than the water department.

Last year a similar problem arose when the water department was seeking a leader but Commissioner Morse settled the difficulty by volunteering to take over the water and fire protection section of the municipal machinery. So far this year no volunteers have made themselves known.

Four weeks intervene between today and inauguration day, Jan. 5 and for that reason it is a little too early to predict with any degree of certainty what the department assignments for 1925 will be. But from the present inclinations of the four members of this year's government who will be in the saddle again next year, it looks as though "Salmon will have to take to water," as one dopester put it this morning.

It is generally conceded that the

Are you still washing clothes as your grandmother did?

UP at daybreak—rubbing, rubbing, for hours, over the wash tubs—

Standing beside the hot stove, turning and lifting the heavy steaming garments in the boiler—filling the room with clouds of steam—

That was the way grandmother washed—not because she wanted to—but because she had to. No better way had ever been found.

Now a better way has been found—a way that saves all this labor, all this wear on the clothes.

The modern way of washing—You soak the clothes clean

Rinso, the wonderful new form of soap-in-granules—makes this new way of washing possible.

The fine granules are so rich in cleansing value, they loosen every particle of dirt as the clothes are soaking overnight. In the morning you rinse them and only the very soiled spots, like

Soak the clothes and rinse—that's all!

Soak the clothes and rinse—that's all!

the edges of collars and cuffs, will need a light rubbing—just between your hands, in the Rinso suds.

You do not boil the clothes, or give them any real rubbing. You use no cake soap or "washing powder." And one package of Rinso does your whole week's washing.

Makes clothes last twice as long

It is rubbing on the washboard that wears out your clothes quickly—it is harsh "washing powders" that make fabrics "fall apart"—that destroy colors.

Rinso loosens all the dirt while the clothes soak and it is so pure that your clothes are as safe in the Rinso suds as in pure water alone.

And Rinso cleans as perfectly in cold water as in warm!

Next time do your washing the modern way—the wonderful Rinso way. Soak your clothes clean—instead of the old rubbing and boiling way.

Order Rinso from your grocer today—and follow the easy directions on the package. Lever Bros. Co., Cambridge, Mass. (Makers of Lux).

Water department does not present the obstacles and difficulties at the present time that it has in the past and that with proper management and judgment it can be conducted without trouble by any commissioner willing to give time and effort to it. But just how the thing will finally settle itself is a matter left for determination on Jan. 5.

Upstairs in the school committee chamber there will be even greater changes than down in the aldermanic chamber. Two new faces will make their appearance in 1925 and a new chairman will have to be elected. The newcomers, Thomas B. Delaney and James E. Markham, with Julian R. Keyes, William L. Crowley and Gardner W. Pearson, will make up the new school board.

Speculation in this respect centers itself on the choice of a chairman. Will Mr. Keyes be given the office as a mark of respect for seniority as a school board member or will it go to Mr. Delaney? The latter's name was prominently mentioned today. It is a fact that Mr. Pearson would not want the position inasmuch as he will have further duties as the senator from the seventh Middlesex district. Mr. Crowley undoubtedly would not be adverse to the position but it is believed that he would willingly vote for Mr. Delaney if the latter's name came up. Mr. Markham, also, is not to be disregarded.

But again the final shuffle is delayed until January. The school committee of 1925 will hold its first meeting Jan. 5, when it will organize and elect its chairman.

Charles J. Morse, who retires this year after six years' service as commissioner at city hall, plans to make a trip to the west early next year and feels that he will know have an opportunity to enjoy a needed rest.

City Council Meeting

Continued

permission to maintain a gasoline pump at 320 Bridge street was referred to Commissioner Morse and the city solicitor.

Margaret W. Merrill petitioned for a granolithic sidewalk at Moody and Prince streets. Referred to Commissioner Murphy.

Max Snow of Chelsea petitioned for

an itinerant vendor's license to conduct a store at 119 Merrimack street. The matter was referred to the assessors, who will levy a special tax and bring their recommendations to the council.

The petition of Thomas McOsker et al for a sewer on Sayles street was referred to Commissioner Murphy.

Com. Murphy said that four applications of oil had been put on the street on petition of abutters and no complaint was made until the work was finished. The council voted to give the petitioners leave to withdraw.

The following petitions will be given hearings Dec. 23: New England Telephone & Telegraph Co., pole locations in Franklin, South Whipple and Dodge streets.

Commissioner Murphy reported favorably on the following petitions, and the accompanying orders were adopted: M. J. Markham, edgestones, 18 Chauncey avenue, and Albert and Helen E. Fielding et al., sewer in Haines avenue.

Commissioners Murphy and Marchand

The Knife and Fork Brigade

Dyspeptic Soup Eaters Can Change
Their Spoon for a Knife and Fork
and With Stuart's Dyspepsia Tablets the World
Smiles Again

Ask a former dyspeptic who tried the Stuart's Dyspepsia Tablets plan what wonderful relief they afford. Instead of the crutchy bowl of soup at home and the abject terror at the sight of good things to eat at a party supper, the soup spoon has been replaced by the knife and fork. This comes from giving the digestive processes required assistance. These tablets digest food. They stimulate natural digestive secretions. Thus the food keeps on digesting, doesn't lie in the stomach to sour and create all sorts of distresses. And they act as soon as they enter the stomach, hence relief even in dyspepsia may be looked for almost at once.

If you have been troubled with gas, flatness, sour stomach, water brash, heaviness after eating and such troubles, try these tablets. You will find Stuart's Dyspepsia Tablets on sale in any drug store in the United States and Canada.—Adv.

reported favorably on the following petitions and the accompanying orders were adopted:

New England Telephone & Telegraph company, pole location in Avon and White streets; and Lowell Electric Light corporation, pole locations in South Walker and Cushing streets.

A petition signed by Charles H. Hobson and others asked that the sidewalk in Sheppard street in the Oaklands be repaired. Referred to Commissioner Murphy. Similar action was taken on the petition that a light be installed in Oakland path between Parkview and Holyrood avenues.

Commissioner Morse reported favorably on the following petitions and the licenses were granted: Charles G. Vinu, garage and gasoline, 584 Lakeview avenue; Barthel-Faulkner Co., garage and gasoline, 251 Merrimack street; Carleton & Hovey, garage, 21 Post Office avenue; L. H. Hovey, gasoline, 136 Powell street; Larkin T. Trull, garage, 16 Fairmount street; John Brady, gasoline, 185 Church street; Clara L. Conant, garage and gasoline, 316 East Merrimack street; and Newcomb Specialty company, garage, Hovey avenue.

The Cycle Outlet company petitioned for permission to maintain a gasoline pump at 123 Pidge street and Commissioner Morse reported that he had examined the premises and found them to comply with the state law, but that Commissioner Murphy of the street department would also have to give his approval. The latter moved that immediate action be taken and accordingly the council voted to grant the license.

New Pump Foundations

Commissioner Morse then asked the mayor to read a letter from the Worthington Pump & Machinery corporation, advising the commissioner that the foundation holes, plates and washers for the new pump which the council had voted to buy some time ago had already been shipped.

The commissioner then explained that in order to expedite matters as much as possible so that the city would be ready for the pump as soon as it is delivered, he had sought the services of Frank A. Harboure, a consulting engineer of Boston, to make an estimate of the cost of removing the old foundation at the pumping station in West Sixth street and installing the new foundation and other installations necessary

to the erection of the pump. The estimate also includes new piping, labor and the inspection and testing incidental to the installation of the pump. The total estimated cost, including 10 per cent, for contingencies, is \$13,385.

Mr. Morse said that he would like Mr. Harboure to have full charge of the work and that his price was reasonable. He suggested that the contract for the preliminary work be let out as soon as possible.

Mr. Harboure said that the estimate he had made was a liberal one and that inasmuch as the pump is to be shipped here by the middle of February and time is the essence of the contract, he would advise that work on the foundation be started as soon as possible. He also recommended the early installation of a new boiler at the pumping station.

Mayor Thompson said that he believed the members of the council should give the matter a little deliberation and it was voted to lay it on the table with the understanding that it is to come up at next week's meeting of the council. The council adjourned at 10:57 until tomorrow morning at 11 o'clock when it will approve monthly bills.

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when rattling; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

Many Cities and Towns Destitute of Coal and Suffering Reported

CHICAGO, Dec. 10.—Below zero temperatures prevailed today in virtually all sections from the Mississippi valley to the Sierra Nevada mountain region and the cold wave began its eastern invasion with sub-normal temperatures of 20 to 50 degrees. In parts of the western country, already hardest hit by the fuel shortage brought about by the strike of bituminous coal miners, many small cities and towns were destitute of coal and suffering was reported. Montana and Northern Idaho were the chief sufferers.

As a further coal conservation measure, the most severe curtailment of Continued to Page 10

GOV. SPROUL IN KEYNOTE SPEECH

Outlines Policies of Republican Party at Washington Meeting

Attacks Mexican Policy—For Better Relations Between Capital and Labor

WASHINGTON, Dec. 19.—Governor Sproul of Pennsylvania in a keynote speech at the meeting today of the republican national committee attacked the administration's Mexican policy and declared the republican party approached the coming presidential campaign with confidence that the people would endorse its policies.

His outline of policies included better relations between capital and labor, economy and business management in administration, a firm handling of the Mexican situation, restoration of Americanism and constitutional government and a sound solution of the railroad problem.

Question of Peace

Referring briefly to the question of peace, the governor declared that the republican citizenship had endeavored to co-operate in the conclusion of the matter with only such limitations as will preserve to this republic its full right to determine its own affairs, under the constitution.

"We must prepare," said Governor Sproul, "not only to clean up the governmental mess in which we find ourselves, but we must lay our plans for restoring our nation to the position of respect which it once held. We must lay our plans to meet the menace to our peace and well-being on our southwestern boundary. No chapter in our entire national history is more disgraceful and humiliating than the story of our relations with Mexico during the past seven years."

He declared that during republican times, relations between capital and labor "have always been pretty well understood." Sentiment for Americanism, he said, was rapidly increasing and Continued to Page 12

Results of Municipal Election in This City Yesterday

MAYOR PERRY D. THOMPSON

Perry D. Thompson Defeats John J. Gilbride For Mayor by Big Majority—Salmon and Donnelly Chosen Commissioners—Delaney and Markham Elected to the School Committee

Lowell voters brought the 1919 political season to a close yesterday by electing Perry D. Thompson mayor, John F. Salmon and James E. Donnelly aldermen, and Thomas B. Delaney and James E. Markham members of the school committee. Each officer was elected to serve for two years, 1920 and 1921. Mayor Thompson and Alderman Donnelly were re-elected.

Mayor Thompson defeated John J. Gilbride by a majority of 2401. His total vote was 5314 and Mr. Gilbride's 2913.

Commissioner Charles J. Morse and George H. Brown were the unsuccessful candidates for alderman. Mr. Brown came in third and Mr. Morse fourth. The vote for alderman was: Salmon, 9867; Donnelly, 6722; Brown, 5435; Morse, 4479.

James E. Lyle and James H. Rooney were the defeated school board candidates. The vote was: Delaney, 8944; Markham, 8320; Lyle, 7557; Rooney, 6742.

The city voted for license more emphatically than ever before. The "yes" vote was 10,264 and "no" 4665.

The election followed a campaign in which chief interest centered in the mayoralty fight. Mr. Gilbride, who had been defeated for the nomination two years ago by a scant margin, again came to the front as an aspirant for the city's highest office and won his nomination by a safe margin. From the date of the primaries until the day after Thanksgiving neither Mayor Thompson nor Mr. Gilbride did any active campaigning. But on that day both held noon-day rallies and from then on until the very eve of election day, each candidate worked untiringly for success.

Many reasons may be assigned for Mayor Thompson's re-election. One was a compact, competent and hard-working campaign organization. Another was the natural tendency of voters to give a mayor a second term in office. A third reason was the effective impression which His Honor made on the voters in defending his administration and pointing out its constructive features.

Mr. Gilbride's campaign organization was hardly less enthusiastic than that of the mayor but it lacked the subtle "something" that brings success. Both candidates indulged in extensive campaigns of newspaper advertising which helped more than any other feature to create interest in the election.

The aldermanic fight produced few surprises. Mr. Salmon was conceded top position as the result of the big vote he polled at the primaries. Some of his more eager friends were a little worried as election day approached because he had not put up such an active campaign after the primaries as he had before but their fears proved unfounded because the former Knights of Columbus secretary walked away with one of the biggest aldermanic votes ever cast here.

Second place was really the nucleus Continued to Page Nine

To the Voters of the City:

I want to thank the citizens of Lowell for the splendid vote of confidence again conferred upon me.

It will be my earnest endeavor to merit, by my public service, the good will of my fellow citizens while in office.

CITY COUNCIL HOLDS MEETING

Discusses Foundation for New Water Department Pump

Engineer F. A. Barbour Gives Facts and Figures as to Cost

Frank A. Barbour, a well known Boston consulting engineer, presented facts and figures to the municipal council at its meeting this morning concerning the cost of removing the old foundations and piling at the West Sixth street pumping station to make room for the new Snow pump that the government has ordered and which is scheduled to be delivered early in February and the building of new foundations and providing new piping and engineering inspection incidental to the installation of the pump. Mr. Barbour has made a survey of the work at the request of Commissioner Charles J. Morse of the water department and his statement this morning was in the nature of a report. He estimated the total cost of the work, exclusive of the pump itself, of course at \$13,355.

Incidentally he urged that the matter be given immediate consideration as he said that only one pumping machine stood between the city and no water. The council voted to take the matter under consideration for a week before giving out the contract for the installation of new foundations and the removal of the old.

The meeting was called at 10.15, with all members present.

Ervin E. Smith petitioned for lights in Market street. Referred to Commissioner Murphy.

The petition of John T. Donahue for Continued to Last Page

MANSLAUGHTER CHARGE IS DISMISSED

Found not guilty of manslaughter in connection with the death of four-year-old Dorothy Lyon of West Andover, who was struck and fatally injured by an automobile in Bridge street near Merrimack square on Oct. 7, Percy D. Smith of Methuen, driver of the car which struck the girl, was discharged by Judge Enright when his case was called on continuance in police court today.

The fatality occurred shortly after noon. The little girl, with her mother, Mrs. Esther Lyon, was crossing the street near Fairburn's market, when Smith's machine struck them. Continued to Page Six

Union Officers at Indianapolis Expected To Accept Proposal Today

Yesterday's Announcement Premature—General Committee of Union in Session

INDIANAPOLIS, Ind., Dec. 10.—With President Wilson's proposal for ending the strike under consideration the conference of miners recessed at 12.05 this afternoon until 1.30 for lunch. Acting President John L. Lewis said he "expected the miners to finish" today. Otherwise he would make no comment.

Mr. Lewis appeared confident of winning the fight for acceptance of the president's plan when it comes to a final vote.

INDIANAPOLIS, Ind., Dec. 10.—The general committee of the United Mine Workers of America reconvened shortly before 10 o'clock this morning for further consideration of President Wilson's proposal for ending the strike of 400,000 bituminous coal miners of the country. It was generally expected the proposal, providing for the immediate return to work at the mines at an increase of 14 per cent in wages and the appointment of a commission of three men to adjust wages, would be accepted before the conference adjourned for the day.

FUEL RULES NOW IN EFFECT IN N. E.

BOSTON, Dec. 10.—James J. Storrow, fuel administrator for this state, was placed in charge of coal conservation in New England by the New England federal fuel committee today. He announced immediately that it was imperative that every user of light, heat or power in this section comply strictly with the federal regulations, "which must be regarded as in full force and effect now."

Mr. Storrow emphasized the statement that "not a pound of bituminous coal is coming to New England over our railroads, and has not been for 50 days. This was never true, even for a single day during the war." Shipments by water are few, he said, and by sea and land New England's supply of steam coal has been reduced to 25 per cent of our daily needs. "We are living on our reserves which are dwindling fast."

BAN JOHNSON WINS

"Insurgents" in Am. League Ousted From Directorate and New Board Elected

NEW YORK, Dec. 10.—The "insurgents" in the American League were ousted from the directorate today and a board favorable to President Ban Johnson was elected.

Immediately after the election Johnson was served with papers in three suits brought by Ruppert and Huston. One suit attacked the validity of Johnson's 20-year contract as president of the league. Another seeks damages for his actions as regards the New York club.

Johnson's contract was upheld by vote of the board. It has about 10 years to run.

MAYOR THOMPSON THANKS VOTERS

To My Fellow Citizens:

It is with heartfelt gratitude that I offer my deep appreciation for the magnificent endorsement you have accorded my administration. I view your renewed expression of confidence in me as an instruction to continue in the same path of duty which has marked my career in office during the past two years.

I am mayor of all the people, and at your service.

PERRY D. THOMPSON, Mayor.

MRS. FLORENCE T. CRITCHLOW

MRS. SARAH TABOR

PRINCIPALS IN TRUNK MYSTERY

LAWTON, Mich.—Mystery beginning with the discovery of the embalmed body of Miss Maude Tabor in a trunk in her home is centered about these three principals. Mrs. Critchlow, Miss Tabor's sister, who found the body, is being detained with Joseph Virgo, an embalmer, and former sweetheart of the dead girl. Mrs. Sarah Tabor insists the body is not that of her sister-in-law.

CONGREGATIONAL CLUB

Entertained at Eliot Union Church—Interesting Address by Dr. Barton

The Lowell Congregational club was entertained last evening at the Eliot Union church. Supper was served at 6:15 o'clock, followed by a brief business meeting and a splendid address by Dr. James L. Barton, head of the near east relief expedition on "Have the People of Turkey any Claim Upon America."

The women of the church served a satisfying meal and Mrs. A. C. Spalding, accompanied by Mr. Spalding, Rev. A. G. Lyon of the Pawtucket church presided. In response to a communication from Lowell Community service, A. K. Whitcomb was elected to represent the church on the community council. Twelve new members were added to the roll.

Dr. Barton then was introduced and spoke in part as follows:

"You never have read any story of

atrocities, that is exaggerated. It would be impossible for our workers to live under such conditions, without absolutely shutting out the springs of the heart. One of our doctors went to pieces because he could not endure it. I had to caution my workers not to allow their sympathies to get possession of them.

"The relief organization is now ministering to over 60,000 children, and there are at least 65,000 more that should be reached. It has also established refugee homes for girls who escape from the Moslems. The organization, he said, has got to be supported by America, until something can be done politically, with that country. The United States government has just given the organization 35,000 tons of flour to feed refugees over there, who are absolutely destitute."

Dr. Barton thinks there should be a separate mandate for Constantinople, and that that should be the seat of the League of Nations, right in the stern center. All the peoples of those countries want America. They would accept England as a second choice, but they will not have France. It is not a military proposition. They want America to go in as a civil government. A military man told him the other day

that two divisions, officered by Americans, would be necessary at first, but that the number could be greatly reduced when order is established. It would have to be a stern government in the first place. All the disturbing elements would have to be taught that killing would not be tolerated.

It would take 800 millions of dollars to do the job thoroughly, but within two years that country would be an exporter of supplies to the world. The whole amount of money expended would be paid back with interest in 15 years. "America can do it," he said. "There is no country in Europe that can. And unless we accept our share of the burden of reconstruction we are in danger of facing a new world war inside of a few years."

At the close of the meeting a resolution was adopted, urging the speedy ratification of the peace treaty and the acceptance, by this nation, of its share in the reconstruction of the world. Dr. Barton urged that everyone write the senators and urge ratification.

A book written more than 1,000 years ago mentions two breeds of poultry still being raised in China, while incubators now used are the same in principle as those employed in Egypt 4,000 years ago.

HOW WEAK WOMEN ARE MADE STRONG

Mrs. Westmoreland Tells the Following Letter.

Harrison, N. Y.—"When my first child was born I did not know about Lydia E. Pinkham's Vegetable Compound and had a very hard time. I read the new newspaper about the Vegetable Compound and when a second child came I took it and was very during the whole time, and children were a hundred times easier. Ever since then I have used it for any weakness and would not be without it for the world. I do all my work and am strong and healthy. I am nursing my baby, and I still take the Vegetable Compound as it keeps a woman in good health. You may publish my testimonial for the good of other women if you choose to do so."—Mrs. C. WESTMORELAND, Harrison, N. Y.

Women who suffer from displacements, irregularities, inflammation, leucorrhea, backache, headaches, nervousness should lose no time in giving Lydia E. Pinkham's Vegetable Compound a trial, and for special advice write to Lydia E. Pinkham, Medicine Co., Lynn, Mass.

HOPKINTON SCHOOL ROW

Seven Arrests—Strike of Pupils Follows Discharge of Teacher

HOPKINTON, Dec. 10.—As a result of the demonstration last Saturday night at the high school building, when the school committee in executive session voted to discharge Miss Ellen M. Duffey from the high school faculty, warrants were issued for six men and one woman under the anti-anarchy act of 1919 at the district court at Framingham by Judge Kingsbury yesterday. Those charged with disturbing the peace under the act are:

Roxilla Pond, also charged with assault and battery on School Committee member T. S. Roach; Edward Condon, minority member of the school committee; W. B. Lyman, superintendent of schools; Claude Guyton, L. D. Drawbridge, Douglas MacMillan, John Hunt, Deputy Sheriff William H. Walsh of Framingham was the complainant. The writs, issued under the anti-anarchy act, are returnable at the district court in Framingham Dec. 13.

The warrants yesterday afternoon came at the conclusion of an eventful day at the high school.

Deputy Sheriff Walsh came from Framingham earlier in the day to compel Miss Duffey to leave the school building, and when she refused, she was accompanied by 18 out of the 53 pupils in the high school.

The students declared on their walk-out that they would not return unless Miss Duffey were reinstated.

A petition was circulated yesterday to be sent to the state board of education.

Why Catarrh Is Risky

Have you pains over the right eye, pains over the left eye, pains across the front of the head? Do you take cold easily, sneeze a great deal? Do you sneeze until you become dizzy? Do you first one nostril, then the other, close? Have you a discharge from your nostrils? Are you losing your sense of smell? Do crusts form in your nostrils? Do you sleep with your mouth open? Does your throat feel dry, as if sand were dusted over it? Does your throat tickle as if a hair had lodged in it? Do you have to be constantly clearing the throat? Is your hearing failing? Have you unnatural sounds in the ears? Are those sounds like steam escaping or like water falling? Do your ears feel like they were stopped up? Does the wax harden in your ears? Do your ears discharge?

Have you distress after eating? Do you blow with gas? Does your heart palpitate? Does your heart miss beats? Are you short of breath on going up stairs? Have you pains in the chest? Have you soreness behind the breastbone? Have you stitches in your side? Have you a dull ache under the shoulder blades? Have you an irritating cough?

These are important questions for you to answer. In one they indicate catarrh at work in the nostrils and throat; in others they indicate catarrh that is spreading from the nostrils and throat into the ear tubes, and this may rob you of your hearing.

In others it tells of a catarrh that has reached the stomach. In this way, the entire system becomes poisoned by catarrh.

In others it indicates diseases that begin like a cold in the nostrils and throat, but which have traveled down into the windpipe and lung tubes. Diseases in the air passages make sore places. The cough, the chest pains and the cough that brings up the material thrown off by the sore places.—Adv.

8 VISITS FOR \$5

If you suffer with clogged nostrils, discharging nostrils, are going deaf or have head noises, or discharging ears, or have a bad throat or bad stomach or gas for breath and suffer from those other distressing symptoms of asthma, I will be pleased to have you call at my office. It will cost you nothing for an examination and if you begin treatment now you will receive eight office treatments for \$5.00, and this same low rate will hold good until you are well. This includes all diseases of a catarrhal nature, whether the disease be in the eyes, ears, nose, throat, bronchial tubes or stomach.

tion demanding that the teacher be reinstated.

The charges against Miss Duffey are that she waved at a street car conductor and that she "insulted" the mother of two of her pupils.

According to the testimony of Helen and Eugene Maddigan, in a classroom exercise, they wrote for a Pullman berth for their mother, and when they omitted to state whether upper or lower, Miss Duffey said, "Surely your mother should have a lower berth—your mother would not want to climb into an upper berth." Miss Duffey is further charged with

influencing her pupils against accepting diplomas signed by Mr. Roach and T. B. Elliott of the school committee, and instead urging them to accept diplomas issued by Edward Condon, the minority member of the board, and W. B. Lyman, superintendent of schools, it is alleged.

It was estimated yesterday that fully 90 per cent of the residents of the town are with Miss Duffey and brand the charges as ridiculous.

The 21st verse of the seventh chapter of Ezra contains all the letters of the alphabet except "j."

The Price of Pork Chops and Bacon

Here are reasons why the fine, fresh pork tenderloins and pork chops, or savory ham, or crinkly bacon, which you enjoy for breakfast, cost much more per pound than the market quotation on live hogs which you read in the newspaper:

An average hog weighs 220 pounds.

Of this, only 70 per cent (154 pounds) is meat and lard.

So, when we pay 15¢ a pound for live hogs, we are really paying more than 21¢ a pound for the meat which we will get from these animals, even after taking into account the value of the by-products.

But people show a preference for only one-third of the whole—the pork chops, fancy bacon, and choice cuts from juicy hams.

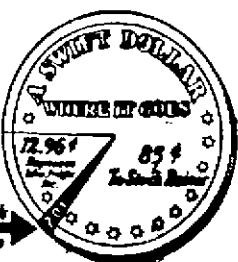

This means that when we are selling Premium bacon at 43½¢ per pound wholesale and Premium hams at 30¢, there are other parts for which we get as low as 6¢ or 8¢ per pound. The net result is an average profit to us of less than 1¢ a pound.

The choice cuts are higher because of a demand for them.

Another thing: Only 35 pounds of the entire hog—or about 1/6 th—is usually marketed at once. The rest must be pickled, cured, or smoked. This takes months, and adds to the costs which must be met.

AMERICAN RED CROSS

North Middlesex Chapter
Holds Annual Meeting—
Organization Thriving

North Middlesex chapter of the American Red Cross held its annual meeting yesterday afternoon in Middlesex hall, with a large attendance in spite of the uncomfortable weather. All reports made gave fine evidence of activity and a thriving organization. Robert F. Marden was elected president for 1920 and with him will serve the following board of officers: Vice president, George Stevens; secretary, Miss Ruth Burke; assistant secretary, Mrs. George A. Leahy; treasurer, George R. Chandler; assistant treasurer, Miss Julia T. Povey; membership secretary, Mrs. Boyden H. Pillsbury; civilian relief director, Miss Alice Sullivan.

The chapter has a membership enrollment for 1920 of 23,602 of whom 16,566 are in Lowell and 12,046 in the towns of the district. The total chapter receipts in 1919 amounted to \$133,243.15 and the total disbursements were \$84,591.58, leaving a balance as of Nov. 1, the end of the fiscal year, of \$48,751.57. Approximately \$21,000 of this money will go to national Red Cross headquarters.

Miss Ruth Burke gave an entertaining talk of Red Cross work in Europe as she saw it and said that people of this country can rest assured that the money they gave and the work they did was put to good use overseas.

The annual report of the secretary proved most interesting and was presented by Mrs. Leahy, assistant secretary, as follows:

North Middlesex County Chapter—Annual Report, Nov. 1, 1918, Nov. 1, 1919.

Immediately after the signing of the armistice, Nov. 11, 1918, the North Middlesex Chapter commenced to cut down on production.

The regular attendance in the local work room was greatly lessened. The kind of work produced changed from hospital supplies to refugee garments and knitted articles for refugee children replaced the sleeveless sweaters, socks, etc., which were being made for the fighting soldiers.

During the past year the North Middlesex Chapter manufactured and sent to division headquarters 217 cases of goods which contained 10,137 knitted articles, 19,601 garments, 73,406 miscellaneous things and 501 layettes.

When it was found impractical longer to retain headquarters at the Bigelow-Hartford plant, there was considerable thought given to prospective work and the possible need of a smaller workroom; finally a decision was reached by the executive board to cease entirely in production unless special requests were made for work in which case materials would be secured from the division bureau of supplies.

It was found on canvassing the branches that many were willing to continue work if necessary but desired a brief respite in the sewing and some of our branches wished to have as the principal Red Cross activity the work for returning soldiers and their families, through the home service committee.

Instructions soon came from Mr. Jackson in which he desired each individual to account to the chapter office for time served at Red Cross work for the three six-month periods when the United States was at war, and after many hours of figuring 435 badges and 42 buttons were given, together with 422 service certificates, to the many applicants in Lowell and the towns.

Early in December the Red Cross established an information booth in the Boston & Maine station, so that any assistance desired by the returning soldier might be rendered, but after trying it out for one month it was found that the various local organizations could sufficiently do that work, so the booth was discontinued.

The week of Dec. 16-22, 1918, brought forth many efficient workers to "carry on" the second roll-call for members. The result was that North Middlesex chapter boasted of over 47,000 members.

In November, 1918, more than 3900 pounds of clothing were shipped to New York for relief of the Belgians.

In March, 1919, more than 2120 pounds of clothing and shoes were shipped to the Baltic terminal for other foreign countries in distress.

This chapter was represented at the Atlantic City conference in June, 1919, by Miss Povey, assistant treasurer, and

Will There be Music in Your Home This Christmas?

LEAVE YOUR ORDER NOW FOR FUTURE DELIVERY

Miss Alice Sullivan, field director in home service.

In August, 1919, the chapter offices were moved from the Bigelow-Hartford mill to 81 Merrimack street.

When the United States army offered to put its surplus stock of supplies in the market, the Red Cross offered its Bigelow-Hartford home an aseries to the municipal authorities, with the result that three successful food sales were conducted to benefit the public in this country.

During the past year first aid and home nursing classes were conducted and in November, 1918, a Christmas box committee worked constantly inspecting and mailing the parcels for overseas.

The membership drive for 1919 will be officially and financially accounted for under next year's report, as this report reads from Nov. 1, 1918, to Nov. 1, 1919. However, a 12 months' period will be too long to lapse ere we publish the results of the splendid work of Paul R. Chandler, chairman of the third roll-call, and that of his faithful supporters and co-workers, the team captains and their co-workers.

To them is due vigorous applause with thanks, for they had to dispel many dark clouds before opening the

campaign at all, as the general comment was: "The war is over—why does the Red Cross need money now?"

After hearing the enthusiastic speakers tell of their experiences in Europe, and of the assistance rendered in every quarter by Red Cross officers, one and all decided a permanent organization must be supported; therefore we have on our files names of 16,550 men and women as Lowell members in addition to 12,046 for the towns, which together make a total of 28,596 for the chapter; Ayer having 670; Bedford, 255; Billerica, 223; Burlington, 173; Carlisle, 199; Chelmsford, 589; Dracut, 321; Dunstable, 127; Groton, 809; Littleton, 287; Lincoln, 135; Pepperell, 550; Reading, 1057; Stoneham, 1642; Tewksbury, 310; Tyngsboro, 158; Wakefield, 1661; Westford, 605; Wilmington, 407; total for the towns, 12,046; Lowell, 16,550; grand total, 28,596.

We are glad to extend thanks again for the cordial hospitality offered by the Bigelow-Hartford Co. and by the United States government through the United States Cartridge Co., also for the many services rendered by them.

And last but by no means least I repeat the receipt of a complete record of every dollar collected during the third roll-call, which balances the

membership files, and this in through the earnest efforts of W. N. Goodell, third roll-call campaign treasurer.

ALICE D. LEAHEY,
Dec. 9, 1919. Assistant Secretary.

FIRE AT TILTON, N. H.

Two Women Rescued From
Burning Block

TILTON, N. H., Dec. 10.—Two women were rescued from the Thompson block in the heart of the business section during a fire early today. The entire business section was threatened by the

flames which destroyed the Thompson block and damaged an adjoining building. Assistance was summoned from Laconia. The loss was estimated at \$60,000.

NEW LOW RECORDS

Sterling and Francs Continue To Fall

NEW YORK, Dec. 10.—Rates of sterling exchange continued their downward course today, checks being quoted at \$3.80 1/2 or 1 1/2 cents lower than the

lowest quotation reported yesterday. Francs also declined to a new low record, checks being quoted at 11.53 for the dollar, off 32 centimes from yesterday's closing prices. Lire checks also dropped 17 centimes and were offered at the rate of 13.47 for the dollar. The German mark, worth 33.3 cents before the war, has dropped to less than two cents, quotations being made at 1.95 cents.

An automobile of the limousine type has been invented with a telescoping body that can be drawn out to afford more room when tourists wish to use it for camping.

ADEQUATE MAP FOR MILITARY PURPOSES

WASHINGTON, Dec. 10.—Need of an adequate map of the whole territory of the United States for military purposes as well as a means of promoting national development was emphasized in the annual report today of the director of the geological survey. Nearly 60 per cent of the area of the country is totally unmapped, the report said.

MARGARET LARRAMORE

WEDS DASHING ARMY CAPTAIN AND THEN FINDS HE'S ALREADY MARRIED

(N.E.A. Special to The Sun)

DENVER, Dec. 10.—Three Tomahawk days of honeymoon in a mountain-top inn have brought disgrace to an army officer after a distinguished record in France, heart-break to his wife and disillusionment to the girl he bigamously married "because she was pretty and sympathetic."

Mrs. Ira L. Irving and her eldest son, Floyd, have come from her home in Flint, Mich., to plead for lenience before the army court-martial which will try Captain Irving for dishonoring the uniform. His mother is also here to plead in his behalf.

Miss Margaret Larramore, who took pity on Captain Irving while he was a patient in United States Hospital No. 21, recuperating from the effects of gas poisoning received in action, has obtained the annulment of her marriage and is determined to rise above the experience which at first threatened to wreck her life.

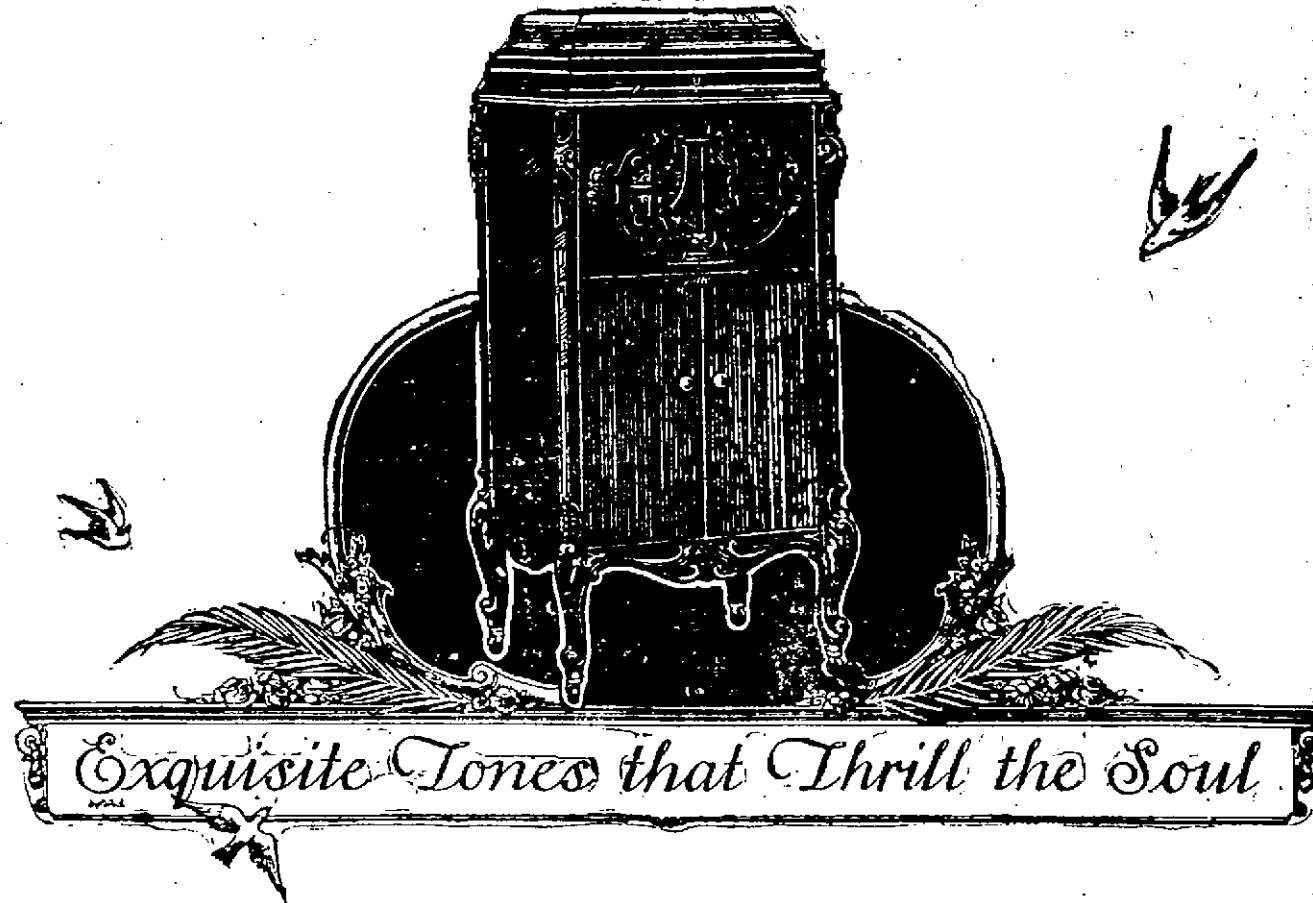

"I must have been mad with lone-

ness," says Captain Irving, prisoner in a disciplinary ward of the hospital. Soon after intelligence officers arrested him with his duped bride in their mountain retreat, he escaped, but was recaptured as he was about to start back to his family in Michigan.

"I think I have given enough to my country," says Mrs. Irving. "We have been married for 20 years and have five children who need their father. "We need him, too. I would not ask him to come with me unwillingly, but I know he cares nothing for this girl. He has written that homesickness was preying on his mind and I know that he was unbalanced mentally."

Miss Larramore, 23, met Captain Irving at a Y.W.C.A. dance given for convalescent officers. She sympathized with him, and when she quarreled with the young man to whom she was engaged, she yielded to the captain's plea that she marry him. Not until several weeks after his arrest did she learn the truth.

"I am sorry for Mrs. Irving," said Miss Larramore. "I am young and will survive. I have no reason to be ashamed."

PHONOGRAPHIC tone reproduction reaches its climax when presented by The Brunswick. Play any make record—vocal or instrumental—and the utmost in tone quality is achieved.

Such triumphant success is due to the Brunswick Method of Reproduction. This is accomplished by two exclusive features. Both are scientific yet simple. They are pictured and explained briefly, below.

The Brunswick Phonograph has built into it the best ingenuity known to the

The Brunswick

phonograph world. It embodies every worthwhile present-day feature.

It has discarded every old fashioned crudity. Hitherto lost elements in phonographic sound interpretation are now restored.

The Ultrona plays all records, truer, finer, sweeter. It is not a makeshift con-

trivance but involves a genuine principle of sound.

A slight turn of the hand presents the right needle, diaphragm and weight for playing any record.

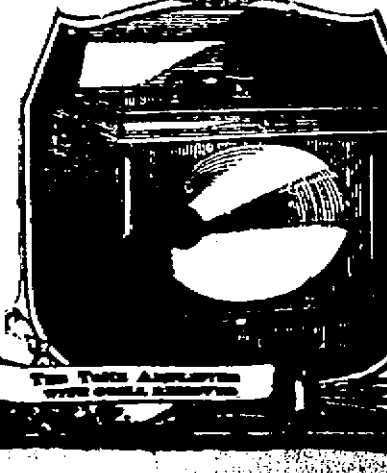

The Tone Amplifier is an oval shaped vibrant tone chamber.

Like the sounding board of a fine piano or violin, it is made entirely of wood and free from metal. Thus it gives the requisite tonal volume and eliminates all harsh, thin, metallic sounds. It meets all advanced acoustical and musical laws,

Come in and we will gladly give you a free copy of "What to look for in buying a phonograph"

You will want this interesting and instructive booklet before you buy because it is authentic. It was written by Henry Farnett Eames, LL.B., Concert Pianist and Lecturer, Director Pianoforte Dept., Cosmopolitan School of Music, Chicago.

Chalifoux's
CORN K
The Store of Absolute Satisfaction.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing like Vita Nitro-Phosphate to Put on Flesh, Healthy Color and Increase Strength, Vigor and Nerve Force

Judging from the countless preparations and treatments which are continuously being advertised for the purpose of making thin people fleshy, overeating, arched neck and back, and replacing bony hollows and angles by the soft curved lines of beauty and health, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitrophosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitrophosphate should produce a welcome transformation in the appearance, the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, with nervous always accompanying excessive thinness, should soon disappear, dull eyes brighten and pale cheeks glow with the bloom of perfect health.

CAUTION:—While Vita Nitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

Theodore Roosevelt's Letters to His Children

Edited by

Joseph Bucklin Bishop

The Russian-Japanese war was raging during the spring of 1904. The country at large, and government officials in particular, had been counselled to maintain strict neutrality. Meanwhile, states were already lining up for Roosevelt as the republican candidate for the presidency. Postoffice scandals, the Reed Smoot investigation and the Panama question were still keeping the president's hands full.—The Editor.

Peter Rabbit's Funeral

White House, May 25, 1901.

Dear Kermit:

It was great fun seeing you and Ted, and I enjoyed it to the full.

Ethel, Archie and Quentin have gone to Mount Vernon today with the Garfield boys. Yesterday poor Peter Rabbit died and his funeral was held with proper state. Archie, in his overalls, dragged the wagon with the little black coffin in which poor Peter Rabbit lay. Mother walked behind as chief mourner, she and Archie solemnly exchanging tributes to the worth and good qualities of the departed. Then he was buried, with a fuchsia over the little grave.

You remember Kenneth Grahame's account of how Harold went to the circus and sang the great spherulic song of the circus? Well, yesterday mother leaned out of her window and heard Archie, swinging away in a magnolia tree, singing away to himself. "I'm going to Sagamore, to Sagamore, to Sagamore. I'm going to Sagamore, oh, to Sagamore!" It was his spherulic song of joy and thanksgiving.

The children's delight at going to Sagamore next week has completely swallowed up all regret at leaving mother and me. Quentin is very cunning. He and Archie love to play the hose into the sandbox and then, with their thigh rubber boots on, to get in and make fortifications. Now, and then they play it over each other. Ethel is playing tennis quite a good deal.

I think Yaganka is going to come out all right, and Blaislein, too. I have no hope for Wyoming or Renown. Fortunately, Rusty is serving us well.

White House, June 12, 1904.

Blessed Quenty-Quee

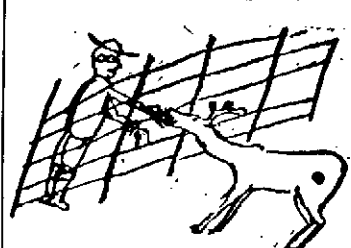

The little birds in the nest in the vines on the garden fence are nearly

grown up. Their mother still feeds them.

You see the mother bird with a worm in her beak, and the little birds with their beaks wide open!

I was out walking the other day and passed the Zoo; there I fed with grass some of the two-year old elk; the bucks had their horns "in the velvet." I fed them through the bars.

White House, June 12, 1904.

Blessed Archie-Kins

Give my love to Mademoiselle; I hope you and Quenty are very good with her—and don't play in the library!

I loved your letter, and think you were very good to write.

All kinds of live things are sent me from time to time. The other day an eagle came; this morning an owl.

(I have drawn him holding a rat in one claw.)

We sent both to the zoo.

The other day while walking with Mr. Pinchot and Mr. Garfield we climbed into the Blagden deer park and almost walked over such a pretty wee fawn, all spotted; it ran off like a little race horse.

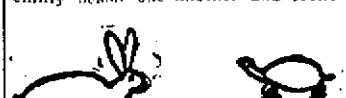

It made great jumps and held its white tail straight in the air.

White House, June 21, 1901.

Dear Quenty-Quee

The other day when out riding what should I see in the road ahead

of me but a real Br'er Terrapin and Br'er Rabbit. They were sitting solemnly beside one another and looked

just as if they had come out of a book; but as my horse walked along Br'er Rabbit went lippity lippity lippity off into the bushes and Br'er Terrapin drew in his head and legs till I passed.

Charm of Valley Forge

White House, June 21, 1901.

Dearest Ethel:

I think you are a little tramp and I love your letter, and the way you take care of the children and keep down the expenses and cook bread, and are just your own blessed busy cunning self. You would have enjoyed being at Valley Forge with us on Sunday. It is a beautiful place, and, of course, full of historic associations. The garden here is lovely. A pair of warbling vireos have built in a Linden and sing all the time. The Lindens, by the way, are in bloom, and Massachusetts avenue is fragrant with them. The magnolias are all in bloom, too, and the jasmynes on the porch.

Washington's Companion at Valley Forge

White House, June 21, 1904.

Dear Ted:

Mother and I had a most lovely ride the other day, way up beyond Sligo Creek to what is called Northwest Branch, at Burnt Mills, where is a beautiful gorge, deep and narrow, with great boulders, and even cliffs. Excepting Great Falls it is the most beautiful place around here. Mother scrambled among the cliffs in her riding habit, very pretty and most interesting. The roads were good and some of the scenery really beautiful. We were gone four hours, half an hour being occupied with the scrambling in the gorge.

Saturday we went to the wedding of Teddy Douglas and Helen. It was a beautiful wedding in every way and I am very fond of both of them. Sunday we spent at Attorney-General Knox's at Valley Forge, and most unexpectedly I had to deliver a little address at the church in the afternoon, as they are trying to build a memorial to Washington. Think of the fact that in Washington's army that winter among the junior officers were Alexander Hamilton, Mon-

ADVENTURES OF THE TWINS

by Olive Roberts Barton

The Lost Toads

The twins had found some sawdust out of Jocko down by the edge of the creek and Nancy's heart was sad. "Maybe he ran away because I didn't sew him up," she said. "Mamma told me to, but I always forget."

Then suddenly a voice near them said, "That's the trouble with all of us. We keep forgetting things and then something happens."

Nancy and Nick looked around curi-

ously, and there sat Mrs. Toad crying. "It's just what I got," said Mrs. Toad. "When I went to do the marketing I left the door unlocked and the children all got out."

"And are they lost now, like our Jocko?" asked Nick.

"No," said the toad, "they're not. That's the trouble. They're over there on the road where Sammy Snake is lying in the sun. They're inside of him!"

"Inside of him?" cried the twins.

"Yes," nodded poor Mrs. Toad. "You

"Now Sam," said the pig, "I've had a mind to make a meal of you for ever so long."

ously, and there sat Mrs. Toad crying.

"It's just what I got," said Mrs. Toad. "When I went to do the marketing I left the door unlocked and the children all got out."

"And are they lost now, like our Jocko?" asked Nick.

"No," said the toad, "they're not. That's the trouble. They're over there on the road where Sammy Snake is lying in the sun. They're inside of him!"

"Inside of him?" cried the twins.

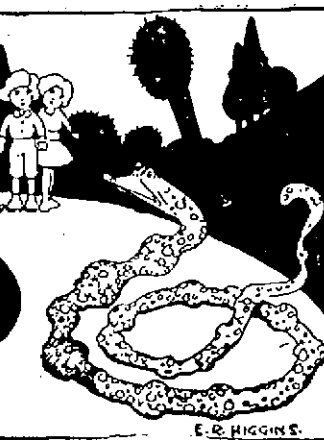

"Yes," nodded poor Mrs. Toad. "You

can see for yourself. He's all full of lumps and the lumps are my children." And she began to cry again.

"Well," said Nick indignantly, "I'll go right home and tell mamma."

"That wouldn't do any good," said Mrs. Toad sadly. "But if you'll just please go and tell Mr. Pig it may help some."

So the twins hunted up the pig and sure enough he knew exactly what to do. He marched right over to where

There was nothing else for Sammy to do. He just had to open his mouth and all the little toads hopped out one at a time and ran across the meadow to their mother.

And the twins were happy because they had helped somebody out of trouble again.

member sales do not include the amount of these securities sold through the federal reserve banks.

Figures show that the new treasury savings certificates of \$100 and \$500 denominations are becoming extremely popular. The postoffice officials report an increased demand for these certificates for use as Christmas gifts. Preparations are now under way to distribute the new 1920 war savings stamps, which will be placed on sale Jan. 1.

(To Be Continued)

(Copyright, 1919, Charles Scribner's Sons.)

SALE OF THRIFT AND WAR SAVINGS STAMPS

Sales for thrift stamps, war savings stamps and treasury savings certificates throughout the country for the month of November total \$5,020,435.67, according to the latest figures received by Mrs. C. R. Burlingame, statistical director savings division, first federal reserve district. The November sales, which were much larger than those of October, were the largest of any month since April. These figures for the No-

HELD OPEN HOUSE

Members of the local council of the Knights of Columbus held open house last night at their rooms in Associate building and a number of the successful candidates at the city election were present and made brief addresses. A program of music was carried out and refreshments were served. There was a large gathering of members and their friends.

The striking uniformity of size among the Japanese is illustrated by the fact that measurements taken of an infantry regiment showed no variations exceeding two inches in height or twenty pounds in weight.

It is believed that pistols were invented in Florence in 1545.

When The Day Is Over

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but

headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening, bearing-down pains, irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.

GIRL SCOUTS HOLD ENJOYABLE BAZAAR

To raise funds for a summer camp, Troop 4, Girl Scouts, staged an enjoyable bazaar at the Centralville M. E. church last evening, which proved most successful. During the evening an entertainment was given by some of the young people which embraced readings by the Misses Mary Caisse and Caroline Schultz, songs by Miss Laura Whitney and piano selections by Miss Alice Kilroy. Those in charge of the various booths were: Mrs. Albert Swapp, food table; Mrs. Dana Colburn, apron table; Miss Elsie McGurney and Miss Marjorie Piffeld, fancy work booth; Miss Marion Hartwell and Helen Hartwell, ice cream table; Miss Emma Chisholm, potato chip table. Supper was served under the direction of Miss Ruth Hartwell. Miss Mary Peters, captain of the troop, had general charge of arrangements.

DUE TO CARELESSNESS

CINCINNATI, O.—Due to carelessness of a motorist, this boy has to remain in this position every minute of the day and night for five weeks. Both legs were broken above the knees when the child was hit. Physicians and nurses in a Cincinnati hospital, where the boy is enduring this torture, say this is the only way for the bones in his little legs to heal properly so that he will not be a cripple for life.

Do your Spark Plugs foul?

The problem of keeping spark plugs free from carbon crust that cuts down the spark gap, short circuits the current and makes your engine "miss," is not hard to solve.

It is largely a matter of uniformity in the vaporizing and in the flame speed of your gasoline, combined with correct adjustment of your carburetor to insure clean, complete combustion.

Standardize on SOCONY Motor Gasoline. It is carefully refined, high quality gasoline that always has uniform vaporizing and ignition qualities. No matter where you buy SOCONY it is uniform, clean-burning, power-full. It will give you big mileage from every gallon and reduce carbon troubles of all sorts. At filling time look for the red, white and blue SOCONY Sign.

MORE CITIES IN "WET" COLUMN

Attleboro For License For First Time in 225 Years—
Newton Also "Wet"

White Elected Mayor in Lawrence—Sullivan Mayor of Worcester

BOSTON, Dec. 10.—With elections in 15 Massachusetts cities yesterday, the remarkable swing from no license to license, which marked city elections held last week, was continued. Attleboro, which boasted that it had never had a saloon in its 225 years, voted "wet" in spite of a vigorous campaign to keep the city's record "spotless."

Newton for the first time in its history as a city or town went for license by 46 votes and Beverly, with a dry record since it became a city also switched.

Malden also voted license for the first time in its history. Melrose held to no license by a slightly reduced majority, being the first city voting this month to report a "dry" victory.

Mayor Peter G. Holmes, republican standing for re-election for a fourth term in Worcester was defeated by State Senator Peter F. Sullivan, democrat, but the rest of the city government is strongly republican.

Mayor Charles H. Adams was re-elected for a sixth term in Melrose getting more votes than all his four opponents combined. Mayor Melvin B. Breath was re-elected in Chelsea.

White Wins in Lawrence
LAWRENCE, Dec. 10.—Ex-Mayor William P. White was elected mayor yesterday, his margin over his opponent, City Treasurer William A.

Mayors Elected and Vote on License

*Re-elected. **Elected in 1918 for two years.

Kelleher, being 2871, Peter Carr, who asked re-election as commissioner of public safety on the ground that he had upheld law and order during the strike here last spring, won easily over ex-Alderman James W. Cadogan, and John F. Finnegan was re-elected

SEC. WILSON'S REPORT

No Permanent Industrial Peace Not Based on Industrial Justice

WASHINGTON, Dec. 10.—There can be no permanent industrial peace that is not based on industrial justice, Secretary Wilson declared today in his annual report. Reviewing the present disturbed industrial situation, the Secretary said the means had been found for regulating all the other relations of mankind and that human intelli-

gence could find the method of adjusting the relationship between employer and employee with justice to both. Declaring that just as international wrongs might reach a point making war a necessity, so industrial wrongs might accumulate until they provoke an industrial conflict, the secretary said the stability of industrial relations rested on mutual counsel.

"Just as the peace of nations is promoted by frank and friendly intercourse," he said, "so may the peace of industry be maintained by the same methods. But this intercourse cannot come about unless there is first recognized the right of collective bargaining. The public interest demands that it be universally recognized, for the

primary interest of the public is in peace. "The denial of organization is a denial of the only means of peaceable settlement that the wage earners have."

Calling attention to the present prominence of labor organizations of a revolutionary or lawless type, the secretary declared that the responsibility for them must fall upon the employer who opposes the organization of lawful trade unions. More and more do industrial disputes menace the public as well as employer and employee, the secretary said, adding that the right to strike should be a means of defense and not a weapon of offense.

"The right of any man to cease working for another for any reason that is sufficient to himself is the basic element of human liberty," he said. "The right of any person to refuse to operate his plant at any time he desires to do so, is the exercise of a property right guaranteed by the constitution. It does not follow that because these rights exist it is necessary to exercise them. They must nevertheless be safeguarded."

Turning to the question of the high cost of living, the secretary said increased wages did not always bring the desired relief. Increased productivity, making more material available for wages and taking the means of increased compensation out of the profits of the employer was the only way in which the standard of living of the wage earner could be improved, he declared.

Reviewing the activities of the various bureaus of the department, the report said 254,273 aliens came to American shores during the fiscal year ending June 30, and that 245,647 of them were admitted and 8,626 excluded. The number admitted the year before was 211,853. Aliens departing during the last fiscal year numbered 216,231 as against 193,265 the year before. During the last 7 years the bureau of immigration estimated that 26 aliens left the country for every 100 admitted.

Aliens admitted during the past year were in possession of sums of money aggregating \$15,831,247, an average of \$112 per person.

Aliens expelled under departmental process during the year numbered 3,063 compared with 1,669 in 1918. The total number of aliens deported, including those refused admission and 24 Chinese deported under the exclusion laws, was 11,728 as against 8,916 in 1918.

"The number of admissions to citizenship during the past year was larger than any preceding year, amounting to 217,358," the report said. "Leaving out of consideration the year 1918 this was a far greater number than was admitted in any two years during federal supervision. Military statistics show 128,335 aliens who acquired citizenship after they assumed the uniform of the United States."

The United States Employment Service at the end of the year had 350 offices with a personnel of 1,200 and an administrative force at Washington of 300. During the eleven war months of 1918 the service placed 2,699,831 persons in employment out of a registration of 3,675,859.

Persons directly affected by labor disputes brought to the attention of the department during the year numbered 1,011,968, while the number indirectly affected was 1,780 cases, including 587 strikes, 1,113 disputes and threatened strikes, 63 lockouts and 17 walkouts. Of these 1,229 were adjusted, exclusive of 219 referred to the National War Labor Board. The commissioners failed to make settlements in 111 cases.

Strong recommendations for the reviving and continuing of the working conditions service, which was instituted during the war to investigate working conditions and to recommend standards for their improvements, were made by the secretary.

He also urged legislation for the con-

INTERNAL PAINS DISAPPEARED

MRS. F. CAMIRE

I owe my good health to RED PILLS for pale and weak women. I was suffering from internal disturbances which were brought on by hard work in factories when I was too young to be working at all, and to the little care I had been able to get. I had become excessively weak. I had been in bed for two months, and was suffering a great deal. People who saw me at that time are now astonished to see me so well, for everyone had considered my case to be hopeless.

MRS. F. CAMIRE,
213, 3rd Avenue,
Woonsocket, R.I.

RED PILLS are for women only. They are always sold in boxes of fifty pills, 50 cents box, 6 boxes for \$2.50. See that the name of the "Franco American Chemical Company Limited" is on every box.

Continuation of the U. S. Training Service. "It is believed," he said, "that increased skill on the part of the workers, and its consequent stimulus towards greater production, is even more important in peace than in war."

PHOTOPLAY AT C.M.A.C. HALL

"The Burning Question," an eight-act photoplay produced by the Catholic Art association, is being shown at the C.M.A.C. hall in Pawtucket street. This wonderful film is being shown under the auspices of the Sacred Heart league of St. Joseph's parish; not in competition to the regular motion picture, but as a medium to instruct the people in the perils of the day through Bolshevism, etc. It is a very pleasing production covering a lot of ground from home interiors to battle-torn fields of France, where the excellent work of the Knights of Columbus and its chaplains is shown to advantage. The picture will be shown twice daily for a week, the afternoon being for the children and the evening for adults.

Bolsheviki in New Offensive Suffer Heavy Losses

REVAL, Esthonia, Dec. 10.—The Bolsheviki have begun a new offensive on the Narva front. After terrific artillery fire, ten assaults were delivered upon the Esthonian positions. All the new attacks were repulsed, the reports state, with heavy losses to the Bolsheviki forces.

Although negotiations between the Estonians and the Russian soviet government looking to the making of peace are now in progress at Dorpat, no armistice between the opposing forces has been arranged. A Dorpat despatch under Monday's date announced that the Bolsheviki delegates, however, had acceded to the demands of the Esthonian for the discussion of an armistice. Consideration of the military terms, it was stated, was to be begun on Tuesday.

DEATHS

BRIGHAM—Albert D. Brigham died Dec. 6 in Monson, Mass., aged 48 years, 11 months and 23 days. He is survived by his mother, Mrs. Annie M. Brigham, and two brothers, Edward M. and Charles R. Brigham.

BARNEY—Fred M. Barney, for years prominently identified with Lowell's retail grocery trade and of late years interested in local real estate holdings of his own, died suddenly at his home, 606 Stevens street, yesterday afternoon, aged 60 years, 10 months and 5 days. Although not too rugged in health during the past few months, he nevertheless was out daily and on Sunday last attended service at the Elliot Union church. The Elliot has been his church for many years and he had faithfully served it in many ways. He was stricken with a shock while working morning from which he did not rally. He leaves his wife, Fannie A.; one daughter, Mrs. Frank B. Hull; a sister, Mrs. Emma B. Cady and two grand-children, Elizabeth Hudson and Robert Barney Hull. He was a member of William North Lodge, A. F. and A. M.

PELLETIER—Wilmer, aged 6 months and 20 days, infant son of Mr. and Mrs. Josephine Pelletier, died this morning at the home of his parents, 187 Cumberland road. The funeral took place this afternoon at 1:30 o'clock, service being held in St. Joseph's church at 3 o'clock. Burial was in St. Joseph's cemetery under the direction of Undertaker Joseph Albert.

TURCOTTE—Henri, aged 2 years, 4 months and 9 days, infant son of Antonio and Exilda Turcotte, died this morning at the home of his parents, 135 Moody street. Burial took place at 4 o'clock this afternoon in St. Joseph's cemetery under the direction of Undertaker Joseph Albert.

FUNERALS

MCKEEN—The funeral services of William H. McKee took place at his home, 738 Stevens st., yesterday afternoon. Rev. Earl T. Favro, pastor of the Paige Street Baptist church, officiating. Mrs. F. L. Roberts and Miss Marion McKnight sang appropriate selections. The bearers were Mr. E. E. Chandler, Willis E. Hatch, Sidney Wiggin and D. P. Knowlton. The flowers were many and beautiful. Burial was in the family lot in Edison cemetery, where the burial service was read by Rev. Mr. Favro. The funeral was under the direction of Undertaker W. Herbert Blake.

FOSS—Roland Arthur Foss, infant son of George and Elva (Lane) Foss, died at the home of his parents, 3 Sanborn street, Dec. 6, at the age of 4 days. Burial took place in Westlawn cemetery. Undertaker William H. Saunders was in charge.

GUTHARD—The funeral of Albert

CATARH DOES HARM

Whether it is of the Nose, Throat, or Other Organs, Get Rid of It.

Catarh of the nose or throat when it becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Sarsaparilla, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

If there is biliousness or constipation, take Hood's Pills—they are a thorough cathartic, a gentle laxative.

cemetery in charge of Undertakers J. P. O'Donnell & Sons.

MOVING—Died in this city, Dec. 10th, Mrs. Ellen (Carney) Moynihan. The funeral will take place Thursday morning at 9 o'clock from her home, 402 Concord street. A solemn high funeral mass will be celebrated at 10 o'clock at the Immaculate Conception church. Burial will be in the family lot in St. Patrick's cemetery in charge of Undertakers J. P. O'Donnell & Sons. Motor cortege.

FUNERAL NOTICES

BRIGHAM—Died in Monson, Mass., Dec. 6th, Albert D. Brigham. Private funeral services will be held at the home of his mother, Mrs. Annie M. Brigham, 70 Queen street, Thursday afternoon at 2 o'clock. Automobile cortege. The funeral arrangements are in charge of Undertaker George W. Healey.

HANNY—Died in this city, Dec. 9th, very suddenly, Fred M. Barney, 606 Stevens street. Funeral services will be held at 606 Stevens street Friday afternoon at 2 o'clock. Friends are invited without further notice, burial private. Autocortege. The funeral arrangements are in charge of Undertaker George W. Healey.

MCCABE—The funeral of Daniel J. McCabe took place this morning at 9:15 from the funeral parlors of Undertakers Charles H. Molloy's Sons, Market st. At 9:45 at St. Patrick's church a requiem mass was celebrated by Rev. Francis L. Keenan. Seated in the sanctuary was Rev. Wm. Dacey of the Cathedral, Boston. The Gregorian mass was sung by the choir, under the direction of Daniel S. O'Brien, the solo being sustained by Miss Alice Murphy and Daniel S. O'Brien. Michael J. Johnson was organist. There was a large number of floral pieces and spiritual bouquets. The bearers were James Le Clair, Dennis Whaley, Daniel J. Murphy, James Dacey. Burial was in the family lot in St. Patrick's cemetery, where the final prayers were read by Rev. Fr. Keenan. The funeral was under the direction of Chas. H. Molloy's Sons.

MORAN—The funeral of Mrs. Mary Moran took place this morning at 8 o'clock from the chapel of Undertakers J. P. O'Donnell & Sons, and was largely attended by sorrowing relatives and friends. The cortege proceeded to St. Patrick's church, where at 9 o'clock a high funeral mass was celebrated by Rev. Joseph Curtin. The choir, under the direction of Mr. Michael J. Johnson sang the Gregorian mass, the solos being sustained by Miss Alice E. Murphy and Mr. Daniel S. O'Brien. Mr. Johnson presiding at the organ. There was a profusion of floral offerings and spiritual bouquets. The bearers were Messrs. John Harrigan, Daniel Redding, Cornelius Sexton and Frank McCabe. At the grave Rev. Fr. Curtin read the committal prayers. The burial took place in the family lot in St. Patrick's

REQUIEM MASSES

RELI—An anniversary high mass will be celebrated at St. Michael's church Friday morning at 8 o'clock for the repose of the soul of Mrs. Bridget Bell.

SUN BREVITIES

Best printing, Tobin's Associate bldg. Fire and liability insurance, Daniel J. O'Brien, Wyman's Exchange.

Cider of all kinds, guaranteed pure and unwatered. Big stock, made from our own apples. Tel. 2263-J.

An attachment of \$1000 was filed at the registry of deeds office this morning in an action of contract brought by Fred M. Smith of Cambridge against Herpule A. and Estelle Toupin, both of this city.

A short circuit in the electric lighting system at Fairburn's lunch room in Bridge street caused a slight blaze in the floor of the store shortly before 6 o'clock this morning. A telephone alarm was sent and the fire was put out before any damage was caused.

The Lowell people interested in ox farms and the fox business in general will undoubtedly attend the exhibition of black-silver foxes and fox fur being held in Horticultural hall, Boston. The exhibition opened today and will continue all day tomorrow.

The Y.M.C.A. Camera club will meet at the association tomorrow night. Collins Vanden Berg, an expert photographer, will speak and Frank Hale, a club member recently returned from overseas, will show his collection of signal corps pictures. Refreshments will be served and all members are cordially invited to attend.

Mrs. William I. Wiggin, who with her husband, Dr. Wiggin, was active in Red Cross work in France, spoke before the Lowell General Hospital Aid association at its meeting yesterday afternoon. She told an interesting story of work among refugees and in hospitals for children and at military bases. Mrs. Wiggin had many photographs to show and these also were greatly enjoyed.

The regular meeting of the members of the British-Canadian War Veterans' association was held last evening at the Community Service club in Dutton street with President Jack Waterhouse in the chair. The recent reunion and dance committee reported that about \$300 had been realized by the undertaking and routine business was transacted. The organization voted to affiliate with the Canadian Great War Veterans' association and they applied for a charter.

A large variety of cotton bed puffs, full size, made of soft sanitary cotton and good wearing sateen. Pretty light or dark shades, handsomely designed. Some with reversible sides of contrasting plain colors.

Wool Puffs—\$7 to \$22.50

Wool puffs, size 72x78, made of nice soft lambs' wool, covered with silk or silkoline, in all the newest light and dark colors and fascinating patterns. With or without borders to match. Worth more.

Down Puffs—\$10 to \$29.50

Handsome down puffs, made of all pure down—warranted. Size 72x72, light as cream, and an ornament to any bed. The coverings are silk or satin, in soft enchanting shades and lovely designs. Each puff is lined with firm sateen and bound with fine silk cord. Real values at these prices.

INDIGESTION

"Pape's Diapiesin" relieves Sour, Gassy, Acid Stomachs at once—no waiting! Read.

Stomach acidity causes indigestion! Food souring, gas, distress! Wonder what upset your stomach? Well, don't bother! The moment you eat a tablet or two of Pape's Diapiesin all the lumps of indigestion pain, the sourness, heartburn and belching of gases, due to acidity, vanish—truly wonderful! Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapiesin neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diapiesin now! Don't stay miserable! Try to regulate your stomach so you can eat favorite foods without causing distress. The cost is so little. The benefits so great. You, too, will be a Diapiesin enthusiast afterwards.—Adv.

supervision of the school department with the co-operation of the board of trade will soon be posted in the various mills of the city. These posters will be printed in two colors and will be written in English, French, Polish, Greek, Syrian, Armenian, Lithuanian and Portuguese.

The call has gone out for a meeting of all rotating committees at the Lowell Community club in Dutton street Thursday night at 7:45 o'clock. It is very important that a full representation of each committee attend as the work is still in its infancy and a good start is necessary. The preliminary plans of club activities will be discussed and the initial policy outlined. Otto Hockmeyer and H. S. Pouzner will be two of the speakers.

A neighborhood gathering in honor of Mrs. Nellie Kyle and Miss Bertha G. Kyle, formerly in charge of the children's room at the public library, was held last evening at the home of Mr. and Mrs. Lorenzo Ayer, 337 Varum avenue. A number of intimate friends were present to wish them happiness in their new home in Baltimore and to express regret at their departure. Thomas Varum presented gold and flowers to Mrs. and Miss Kyle and an informal

Drastic Rules Continued

Lighting and heating regulations ordered by the fuel administration became effective also throughout New England, but District Fuel Administrator James J. Storow said he would not act against violators of the regulations until after the meeting of New England governors here this afternoon to consider the emergency. Restrictions put into effect were similar to war-time conservation regulations. Office lighting was curtailed after 4 p. m., elevator service was cut and places of amusement and recreation were ordered to burn lights only between 7 and 11 p. m. Retail stores in Boston will be operated after today on a six hour basis, with the understanding that they will be permitted to resume normal hours immediately in the event of a settlement of the coal strike, but Administrator Storow declared that the railroads and others affected by the shortage would be obliged to continue indefinitely under regulation because the normal flow of bituminous coal in New England could not be restored for several months after the settlement.

Manslaughter Charge Continued

Mrs. Lyon was not seriously injured but her daughter died a few hours afterward at St. John's hospital. Smith's car crashed into the side of the market after the accident. The inquest report on the death of the girl finds that her death was not caused or contributed to by the crim-

inal negligence of Smith in the operation of his machine, or by any other persons. The report was made public today by Judge Pickman.

Held on Serious Charge

Charged with felonious assault on 15-year-old Mary A. Pissetto of Chelmsford, Daniel H. Light of that town was held in \$1000 for the grand jury, the court finding probable cause to believe him guilty. The alleged assault occurred last June.

Too Much "Jakey"

Mrs. Ellen Hennessey and her son, Morris Hennessey, were both convicted of drunkenness. The woman was sentenced to the state farm and the man drew down a sentence of two months in the house of correction. Over-indulgence in "jakey" was given as the reason for their appearance in court.

Long Way From Home

"Certainly Ah've got a home," declared William Gason, present on a vagrancy charge, when asked by the clerk if he were the possessor of a permanent residence. "Down in South Carolina, that's mah home," continued William, "and

Ah wish Ah was back there now," he added pensively.

Police reported William had been hanging around Tyngsboro last evening, whether in search of unguarded chicken coops or not they didn't know, so they decided to "send him in."

Court allowed that William might be worth investigation and held him in \$200 for further consideration later.

12,000 GREEKS LEFT U.S. IN FOUR MONTHS

WASHINGTON, Dec. 10.—Nearly 12,000 Greeks returned home from the United States during the four months, June-September, in spite of excessive steamship fares and difficulties experienced in obtaining passports, according to a report from Consul General Weddell at Athens.

The returning Greeks took with them a large amount of money in the form of drafts and banknotes. Since Jan. 1, postal money orders amounting to \$25,000,000 at normal exchange rates have been remitted to Greece from the United States.

Give Your Hair Daily Care by Using Famo Regularly

To keep your teeth clean and healthy—to avoid pyorrhea—you brush your teeth, not once a week, but every day.

To keep your hair clean and healthy—to avoid seborrhea—you should use Famo, not once a week, but every day.

Note the difference in your hair, when you use FAMO every day. FAMO is sold at all toilet goods counters, in two sizes—\$1 and \$6 cents.

Your money will be refunded, if FAMO doesn't give complete satisfaction.

Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhean eruption forms in scales and flakes and is commonly known as dandruff.

THREE PERISH IN BIG FLOODS

Torrential Rains in South
Cause Enormous Prop-
erty Damage

Ten Inches or More of
Rain Fell in Alabama
and Georgia

ATLANTA, Ga., Dec. 10.—Torrential rains over the greater part of the south that first had proved a blessing by enabling large hydro-electric plants to operate without consumption of coal, today had continued in such force as to flood rivers in Alabama, Georgia and Mississippi, causing thousands of dollars' damage and at least three deaths. Ten inches or more of rain fell at various points in Alabama and Georgia. Fair weather and a cold wave were predicted for Alabama and Mississippi, and it was believed the rains would end in Georgia during the day.

The drop in temperature was expected to cause severe suffering around Meridian, Miss., where floods had left a thousand persons homeless after a rainfall of 10.10 inches. Similar conditions, although not to such a great extent, prevailed along the Chattahoochee river below Atlanta, and West Point, Ga., was reported partly under water with outside communication cut off.

Railroad traffic in Georgia was badly hampered and in lower Alabama and Mississippi, it was in many cases paralyzed. Several cities reported street car service interrupted.

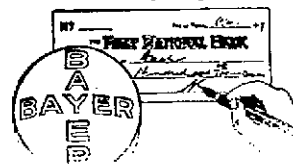

Utoy creek flowed over its banks on the Cascade road, six miles from Atlanta, and undermined the foundations of a bridge. An automobile containing five persons went through the weakened structure last night, and county police reported that three of them had lost their lives. The Chattahoochee river overflowed bottom lands near Atlanta and reached a stage of 23 feet at the city water works. A 200-foot section of the dam of the Montgomery Light & Power Co., at Tallapoosa, Ala., was washed out with a loss estimated at \$250,000.

LOWELL'S ARMY STORE

The army store in Market street will close tomorrow noon according to announcement made by Manager Herbert D. Broad. Failure to secure various lines of goods which have been popular with local housewives is given as the reason for the closing edict. The store has been in operation here for several weeks and hundreds of families have taken advantage of the bargains in food and clothing on sale.

WAME "BAYER" ON GENUINE ASPIRIN

Get relief without fear
told in "Bayer package"

The "Bayer Cross" is the signature of the true "Bayer Tablets of Aspirin." The name "Bayer" is only on genuine Aspirin prescribed by physicians for over eighteen years.

In every handy "Bayer" package are proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally.

Tin boxes of 12 tablets, cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic Acid.—Adv.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 25c a box.

VERDICT FOR PLAINTIFF

Jury Allows \$30,385 For
Property Taken For Audi-
torium Site

In the case of Harriet E. Dana vs. the city of Lowell, a petition for assessment of damages, the jury this morning returns a sealed verdict in the sum of \$30,385 for the petitioner. This petition was brought by Mrs. Dana in an endeavor to recover more for her property than was allowed her by the city when it seized by right of eminent domain her garage and land in East Merrimack street for an auditorium site, the amount awarded by the city being \$15,350. The case was tried before Justice Raymond, at the civil session of the superior court.

The next case to go to trial was an action of contract in the sum of \$2000 brought by Katie Dinan against Edmund B. Conant. The plaintiff in her declaration alleges that she was employed by the defendant to do housework in 1902 and remained in his employ until Sept. 27, 1917. She claims that when she was first employed Mr. Conant agreed to pay her \$4 a week and in 1910 he advanced her wages \$2 a week, agreeing to save the extra \$2 for her and put it to her account in a local bank. Later, so she claims, her wages were advanced to \$10 a week, \$4 of which was to be placed in the bank in her name. On Sept. 27, 1917 when she left her position she demanded her money, but her request was not granted. She also claims that the last time she saw the bank book containing the amount of deposits in her name, the savings had accumulated to \$375. The defendant denies each and every allegation contained in the plaintiff's declaration.

In the course of the trial this forenoon the treasurer of the Lowell Institution for Savings testified that in August, 1910, Mr. Conant opened an account at the bank in trust for the plaintiff and in Sept. 1917, the account had accumulated to the amount of \$552.24, including interest. He also stated that on Oct. 13, 1917, the account was changed and assigned to Edmund B. Conant.

STREET RAILWAY HAS COAL ON HAND

That the present coal shortage, caused by the strike of the coal miners, will not seriously affect the local street railway, is the belief of Thomas Lees, manager of the Lowell division of the Eastern Massachusetts Street Railway Co. The local company has a month's supply of black diamonds on hand, he said, and he hopes to secure more in the next few weeks.

In an attempt to conserve the present supply, all heat on cars during the "rush hours" in the morning and late afternoon has been discontinued, Manager Lees said. Should the local manufacturing plants curtail their operating forces, there will be a slight curtailment in the car service. Normal service will be maintained for the present, at least, he said.

The husband of Ethel Barrymore, the famous actress, is Russell G. Colt, the manufacturer of revolvers and other firearms.

A Child's Soft Teeth Are Easily Injured

The teeth of young children are not yet thoroughly calcified; many have naturally soft, chalky teeth. Many loath pastes contain pumice, powdered oyster-shell, acid-calcium-phosphate. Prof. Giles of Columbia College found one of these which was gritty enough to scratch glass! It is well for mothers to be careful.

A great many professional men allow only Albon Dental Cream to be used in their homes. Dr. Henry R. Kreider, professor of chemistry at Toledo University, considers it a superior preparation, and the children of the Rochester Orphan Asylum have their "tooth drills" with it.

Albon is calcium carbonate, saponified and mixed with the well-known antiseptic oils of cloves, cinnamon and eucalyptus. It is peculiarly effective and safe for women and children. A tube lasting five weeks can be bought, guaranteed, at any drug store.—Adv.

The price is so very low we are unable to make free alterations.

SAYS JENKINS DESIRED TO BE KIDNAPPED

SAN ANTONIO, Tex., Dec. 10.—El Democrita, a newspaper of Mexico City, a copy of which was received here today, prints what purports to be a letter signed by Rebelde Coello, the man who captured W. O. Jenkins, American consular agent at Puebla, in which it is asserted that Jenkins wanted to be kidnapped for the purpose of proving that President Carranza was unable to afford personal protection to foreigners.

The letter, which is displayed on the front page of El Democrita, in part says:

"There was no kidnapping in the case of Consul Jenkins, because it was his own desire and he volunteered to come with me. We would not accept the money which someone sent to us. This will prove that it was not a case of kidnapping and holding for reward on my part."

"I protested all that the consul said to me because it was not legal. I believe that it was my duty to make this act clear and I want it understood that I don't want to surrender to Carranza because I am a revolutionist by conviction."

GERMANS TO TURN OVER CATTLE TO ENTENTE

BERLIN, Tuesday, Dec. 9.—Agents have been sent throughout Germany by the national economic ministry to make arrangements for the delivery of cows, sheep and goats to the entente under the provisions of the peace treaty. The plan of operation which has been agreed to by the state council, required that individual states shall deliver a given ratio of their herds to the national agricultural authorities.

Owners of cattle may submit protests and may deliver sheep or goats in place of cows, if they prove that cows are necessary for their nourishment. Farmers are required to give up the animals without compensation, and can be punished with a fine up to 5000 marks in each case for refusal to turn over the required stock.

OFFICERS NOMINATED BY STREET CAR MEN

The local street railwaymen's union yesterday and last night nominated officers for 1920 at a ballot election between 10 a. m. and 7 p. m. Final selection will be made two weeks from yesterday.

Men nominated yesterday follow:

President—Thomas J. Powers 159
Thomas Boyle 65
Ed. Donnelly 62
Patrick Fells 14

Vice President—William Mahoney 125
D. Sullivan 94
John Craig 49
Charles A. Flannery 33

Recording Secretary—Norman Messer 217
Joseph Shott 61
Oliver Marion 21

Financial Secretary—William Johnston, unopposed.

Delegate Joint Conference Board—Ed. J. Powers 142
Ed. Donnelly 75
Thomas Boyle 65
Patrick Fells 14

Executive Board—5 to be Chosen—William Mahoney 137
D. Sullivan 127
John O'Brien 115
Charles Miller 115
Thos. McAndrews 104
Fred Baxter 91
W. Brown 82
Chris. Mooney 71
J. Reardon 70
J. Carville 61
W. Shanley 50

Trustees—2 to be Chosen—Pat. Klerman 109
J. Barrett 145
J. Maguire 117
Jas. Sheerin 50

Correspondent—John Graham, unopposed.

Janitor—Michael Connerton, unopposed.

Night warden—George Boyle, unopposed.

Day warden—M. Hamer, unopposed.

DISSOLVE MONOPOLIES

Only Solution of Present
Problems Facing Nation,
Says Report of Liberals

ST. LOUIS, Dec. 10.—Dissolution of monopolies is the only solution of the economic and industrial problems facing the nation, according to the report of the program committee, submitted today to the national conference of liberals in session here.

The committee said its report was designed to eradicate "poverty and squallidness."

The two principal political parties are arraigned and while it was said the conference was not called to form a new political party, the report declares that the "growing control of basic resources and industries by the trusts has created the conviction that no relief can be secured except by the formation of a new party."

"There is a widespread feeling," the report continues, "that there is no

TRACK SPORTS NOW IN THE LIMELIGHT

With football out of the way at the local high school for another year, athletic minds now turn toward track, the sport which has progressed so rapidly in Lowell within the last 10 years. The first call for practice will be issued for Monday, Dec. 29, and will continue three days a week for three weeks thereafter before the first meet is scheduled. Captain Saunders hopes to have a big squad working out on the annex track and prospects for a strong team are exceedingly bright. Donald McIntire, instructor in calisthenics for freshmen, will coach the team, assisted by Mr. Boland, assistant instructor of chemistry. James Conway, faculty head of athletics, will be in general charge.

More and more, however, are high schools coming toward an inter-class program of sports instead of concentration upon a "varsity team." To this end, Lowell high pupils this winter will be given the opportunity to compete on class hockey teams and indoor baseball teams. The hockey men will practice at Shedd park and play class games there, while the baseball players will use the annex as a diamond.

Although the track team schedule is only tentative at present, meets with Lowell Vocational school, Boston college high, Wakefield and Medford secure and efforts are being made to bring the Tech Freshmen to the annex, and possibly one or two other strong combinations.

With Captain Saunders as veterans will be Darling, O'Hare, Ryan and Mullane and one or two others. Mullane will not be allowed to compete against high schools, but will be available for Tech freshmen, Boston college high and other schools of similar standing.

ELECTION RESULTS

The result of the municipal election, with its surprises and disappointments, reflects the will of the majority and displays more intelligent judgment on the part of the electorate than has been shown in some recent municipal elections. True, there were some good candidates defeated, but on the other hand, the results indicate a determination to reward faithful service, to rebuke mud-slinging and to give the younger men a chance to show what they can do.

Mayor Thompson's majority, which is much greater than any of his friends had predicted, came as a recognition of his faithful service during the war and his generally recognized honesty of purpose and devotion to the best interests of the city. It is also in accordance with the custom of giving a faithful executive a second term.

The sweeping majority by which John P. Salmon was elected is the high light of the fight for commissioner. Nobody can explain how a young man, comparatively unknown to the voters generally, could poll such a phenomenal vote. It must have been his pleasing personality, his service overseas and his decent, manly campaign, wholly free from personalities that appealed so strongly to the voters. As for Commissioner Donnelly, his well known honesty and his popularity throughout the city enabled him to ride safely into office in face of the tide that threatened to sweep aside all the candidates who are or have been members of the municipal council.

In the school contest, two clean and intelligent young men have been elected; and although they have had no experience in school affairs, it is expected they will show good judgment in the work of directing this department. There is need of progressive steps with "due conservatism" and we feel that the two young men who have been elected to the board will exert their influence along these lines.

MARINE CORPS AVIATORS

Three marine flying fields in this country and flying detachments for the marine forces in Haiti and Santo Domingo are the active aviation program of the marine corps, according to the annual report of the corps' commandant just made to secretary of the navy. The detachments with our island forces have been in operation during the past year, while construction and improvements in the three flying fields are nearly completed. The fields, from which marine aviation operations will be conducted are the Dutch Flats barracks, at San Diego, California, Paris Island barracks, South Carolina, and Quantico, Virginia.

The aviation section of the corps got well under way during the war and performed valuable anti-submarine observation work. One of the marine aviation detachments was on duty at Naval Base No. 13, in the Azores, while another at the Miami Naval Air station performed valuable patrol duty for that section of the coast. Nearly all the war time enlisted personnel of the flying section of the corps has now been demobilized.

In Haiti and Santo Domingo, the flying squadrons are making a reputation for themselves in co-operating with the United States forces on duty there. One squadron, consisting of seven water planes and six land planes, is operating with the expeditionary brigade in Haiti, and one flight of six land planes is with the expeditionary brigade in Santo Domingo. These two organizations have proved of great help in breaking up the guerrilla warfare being conducted by natives in both these islands, and the commanding officers in charge of the marine brigades at both stations are enthusiastic over the work performed, which includes practically all of the operations of actual war.

In addition to their military operations, the flying units are conducting contour and coast line photographic operations at the request of and in co-operation with the interior department. In this manner, they are affording the government here information that would take several years of surveying to secure by ordinary land methods.

The authorized strength of the marine corps aviation section is

100 officers and 1020 enlisted men. The pilots are selected from eligible officers of the corps and the mechanics are especially trained in the Navy Mechanics school, at Great Lakes, Illinois. The marine corps also has a small lighter than air dirigible like the British blimps under construction.

It is plain from the report just submitted, that the flying units of the marine corps would be prepared in case of emergency to do extensive scouting work along our coasts or even to a considerable distance inland. Should any trouble arise between this country and Mexico, the aviators would play an important part in the operations.

LESSON OF TOLEDO

Toledo, O., has given the other cities of the country a valuable lesson in the matter of car service. It demonstrates the fact that not even politicians or labor unions can over-rule the effect of economic laws.

Several years ago, the franchise of the Toledo Car company expired and with the question of renewal hanging fire, the cars continued to run on a five cent fare. The company had no legal right to increase the fare. But the carmen demanded an increase in wages which the company averred it could not pay without an increase in fares. But the war labor board awarded a substantial increase without regard to whether the revenues could stand it or not. The company insisted that there should be an increase of fare to meet the higher rate of wages authorized, but to this the politicians and the newspapers objected strenuously and when the higher rate was put in force, the city council passed an ordinance ousting the company from the city streets. This ordinance was submitted to the people and adopted with the result that next morning the company was regarded as a trespass in the city streets.

It moved its cars across the line into Michigan.

But a carless city is far behind the times. Toledo struggled along for a few weeks with everybody late, everybody dissatisfied and things going in a more unprogressive manner than in the days of the old horse cars. jitneys were tried of course, and they were shooting to and fro in all directions, but still the bulk of the people had to walk. At last the people got tired of the situation, business fell off in the stores and things were generally out of joint. Finally, the stern, stubborn opposition that believed that it is possible to take blood out of a stone surrendered, the fares were increased and the car service resumed—all of which proves that the mandate of a few politicians, even though backed up and endorsed by the people, is not always in accord with common sense or sound business principles.

WORLD'S WISDOM INCREASES

Sir Isaac Newton saw an apple fall, and pondered the fact that it went down instead of up or sideways. His "law of gravity" became a fundamental of science.

Dr. Albert Einstein of Berlin, saw a workman fall from a roof and alight, unhurt, in a pile of soft rubbish. He talked with the man, who evidently had a remarkable mind, for he observed that in falling he did not feel the pull of gravity as it is commonly supposed to operate.

Now Dr. Einstein's new "theory of relativity" has been accepted by the Royal Society of London as a demonstrated truth.

What is the theory? It is said that there are not more than 12 men in the world capable of comprehending all of its phases. It is really a modification of the rules worked out by Newton.

One of its concepts is the rejection of the ideas of absolute time and space. Beyond the farthermost star is—nothingness!

Dr. Einstein and his fellow scientists do not suggest that the new hypothesis will affect human life in the slightest particular. The hungry mind of man has simply reached out a little into the dense vast of the unknowable. Again, the finite and fallible intellect of earth's wisest animal has added a bit to its meagre stock of lore.

A million years hence that stock will be somewhat increased, but in relation to what will remain un-

known, the total of all wisdom finally will remain as a tiny flicker in a universe of darkness.—N.E.A.

AMERICAN WOOLEN CO. STORE

The American Woolen company, through President William M. Wood, is certainly doing some great things for its employees. It has already furnished fire life insurance policies for employees who have been in the service over six months, and has also adopted a plan of sick benefits which will offer great protection in case of prolonged illness. Now the company comes out with a challenge to the provision dealers of Lawrence to lower the prices of the necessities of life within a reasonable time, or otherwise the American Woolen company will open a store in which to sell groceries and provisions, wood and coal, clothing, boots and shoes, hardware and other articles at cost, to its employees.

The inauguration of such a retail store would be of very great interest to the working people throughout the country as it would indicate just how far present prices can be reduced if the dealers would be satisfied with a reasonable profit.

COAL STRIKE SETTLED

It is refreshing to find that the coal strike has been settled through the efforts of President Wilson and that thus the loss and hardship to the country will be terminated. Already many industries have been shut down and thousands of people thrown out of work while other thousands have been working on shorter hours in hopes to husband the supply of fuel until the effects of the coal strike should be overcome.

Here in Lowell our factories were fortunate in having sufficient coal on hand to tide them over this time of scarcity. There will, therefore, be no curtailment of any kind and no interference with our wherewithal system which many of our people felt might have to shut down. The country has had a valuable lesson on strikes affecting the necessities of life.

LEGION TO GET THE REDS

It is gladly read that Massachusetts posts of the American Legion, through the executive committee of the state branch, will set in motion the machinery calculated to stamp out Red propaganda for all time within the borders of the commonwealth. Massachusetts has enrolled 71,000 of her sons and daughters in Legion posts and these will unite in one well organized camp to crush out all anti-American and Bolshevik activities. It is understood that a committee will be organized to draw up a plan which will be submitted to the 234 local posts in the state and each post will check up on all Red activity in the section where it is located and will furnish the government with complete data on the radical movements. We know of no more effective means and it should receive the backing of the entire American populace.

The coal strike is ended, the mills will not be forced to close, the railroads will not curtail service, many terrible things have been averted—yes, and the football huskies of Harvard will probably now get their promised trip to Pasadena at New Year's time, which recently was cancelled because of the fuel situation. Truly, the benefits will be many and varied.

Now let's have an edict saying the sugar shortage is no more and great contentment will mark the coming Christmas season. Putting a stop to excessive exportation seems to be the only real remedy, although, we still incline to the belief that there is plenty of sugar, yes, enough to go around comfortably, if it can be sought out and forced into the retail market by federal agents. The poor people who need sugar most are those who are not getting it.

Unique indeed in the history of banking is the campaign instituted by the Guaranty Trust company of New York, in instructing its employees in the expert use of fire-arms. Regular pistol practice now is going on in a New York armory and it is said that the target work of the bankers has improved in quickness and accuracy to a point which is characterized as "excellent." It has all come about because of the repeated holdups of messengers and frequent bank robberies. It sounds like the old stage coach days, when a guard sat with the driver, carbine across his knees.

SEEN AND HEARD

Great flocks of Hottelousoe birds were seen and heard in Lowell today.

You are very right Marie. It was not good election weather, and no one

Sickness Prevention

90% of human disease has its origin in the intestinal canal—in constipation.

Nujol relieves constipation and is therefore most effective in Sickness Prevention.

Send for free booklet "Thirty Feet of Danger" to Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York.

Nujol

For Constipation

will blame you for remaining away from the polls.

For the first time in history this year a "yes" vote meant only an expression of sentiment—and the swinging doors remain still.

"It's in the bag" and other similar expressions of confidence, marked the pre-election dope as given out from rival headquarters. That's modern enough for you.

Why is it that girls can trip gaily about in all kinds of disagreeable weather wearing low shoes and similar necks and men bundle themselves up from top to toe?

If there is one place in this city where motorists seem to take great delight in speeding it is that stretch of good paving in Dutton street extending from Merrimack street to that unspeakable mess of mud at the junction of Dutton and Fletcher streets.

Census Bureau Counters

The ingenious machines used by the census bureau to count, sort and tabulate the information gathered by the census enumerators are the product of the bureau's own laboratory. The sorting machines will take care of 300 cards a minute, the counting machine can do 500 cards a minute and the tabulating machine is capable of handling 400 cards a minute.

Envy of Farmers

Three business men were sitting on a bench in front of a store. They were talking about "all this blamed trouble" caused by the strikes and profiteers and things.

"I tell you it's a fright," said the man who sells shoes, "how much it costs us to keep the table this year."

"Yes, it's a fright," agreed the man who sells dry goods. "I envy the farmer, who can raise everything he eats."

"Say, the farmer's the only independent man there is," chimed in the grocery man heartily.

And old Uncle Johnnie Wiseman, who happened to be passing that way, looked at the trio and smiled.

For all three of them had been raised on the farm, two of them own farms now—and they could go back to the land and "be independent" if they wanted it. But they stick to their stores.—Farm life.

Another Goose Rhymes

"Show him in," said the editor to the office boy as he looked at the card in his hand: "Doughton Fillets-Ping-istie, M. Goose H. C. L." "I'm merely curious to know what this means."

"Are you the editor of the Morning Glory?" No? he asked as soon as he stepped into the office.

"Yes," contradicted the editor. "I am—I mean I am. Excuse me, but last night I attended a banquet and didn't quit soon enough. What's all these degrees mean?" And the editor handed the man his own card.

"O, that's what I came to see you about. I'm a poet—"

"O, gawd," groaned the editor, and covered his face with his hands.

"And I have a wonderful idea—one that will raise the circulation of your paper from 50 to —"

"Fifty thousand," coldly informed the editor.

"From 50,000 to 50,000,000. You know the high cost of living is high and getting higher. Well I made a—er—a joke out of it. I—"

"It is no joke," growled the editor, carefully fingering his pocket where a 50-cent cigar stood up, which in the good old days was a five-center and mighty good at that.

"I made a Mother Goose jingle with an H. C. L. twist—like this: 'An H. C. L. can eat no fat because it is too high. Its wife that always ate the lean is starving and will die.'"

"Isn't it touching, sir?" and the man mopped up three tears off his shirt front. "This poem will strike a responsive chord in the breast of every man and wife."

The editor had wilted into his chair, but the man went on: "Now here's another touching one: 'A dollar a dollar. A ten dollar scholar. What makes you come so soon? Our cook she cooks. We've had hard luck. I had to cook till noon.'"

"Won't that one appeal to the poor starving families who have lost their cooks, eh?" The editor was just about to dash a bottle of red ink down his throat, he was so distracted, when a loud voice was heard in the anteroom: "Gotta feller here spilling Mother Goose stuff!"

Oxidaze for Coughs

Colds, Br. Asthma

Years of study and observation convinced him it would safely, quickly and surely stop a bad cough and give instant relief in Bronchial Asthma. Money back if it fails. Guaranteed harmless. At all druggists. Lowell Pharmacy can supply you.

Hand him out—he's a bloomin' poet gone nutty. Come on out, Number 10? While he was being led away, the poet cried: "Don't worry about me, I'll be back some more some day."—Detroit Free Press.

Boyhood's Years—Ah! why should I recall them—the gay, the joyous years, Ere hope was crossed or pleasure dimmed by sorrow and by tears? Or why should memory love to trace youth's glad and sunlit way When those who made its charms so sweet are gathered to decay?

The summer's sun shall come again to brighten hill and dower—The toiling earth its fragrance bring beneath the balmy shower; But all in vain will memory strive, In vain we shed our tears—They're gone away and can't return—the friends of boyhood's years.

Ah! why then wake my sorrow, and bid me now count o'er The vanished friends so dearly prized—the days to come no more—The happy days of childhood, when no guile our bosoms knew, Nor recall we of the pleasures that with each moment flow? 'Tis all in vain to weep for them—the past a dream appears, And where are they, my boyhood's years, the young, the friends of boyhood's years?

Go seek them in the cold churchyard—they long have stoyn to rest, But do not weep, for their young cheeks by we were never pressed; Life's sun for them in splendour set—no cloud came o'er who ray That lit them from this gloomy world upon their joyous way. No tears about their graves be shed—but sweetest flowers be dug—To bear this world has never torn with racking hopes and fears: For blessed are they who pass away in the young, the friends of boyhood's years.

—By Rev. C. P. Meehan of Ireland.

MAN ABOUT TOWN

To those among us who simply will not read the newspapers and keep reasonably well informed as to what is going on within the city limits at least, this brief paragraph is dedicated. Every year, just as sure as preaching, from one to two hours before the election polls close, just about so many call the newspapers by telephone and ask how this and that candidate is running. It is only with a great deal of forced patience, that the reporter or editor on the other end of the wire explains that inasmuch as the polls have not yet closed, it is quite impossible to give out the desired information. Yes, and sometimes we venture to say that the reply is cloaked in subtle sarcasm. But, honestly, now do you blame us? For years and years primary elections have been held between the hours of 12 and 2 p. m., and final elections between 6 a. m. and 4 p. m., yet long before closing time the calls invariably drift in. There are many things we of the newspaper calling are able to do ahead of time and there are still other things which we know as facts long before you, gentle reader, but there is no way under heaven to find out the election vote until the ballots have been counted and reports subsequently made.

DEER KILLED DURING THE OPEN SEASON

(Special to The Sun) STATE HOUSE, Boston, Dec. 10.—Official figures received by the department of conservation from various counties in the state show that during the six days ending Saturday last, the open season for deer, 735 of the animals were killed.

This figure is one of the lowest in many years, it being 74 below that for 1918 and 259 less than the number the year previous, while it represents less than one-half of the number recorded in 1914, when 1536 of the animals were brought down.

Figures for the principal counties for this year and last follow:

	1919	1918
Franklin	152	153
Berkshire	141	163
Worcester	137	99
Hampden	92	116
Bristol	31	26
Middlesex	10	26
Plymouth	32	49
Essex	17	7

The largest deer brought down, that is, on the say so of the hunter, weighed 355 pounds, it falling from the ribs of David Boardman of Sheffield. This size is far above the average, officials in the department of conservation said, the average for a deer being about 200 pounds, while the unusual being in the neighborhood of 250.

The record for bringing down a many-horned animal, as far as a personal report goes, was made by A. F. Maillott of Pittsfield, who winged an animal which had 12 points to its antlers. Such a collection of points it was said is decidedly unusual.

Orrin C. Bourne, chief deputy of the fisheries and game division of the conservation department, a practical hunter, in explaining the reasons for the falling off in the number of deer killed this season said there decrease in a large measure is accounted for by the weather conditions which prevailed last week.

"Reports coming to the department showed that the ground in many sections was hard and that in some places snowed over to such an extent that a hard crust was on the surface. Under such conditions hunters can't help but make a noise while they are astonished."

Hymel is a pure pleasant antiseptic, which is breathed through the nose and throat deep into the head and lungs; It soothes the sore inflamed membranes, reduces swelling and quickly heals all inflammation.

Don't suffer another day with catarrh; the disease is dangerous and often ends in consumption. Start the Hymel treatment today. No stomach dosing, no sprays or douches, no dangerous drugs or narcotics. Absolutely harmless. Just breathe it—that's all. At leading druggists everywhere. Adv.

Here Is One Treatment That All Sufferers Can Rely Upon

If you want to drive catarrh and all its disgusting symptoms from your system in the shortest possible time, go to your druggist and ask for a Hymel outfit today. Breathe the air of Hymel and let it rid you of catarrh and chronic head colds; it gives such quick relief that all who use it for the first time are astonished.

proceeding through the woods with the result that the deer are warned of their approach. This, I believe, had much to do with the showing made this season.

Hard ground, he went on, also results in a situation in which it is impossible, or nearly so, for hunters to determine whether deer are in the neighborhood, because of the difficulty in noting their tracks.

"The ideal weather for the hunting of deer," he said, "is that when there is a light fall of snow. Then the presence of deer can be easily discovered by their tracks, while at the same time the white background in the woods throws the darker-skinned animal into relief when within sight of the hunter."

There is no unusual decrease in the number of deer in the state, according to Mr. Bourne, but there is a diminution in the number which may be found near the more thickly settled sections.

"The law now allows farmers to kill any deer which cause damage to their property," he said. "Large numbers have been slain throughout the state since the law was enacted."

as a result of this necessary legislation. The result has been that deer have become timid to an unusual degree when near a populated section and have consequently removed farther into the interior. To get them there, of course requires more perseverance on the part of the hunter."

BANQUET POSTPONED

The anniversary banquet of the O.M.U. Cadets, which was to have been held this evening at the Cadet armory in High street, has been postponed until next Wednesday evening. It was believed that a better time would be had if the anniversary and the annual Christmas tree for the members of the organization were held at the same time and accordingly the decision to postpone the affair was reached at a meeting of the Cadets last evening.

A profession which has flourished during the war and which is more prosperous in Paris at present than at any time is said to be that of fortune teller.

City Election Returns

Continued

of interest in the aldermanic fight. Commissioner Donnelly, always a popular vote getter, realized that he had a fight on his hands this year and his friends knew it, too. The incentive spurred the commissioner and his supporters to more active efforts than ever before and although "Jimmy" didn't deliver a single campaign address, he came through. But it was only after a close fight with George H. Brown. Only 254 votes separated the two men. The first half dozen or more precincts to come in gave Mr. Brown a handy lead and ward 6 seemed to make his election a surety. But Mr. Donnelly's strongholds were yet to be heard from and wards 4, 5, 7 and 9 put the commissioner over the top again.

Mr. Morse's defeat may be traced to the entrance of Mr. Salmon into the contest. More than one voter was heard to say before the election that he would vote for Mr. Morse if Mr. Salmon were not a candidate, but unfortunately no individual could vote for three men. Mr. Morse will retire this month after many years of continuous service at city hall.

The school committee fight was productive of a real surprise in the election of Mr. Markham and this is no reflection upon that gentleman. On the other hand, he deserves commendation for the excellent fight he made for a position. Mr. Delaney, like Mr. Salmon in the aldermanic fight, headed the list at the primaries and was generally conceded first place again at the election.

Mr. Lyle was generally mentioned as a second man, with Dr. Rooney giving him a good battle. But Markham's friends united and sent him into the committee with a safe margin over Mr. Lyle.

The license vote showed emphatically that the city is not satisfied with prohibition. Never was a larger majority rolled up on the "yes" side than yesterday. The no-license forces, of course, made no effort to oppose it.

Despite yesterday's almost continual rain there was a heavy vote polled. Although exact figures are not yet available as to the number of ballots actually cast, the majority vote indicates very nearly 15,000 male votes out of a total registration of 17,406. In 1917, the total vote was only 13,736. There is no doubt but what the inclement weather reduced the size of the women's vote to some extent but a good majority of the 6350 registered is thought to have come out.

Yesterday's election will mean only one change in the personnel of the municipal council next year as compared with 1919. John P. Salmon will take the seat now occupied by Commissioner Morse.

In the school board Chairman Richard

and Brook Walsh will retire this year as will Dr. William R. Thompson. Their places will be taken by Thomas R. Delaney and James E. Markham.

A ROYAL "BIG WEEK" THIS WEEK

Both features on our WEDNESDAY and THURSDAY program would be good for A WEEK'S RUN in any other theatre. That's just how good both of the pictures are.

ROYAL THEATRE

You know what a ROYAL BIG WEEK means now! Come TODAY or TOMORROW and see SOME show, No, some show.

"THE WOLF"

Eugene Walter's big stage success filmed at last. Star cast including PEARL WILLIAMS, ROBERT MCKIM, JANE NOVAK, BILLY MASON and a galaxy of other big stars. A regular he-man play produced in six acrobatically beautiful acts.

"The Moonshine Trail"

A poignant human drama—pathos and thrills with an Old Kentucky flavor. Starring SYLVIA BRESHER and ROBERT GORDON. Directed by Commodore J. Stuart. Six Acts.

"The Black Secret"

Fourth Episode of PEARL WHITE'S greatest and final serial. She will now devote her time to feature pictures, with one of the biggest producing companies in the world.

VOD-A-VIL MOVIES—FIVE ACTS OF VAUDEVILLE—COMEDY ALSO

CROWN THEATRE

WEDNESDAY AND THURSDAY ONLY—EXCELLENT PROGRAM

Pretty Dorothy Phillips in "Pay Me"

Five-reel feature with a complicated plot. A tremendous production with beautiful exteriors and some of the biggest sets ever built for any feature.

June Elvidge in "The Woman of Lies"

A story filled with human interest in which the popular star scores a great hit.

SERIAL—"SMASHING BARRIERS"—FORD WEEKLY

Mountain of raisin seeds, which now are saved from the dump heap.

PAINT YOUR HOUSE WITH RAISIN SEEDS

Scientists of the department of agriculture have devised methods for the utilization of raisin seeds, heretofore considered a waste product. Of the 40,000 tons of raisins seeded annually in the United States 4000 tons of seed go to the dump heap.

The development of an oil for use in manufacturing paints, varnishes and soaps is the chief by-product available. The initial step in utilizing the seed is the removal of adhering pulp which clings to the seed, the separation being effected by a cold water bath.

Syrup, agreeable in flavor and of a sweet fruity taste, is a product made from the fragments of pulp divorced from the seeds. Its qualities recommended the syrup as useful in household and commercial industries. The housewife who uses raisins in making mince-meat will find the syrup a satisfactory substitute that retains the flavor of the whole fruit. As a flavoring for carbonated drinks, the syrup suggests another possible use. From 555 to 740 tons of syrup annually, valued at \$50,000, is an estimate

ventured as to the magnitude of this by-product.

After removing the sugary pulp, the seeds are screened, dried and ground. Either is used in a continuous-extraction apparatus as a method of obtaining the oil. The yield is about 14.5 per cent of a pale, golden-yellow fluid, which possesses a slight fatty odor with a bland, nut-like taste. The ready-drying property of the oil, especially when treated with an ordinary drier such as lead oxide should enhance its value as a contribution to the paint and varnish industries.

Its quantities are favorable as an ingredient in the manufacture of varnish. Linseed and China wood oils are now used almost exclusively in varnish. Practical tests have likewise established the merits of raisin oil in the manufacture of soaps. Upon removal of the sugary substance from raisin seed there is a 20 per cent reduction of the weight of the seed. The total volume of oil capable of being produced from waste raisin seed has been computed as 464 tons or 120,520 gallons. The value would approximate \$50,000.

Chemical analysis, subsequent to the extraction of oil, indicates the presence of a dry extract containing 28.38

per cent of tannin, serviceable in tanning leather. An estimate is made that 890,000 pounds of dry tannin extract yearly will yield a revenue of \$240,000.

Still another source of wealth from the raisin seeds is the residue after extracting the oil and tannin material, the product being meal capable of utilization as cattle feed.

S. R. WINTERS.

TEXT OF PRES. WILSON'S PROPOSAL TO MINERS

INDIANAPOLIS, Dec. 10.—The text of President Wilson's proposal to the coal miners is as follows:

"I have watched with deep concern the developments in the bituminous coal strike and am convinced there is much confusion in the minds of the people generally and possibly of both parties to this unfortunate controversy as to the attitude and purposes of the government in its handling of the situation.

"The mine owners offered a wage increase of 20 per cent, conditioned, however, upon the price of coal being raised to an amount sufficient to cover this proposed increase of wages, which would have added at least \$150,000,000 to the annual coal bill of the people. The fuel administrator in the light of present information has taken the position, and I think with entire justification, that the public is now paying as high prices for coal as it ought to be requested to pay and that any wage increase made at this time ought to come out of the profits of the coal operators.

Dr. Garfield's Proposal

"In reaching this conclusion, the fuel administrator expressed the personal opinion that the 14 percent increase in all mine wages is reasonable because it would equalize the miners' wages on the average with the cost of living, but he made it clear that the operators and the miners are at liberty to agree upon a larger increase provided the operators will pay it out of their profits so that the price of coal would remain the same.

"The secretary of labor, in an effort at conciliation between the parties, expressed his personal opinion in favor of a larger increase. His effort at conciliation failed, however, because the coal operators were unwilling to pay the scale he proposed unless the government would advance the price of coal to the public, and this the government was unwilling to do.

"The fuel administrator had also suggested that a tribunal be created, in which the miners and operators would be equally represented, to consider further questions of wages and working conditions, as well as profits of operators and proper prices for coal. I shall, of course, be glad to aid in the formation of such a tribunal.

Operators Agree to Absorb Increase

"I understand the operators have generally agreed to absorb an increase of 14 per cent in wages so that the public would pay not to exceed the present price fixed by the fuel administration.

and thus a way is opened to secure the coal of which the people stand in need, if the miners will resume work on these terms pending a thorough investigation by an impartial commission which may readjust both wages and prices.

"By the acceptance of such a plan, the miners are assured immediate steady employment at a substantial increase in wages, and are further assured prompt investigation and action upon questions which are not now settled to their satisfaction. I must believe that with a clear understanding of those points they will promptly return to work. If, nevertheless, they persist in remaining on strike, they will put themselves in an attitude of striking in order to force the government to increase the price of coal to the public, so as to give a still further increase in wages at this time rather than allow the question of a further increase in wages to be dealt with in an orderly manner by a fairly constituted tribunal representing all parties interested.

Cannot Justify Refusal

"No group of our people can justify such a position and the miners owe it to themselves, their families, their fellow workers in other industries and to their country to return to work.

"Immediately upon a general resumption of mining, I shall be glad to aid in the prompt formation of such a tribunal as I have indicated to make further inquiries into this whole matter and to review not only the reasonableness of the wages at which the miners start to work, but also the reasonableness of the government prices for coal. Such a tribunal should within 60 days make its report, which could be used as a basis for negotiation for a wage agreement. I must make it clear, however, that the government cannot give its aid to any such further investigation until there is a general resumption of work.

"I ask every individual miner to give his personal thought to what I say. I hope he understands fully that he will be hurt in his own interest and the interest of his family and will be throwing countless other laboring men out of employment if he shall continue the present strike and further, that he will create an unnecessary and unfortunate prejudice against organized labor, which will be injurious to the best interests of workingmen everywhere.

"WOODROW WILSON"

Cold Wave Coming

Continued

Passenger train service ever known was effective today with extension of the federal railroad administration's saving order to the eastern region. The order already was operative in the other railroad regions. It was estimated 15,000 tons of coal would be saved daily by it, and that until the end of the present week, it would be necessary to save an additional 200,000 train miles daily.

Heavy Rainstorms

Pressing extension of the cold wave into the east and southeast heavy rain storms were prevalent through those sections yesterday, with extensive property damage in Georgia, Alabama and Mississippi and loss of three lives near Atlanta, Ga. In flood waters, railroad service was seriously handicapped in city streets inundated by the almost unprecedented rainfall.

In the western country where almost record snowfalls accompanied the unreasonable cold, rail and wire communication also was handicapped.

In Washington and Oregon, one of the worst snowstorms in a decade was recorded.

About Redding, Cal., five inches of snow had fallen today, an unusual amount for that region. A heavy storm was off the northern Pacific coast and storm warnings have been displayed up and down the coast.

30 Below in Montana

No general moderation was forecast for today, although in some sections of the west, weather bureaus said that thermometers would rise by tomorrow. The wide range of the cold weather was indicated by reports of sub-zero readings from these places: Lander, Wyo., 34 below; Havre, Mont., 30; Williston, Mont., 30; Helena and Miles City, Mont., and Cheyenne, Wyo., 23; Devil's Lake, Minn., 25; North Platte, Neb., 22; Pueblo and Denver, Col., 20; Minneapolis, Minn., and Spokane, Wash., 8; Omaha, Neb., and Concordia, Kan., 6; and Chicago 3.

In Chicago down town streets were in semi-darkness, lighted only by the street lights and lights in stores and restaurants where business was not curtailed by fuel restrictions. Patrons rode in street cars that were unheated despite a temperature that hovered about zero.

Lightless Nights

Pittsburg felt its first lightless night.

How To Keep in Good Condition

Sound nerves, a clear head, good digestion, strength, endurance and general health depend upon clean blood. If the kidneys and bladder do not properly perform their functions, the blood cannot be clean and pure, for these organs filter and cast out the waste matter, impurities and poisonous acids that cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under the eyes and other weakening symptoms.

WAS RELIEVED AT ONCE

"I was afflicted with kidney and bladder trouble for nearly 6 years. Had one very bad spell about 5 years ago. Was confined to bed for 6 or 8 days, unable to move without help. I contracted using Foley's Kidney Pills and again—'I was relieved at once. I take them—recommending your kidney pills to all—'re kidney trouble.' John Heath, Mich., 28 Bar, California.

FOLEY KIDNEY PILLS

soothe, strengthen, heal overworked, weak and diseased kidneys and bladder. When these organs are working properly, the blood is cleansed and purified, appetite returns, good digestion follows, refreshing sleep is possible, health and strength come again. They have brought relief to thousands of men and women who thought old age was coming on before it was due.

Burkhardt Drug Company, 415
Middlesex street, Moody's Drug Store,
301 Central street.

Sleep Like a Top

You can, just as soon as you get rid of that stomach and liver trouble and not before. Sleeplessness is frequently due to disorder in the organs of digestion, and consequently, to avoid it you must put these organs right. The use of narcotics is not only dangerous but leaves the cause of the trouble untouched and should therefore be avoided. The surest means of finding relief in the circumstances referred to is undoubtedly Beecham's Pills.

After Taking

a few doses of this famous medicine the digestive functions will resume their energy, the sluggish liver become active, the bowels healthily regulated. There are thousands of men and women to-day who have experienced the great value of the World's in this respect, and the causes of distress can be effectually removed by

Family Medicine know that some of tressing sleepless-ally removed by

Beecham's Pills

At All Druggists, 10c, 25c

due to the miners' strike, last night when all electric signs were cut off.

Kansas City's announcements today were permitted to open for four hours a day, 7 to 11 p. m., under a new ruling by the coal committee, which had closed such places since Dec. 1. It was said the fuel situation there was slightly improved.

While optimistic regarding settlement today of the strike by the Indianapolis conference, there was no letup in effort to have coal brought out by volunteer miners in states where that system of production had been resorted to.

At the other mines, the most impressive improvement was noted in the unionized Kanawha fields of West Virginia, where it was reported 35 mines were operated yesterday, a gain of 10 in 24 hours.

CLEMENCEAU'S TRIP TO LONDON IMPORTANT

PARIS, Dec. 10.—Premier Clemenceau's trip to London will be of great political importance according to newspapers here which say that during his stay at the British capital he will discuss the Adriatic, Russian and Turkish questions and will seek to bring about co-operation among entente nations in working out solutions of world problems. Another topic which will be discussed, according to report, will be exchange rates. Uneasiness which is felt at the present time, will be dissipated by M. Clemenceau's conversations in London, according to the Gaulois, while the Echo de Paris says the principal object of the trip is the strengthening of the bonds between

the countries "as the first step in the organization of our alliances."

Vittorio Scialoja, Italian foreign minister, who is now in London, will participate in the conference. M. Clemenceau will hold with British ministers, according to the Matin.

SUN EXTRA SOLD LIKE HOT CAKES

The Sun takes justifiable pride in its election service as contained in the extra edition of the paper early last evening. To be very exact, copies of the election extra were on the street at 6:17 o'clock, just two minutes after the last precinct returns arrived at city hall. Through pre-arranged service direct from the precinct booths to this office, however, The Sun was able to more than keep pace with the returns at the city clerk's office. The extra went like hot cakes, by the way, which is satisfactory endorsement of an attempt to give real public service, instantaneous and accurate.

An Influenza is an exaggerated form of Grip. LAXATIVE BROMO QUININE Tablets should be taken in larger doses than is prescribed for ordinary Grip. A good plan is not to wait until you are sick, but PREVENT IT by taking LAXATIVE BROMO QUININE Tablets in time.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, so double its beauty. You can have nice, thick hair, too.

The Gilday Gown Shop

122 Central Street Strand Theatre Building

READY FOR ANOTHER BIG DAY

TOMORROW BRINGS

The Great Half-Price Sale

TO A CLOSE

The opportunity to obtain these smart GILDAY and "BETTY WALES" models for half-price soon will be past. Women all over the city are talking about the wonderful values in this GILDAY SALE. The response has been wonderful—even in excess of my expectations.

My good business friends have taught me this:—THAT THE LIFE BLOOD OF A SUCCESSFUL RETAIL BUSINESS IS NEW GOODS. AND NEW GOODS REQUIRE SPACE FOR THEIR DISPLAY AND SALE. So regardless of the desirable qualities of this merchandise—regardless that the only thing wrong with many a garment here, is that it is the only one of its kind left—regardless of the fact that much of it could not be replaced today to sell even at its original price—regardless that this half-price sale means considerable losses, still I am determined to sweep this shop clean of all odds and ends to make room for new goods.

Because my models were purchased with such exacting care, many women who come to this sale tomorrow will be almost as fortunate as those who attended the first day. Come early tomorrow if you would like to own a GILDAY COAT, SUIT or DRESS for exactly HALF-PRICE.

Yours for personal service

Gertrude Gillespie Gilday

MOORE AND HAYES HAVE FINE RECORDS
LOWELL WINS BY A GARRISON FINISH

The bout between Roy Moore of St. Paul and Chick Hayes, formerly of Indianapolis, now of Boston, at the Crescent rink tomorrow night will be the third meeting of this sensational pair and both are anxious to come out on top. At Milwaukee, Wis., Moore and Hayes fought a thrilling 10-round draw, while at Colorado Springs the pair mingled in a slashing 15-round bout that was declared a victory for Moore. Since that time many promoters have tried to rematch the pair, but it remained for the local management to land the match.

Moore and Hayes both have fine records and a glance at the bouts in which they have appeared will disclose engagements with about all the good bantamweights of the country. The names of Pat Moore, Champion Pete Herman, Pekin Kid Herman, Frankie Mason, Benny Meloy, Eddie Coulton, Johnnie, Dick, Loadman, Monte Attell, Zulu Kid, Joe Lynch, and many other notables appear in the lists.

Leo "Publicity" Flynn, manager of Moore, says his boy has boxed to more referees' decisions than any of the present day bantams. He bars none.

The preliminary card for tomorrow night's meeting, the matchmaker says, will be in keeping with the high class main event.

AMERICAN LEAGUE IN ANNUAL MEETING

NEW YORK, Dec. 10.—If the dove of peace hovered over the annual meeting of the American Baseball League today it was obscured from sight by the smoke screens thrown out by rival factions in the league.

Up to the time of the arrival here yesterday of President Ben Johnson and his five "loyal" supporters, hopes were entertained that the split in the ranks would be healed. Conferences between representatives of the two factions, however, lasting well into the night, broke up with the breach apparently as wide as ever.

Charles Comiskey of Chicago, Jacob Ruppert and Col. T. L. Huston of New York and Harry Frazee of Boston, who have been opposing President Johnson, declared that "the professions of peace" made by Johnson were "insincere." They also asserted that the president and his followers intended to "railroad through" legislation favorable to their interests.

The minority clubs issued a statement saying that in case the majority teams pushed through President Johnson's program, they would take retaliatory measures and would not submit to "the tyranny of those who merely register the will of this discredited man."

"I never looked for a fight in my life," President Johnson said when he was asked if he was for peace. "I have come here of my own accord with five sensible club owners. I thought it best to thrash the whole thing out at one time. If the other side is prepared to start any trouble, we shall be prepared to meet them."

A meeting of the board of directors this morning preceded the assembling of the club owners, called for this afternoon.

The National League which opened its annual meeting yesterday, was in session again today. It is probable that the meeting may last until the end of the week, on account of the press of "urgent business" President Heydler said.

LOWELL WINS BY A GARRISON FINISH

By a thrilling garrison finish Lowell won from Fall River in a fast game of polo before a good sized crowd at the Crescent rink last night. The score was 7 to 3.

The game was well contested for two periods, but Lowell cut loose a burst of speed in the final stanza and swept the opposition off its feet and with four goals percolating through Purcell's pads, while Fall River failed to invade Pence's "territory," the Har-kins crew added one more to the victory column.

Jack Finnell, who played with Lowell two years ago, was in the lineup last night in place of Jack O'Brien, who is out of the game with an injured hand. He put up a good exhibition. When he hopped into the cage the fans gave him a cordial greeting. Lowell got the jump in the first session by scoring three goals, while the visitors landed but one. In the second session Jean got his "tigers" going and the ball rolling to desire two goals were added to Fall River's score, while Lowell failed to register. The third and final session was one of action, with Har-kins breaking the tie and Davies coming through with three "beauts."

Davies and Har-kins played a high class game, with Davies getting four goals and the captain landing three in the nets. Griffith also worked at his usual fast clip, while Finnell and Pence took good care of the defensive work. Pierce and Hart showed a fine offensive combination while Jean was as effective as ever. The score:

LOWELL	FALL RIVER
Davies, Jr. 1r. Pierce	Harkins, Jr. 2r. G. Hart
Harkins, Jr. 2r. G. Hart	Griffith, Jr. 3r. Cusick
Griffith, Jr. 3r. Cusick	Finnell, Jr. 4r. Purcell
Finnell, Jr. 4r. Purcell	Pence, Jr. 5r. Purcell
Pence, Jr. 5r. Purcell	
(First Period)	
Won by, Caged by	Time
Lowell, Harkins	11:22
Fall River, Pierce	1:20
Lowell, Harkins	1:41
Lowell, Davies	2:1
(Second Period)	
Fall River, Jean	4:40
Fall River, Hart	6:25
(Third Period)	
Lowell, Harkins	7:11
Lowell, Davies	7:18
Lowell, Davies	7:24
Lowell, Davies	7:24
Summary: Score—Lowell 7, Fall River 3. Rushes: Davies 8, Pierce 7. Stops: Pence 35, Purcell 50. Fouls: Pence, Referee, Carroll.	

POLO NOTES

Davies is showing remarkable improvement. His work last night stood out prominently and his efforts throughout the game brought vigorous applause.

Lawrence has recalled Ryan to play halfback and the team has again hit a winning stride.

Lyons, new Providence half-back, is a high class player, one of the veterans of the game. He's a big, powerful fellow and is proving a "lover" of strength for the Gold Bugs.

New Bedford, now tied for first place, will play here on Friday night.

Jack Finnell played well last night.

POLO LEAGUE STANDING	Won	Lost	Pct.
New Bedford	21	17	55.3
Salem	21	17	55.3

educational system that will place the American soldier on the highest plane of efficiency, is the problem receiving main consideration of the convention at Camp Zachary Taylor of representatives of the army and educational institutions.

Establishment of a code for officers by which the old "driving" methods are abandoned, and setting aside of certain hours each day, in which the soldiers must apply himself to educational work, are two recommendations of the convention.

In the Lady chapel of the great cathedral in Liverpool is a magnificent array of stained glass windows in commemoration of the deeds of good women.

TWO NEW MEN ELECTED TO THE SCHOOL COMMITTEE

JAMES E. DONNELLY *

WASHINGTON, Dec. 16.—Drastic steps are being taken by the shipping board to prevent stowaways entering the United States. Today an order was issued requiring the greatest vigilance in the search for stowaways. Under the order a captain who permits a stowaway to reach America will be removed from command.

Stowaways as a rule, it was pointed out, are undesirable citizens of other countries who cannot obtain passports and take this method of reaching America. Many of the most objectionable radicals are believed to have reached this country in such a manner.

ley and platform.

Mayor Thompson invited the delegates to hold the 1920 convention at Chicago where, he said, "the people are imbued with the "Americanism of Washington and the republicanism of Abraham Lincoln."

He attributed the present unrest to action of the present administration in "getting out into uncharted seas of international quarrels and jealousies" and brought cheers from the delegates when he declared that the people of Chicago "believe in getting out of Europe and staying out."

Speaking for the Chicago Association of Commerce, Fred W. Upham said the Illinois city would guarantee all the

I'll Be a Volunteer Santa Claus FOR THE SANTA CLAUS BUREAU

I will provide a Merry Christmas to ——— poor children,
I will help make Christmas happier for ——— poor families,
which will include things to wear and eat

OR

I will contribute \$—— to the Santa Claus Bureau fund for the purchase of Christmas gifts for poor children.

Send me the names and addresses of poor children, or poor families, who live near my home.

OR

I prefer to send my Christmas gifts to the headquarters of the Santa Claus bureau for distribution.

Name _____
Address _____

NOTE TO SIGNER—Fill in above the number of poor children or families you will be Santa Claus to. And state whether you will take your gifts to the homes of those you will cheer, or wish to send your contributions to the club for distribution.

Please mail or send to Girls' Community Service Club, Fourth floor, Runels building, Merrimack square.

SANTA CLAUS BUREAU AND CHRISTMAS FUND

Great preparations are being made at the Girls' Community Service club for the two events at the end of the week in aid of the Santa Claus bureau and Christmas fund. On Friday evening five of the girls will present the farce, "A Box of Monkeys" under the direction of Miss Katherine Bailey, assistant recreational director. In the evening Mrs. Anna Kierce, Anna Marshall, Marion Cornell, Anna Riley and Alice Curran. Dancing will follow the entertainment.

Commencing at 3 o'clock Saturday afternoon the Christmas bazaar will be held in three of the club rooms on the fourth floor of the Runels building. All sorts of gifts will be on sale at attractive booths, including candy, handkerchiefs, embroidered articles, as well as cake and preserves. A bean supper will be served between the hours of 5 and 7 o'clock. This will not be open to the public, but will be regulated as are all the club dances.

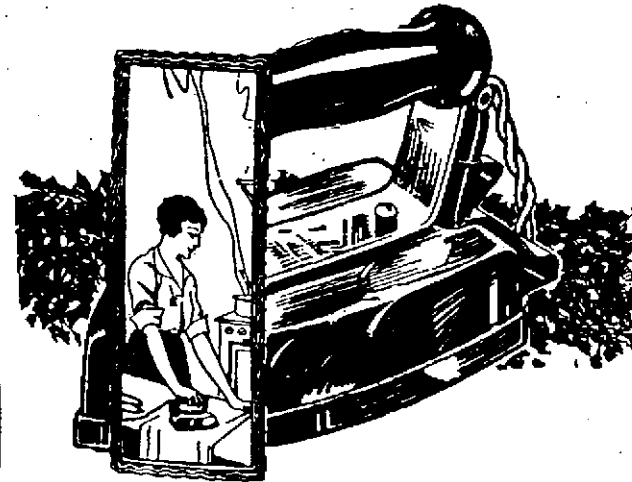

The headquarters of the Santa Claus bureau is filling up with children's gifts and interest in the scheme is growing by leaps and bounds. The bureau fund has grown to \$80.99, including a contribution of \$10 today from Mrs. Frederic A. Flather. One of the rooms at the Lawrence hostelry has pledged more than \$11, which will be available on Saturday and other club girls have commenced to make similar canvasses in the place at which they work.

Nearly 150 letters to Santa Claus have been received through the mail box outside the building and committees are at work investigating them and classifying the wants as contained in the letters. Two troops of Girl Scouts have taken dolls to dress and a big consignment of toys has been donated by the Kresge store. Substantial discounts have been offered by other stores.

LOWELL'S SUGAR SUPPLY NEARLY EXHAUSTED

That Lowell's sugar supply is practically exhausted and that unless more shipments are received in the next few days the city will be faced with an actual "famine" was the consensus of opinion of several representative wholesale grocers interviewed today.

Many of the city's retail grocers are unable to supply their customers with this sweet at the present time, and in one or two instances blame the wholesalers for the shortage, declaring that there is sugar in town which is being held back by the wholesale men.

The wholesalers deny this charge emphatically. They say they would be glad to supply the retail men with sugar if they had it, but when there isn't any to sell, they can't sell it, that's all.

Some of the wholesalers said they were expecting shipments at any time now and one man declared that a large shipment had been promised him today—but he wasn't sure whether it would materialize.

Another dealer said he expected the shortage would continue until the first of the year when the federal regulations controlling prices are abolished. He believed that the situation would gradually improve from then on.

Asked if he expected an increase in the price of this most necessary adjunct to the housewife's larder, he said there would undoubtedly be an increase of a few cents.

VITAL STATISTICS OF THE STATE

Harold D. Wilson, state registrar of vital statistics, was a visitor at city hall this morning and spent considerable time with City Clerk Stephen Flynn in going over various matters concerning the reporting of various data from this city to the state house in connection with the compilation of the vital statistics of the state.

Mr. Wilson expressed himself well pleased with the way the work is being handled in Lowell, especially in comparison with other cities of the commonwealth. It is away ahead of some cities, he said.

Asked if there were any details in which the city might improve in this work, Mr. Wilson said that in the matter of reporting births it is evident that many doctors don't realize the importance of the information which they give. Some of them are careless about names and addresses but on the whole they do exceptionally well.

Mr. Wilson is a former newspaper man and well acquainted with a number of Lowell people.

CITY HALL DOPESTERS WORK OVERTIME

City hall vibrated long and loud today with echoes of yesterday's election results and from the medley of "I-told-you-so's" came speculation as to what effect the election would have on next year's city government.

Mayor Thompson, of course, will again be the city's chief executive and the only change in the municipal council's personnel will be the departure of Commissioner Charles J. Morse from the department of water works and fire protection and the arrival of John F. Salmon as the new commissioner.

What department Commissioner-elect Salmon will direct in 1920 is a question that had city hall people speculating today. The first and natural assumption was that he would take the department that his predecessor is leaving and that the rest of the government would proceed as it has this year, with Commissioner Donnelly in the finance department, Commissioner Marchand in the public property department and Commissioner Murphy in the street department. The mayor, of course, will again direct the department of public safety.

But friends of Mr. Salmon say that he is not over-eager to go to the water department and has his eye on the finance department which Commissioner Donnelly now directs. On the other hand, Commissioner Donnelly has displayed no signs of wishing to yield his department, even though a shake-up of assignments should land him in some berth other than the water department.

Last year a similar problem arose when the water department was seeking a leader but Commissioner Morse settled the difficulty by volunteering to take over the water and fire protection section of the municipal machinery. So far this year no volunteers have made themselves known. Four weeks intervene between today and inauguration day, Jan. 5, and for that reason it is a little too early to predict with any degree of certainty what the department assignments for 1920 will be. But from the present inclinations of the four members of this year's government who will be in the saddle again next year, it looks as though "Salmon will have to take to water," as one dopester put it this morning.

It is generally conceded that the

Before taking your train home from Boston, get The Sun at either newsstand in the North station.

Are you still washing clothes as your grandmother did?

UP at daybreak—rubbing, rubbing, for hours, over the wash tubs—

Standing beside the hot stove, turning and lifting the heavy steaming garments in the boiler—filling the room with clouds of steam—

That was the way grandmother washed—not because she wanted to—but because she had to. No better way had ever been found.

Now a better way has been found—a way that saves all this labor, all this wear on the clothes.

The modern way of washing—You soak the clothes clean

Rinso, the wonderful new form of soap—in granules—makes this new way of washing possible.

The fine granules are so rich in cleansing value, they loosen every particle of dirt as the clothes are soaking overnight. In the morning you rinse them and only the very soiled spots, like

Soak the clothes and
rinse—that's all!

Soak the clothes and
rinse—that's all!

the edges of collars and cuffs, will need a light rubbing—just between your hands, in the Rinso suds.

You do not boil the clothes, or give them any real rubbing. You use no cake soap or "washing powder." And one package of Rinso does your whole week's washing.

Makes clothes last twice as long

It is rubbing on the washboard that wears out your clothes quickly—it is harsh "washing powders" that make fabrics "fall apart"—that destroy colors.

Rinso loosens all the dirt while the clothes soak and it is so pure that your clothes are as safe in the Rinso suds as in pure water alone.

And Rinso cleans as perfectly in cold water as in warm!

Next time do your washing the modern way—the wonderful Rinso way. Soak your clothes clean—instead of the old rubbing and boiling way.

Order Rinso from your grocer today—and follow the easy directions on the package. Lever Bros. Co., Cambridge, Mass. (Makers of Lux).

Rinso

The new form of soap for the family washing

Water department does not present the obstacles and difficulties at the present time that it has in the past and that with proper management and judgment it can be conducted without trouble by any commissioner or willing to give time and effort to it. But just how the thing will finally settle itself is a matter left for determination on Jan. 5.

Upstairs in the school committee chamber there will be even greater changes than down in the aldermanic chamber. Two new faces will make their appearance in 1920 and a new chairman will have to be elected. The newcomers, Thomas B. Delaney and James B. Markham, with Julian R. Keyes, William L. Crowley and Gardner W. Pearson, will make up the new school board.

Speculation in this respect centres itself on the choice of a chairman. Will Mr. Keyes be given the office as a mark of respect for seniority as a school board member or will it go to Mr. Delaney? The latter's name was prominently mentioned today. It is a fact that Mr. Pearson would not want the position inasmuch as he will have further duties as the senator from the seventh Middlesex district. Mr. Crowley undoubtedly would not be adverse to the position but it is believed that he would willingly vote for Mr. Delaney if the latter's name came up. Mr. Markham, also, is not to be disregarded.

But again the final shuffle is delayed until January. The school committee of 1920 will hold its first meeting Jan. 6, when it will organize and elect its chairman.

Charles J. Morse, who retires this year after six years' service as commissioner at city hall, plans to make a trip to the west early next year and feels that he will know have an opportunity to enjoy a needed rest.

City Council Meeting
Continued

permission to maintain a gasoline pump at 320 Bridge street was referred to Commissioner Morse and the city solicitor.

Margaret W. Merrill petitioned for a granite sidewalk at Moody and Prince streets. Referred to Commissioner Murphy.

Max Snow of Chelsea petitioned for

an itinerant vendor's license to conduct a store at 115 Merrimack street. The matter was referred to the assessors, who will levy a special tax and bring their recommendations to the council.

The petition of Thomas McOsker et al for a sewer on Sayles street was referred to Commissioner Murphy.

Com. Murphy said that four applications of oil had been put on the street on petition of abutters and no complaint was made until the work was finished. The council voted to give the petitioners leave to withdraw.

The following petitions will be given hearings Dec. 15: New England Telephone & Telegraph Co., pole locations in Franklin, South Whipple and Dodge streets.

Commissioner Murphy reported favorably on the following petitions, and the accompanying orders were adopted: M. J. Markham, edgestones, 78 Chauncey avenue, and Albert and Helen E. Fielding et al, sewer in Haines avenue.

Commissioners Murphy and Marchand

reported favorably on the following petitions and the accompanying orders were adopted:

New England Telephone & Telegraph company, pole location in Avon and White streets; and Lowell Electric Light corporation, pole locations in South Walker and Cushing streets.

A petition signed by Charles H. Hobson and others asked that the sidewalk in Sheppard street in the Oakland be repaired. Referred to Commissioner Murphy. Similar action was taken on the petition that a light be installed in Oakland path between Parkview and Holyrood avenues.

Commissioner Morse reported favorably on the following petitions and the licenses were granted: Charles G. Vian, garage and gasoline, 666 Lakeview avenue; Burrell-Faulkner Co., garage and gasoline, 557 Merrimack street; Carleton & Hovey, garage, 21 Post Office avenue; L. H. Hovey, garage, 156 Powell street; Larkin T. Trull, garage, 56 Fairmount street; John Brady, gasoline, 155 Church street; Clara L. Conant, garage and gasoline, 316 East Merrimack street, and Nemock Specialty company, garage, Hogue avenue.

The Cycle Outlet company petitioned for permission to maintain a gasoline pump at 125 Palace street and Commissioner Morse reported that he had examined the premises and found them to comply with the state law, but that Commissioner Murphy of the street department would also have to give his approval. The latter moved that immediate action be taken and accordingly the council voted to grant the license.

New Pump Foundations

Commissioner Morse then asked the mayor to read a letter from the Worthington Pump & Machinery corporation, advising the commissioner that the foundation bolts, plates and washers for the new pump which the council had voted to buy some time ago had already been shipped.

The commissioner then explained that in order to expedite matters as much as possible so that the city would be ready for the pump as soon as it is delivered, he had sought the services of Frank A. Barbour, a consulting engineer of Boston, to make an estimate of the cost of removing the old foundation at the pumping station in West Sixth street and installing the new foundation and other incidentals necessary

to the erection of the pump. The estimate also includes new piping, labor and the inspection and testing incidental to the installation of the pump. The total estimated cost, including 10 per cent. for contingencies, is \$12,365.

Mr. Morse said that he would like Mr. Barbour to have full charge of the work and that his price was reasonable. He suggested that the contract for the preliminary work be let out as soon as possible.

Mr. Barbour said that the estimate he had made was a liberal one and that inasmuch as the pump is to be shipped here by the middle of February and time is the essence of the contract, he would advise that work on the foundation be started as soon as possible. He also recommended the early installation of a new boiler at the pumping station.

Mayor Thompson said that he believed the members of the council should give the matter a little deliberation and it was voted to lay it on the table with the understanding that it is to come up at next week's meeting of the council. The council adjourned at 10:57 until tomorrow morning at 11 o'clock when it will approve monthly bills.

Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails. —Adv.
